

# Whaller

**Communicate and collaborate  
in complete security**

Platform and features

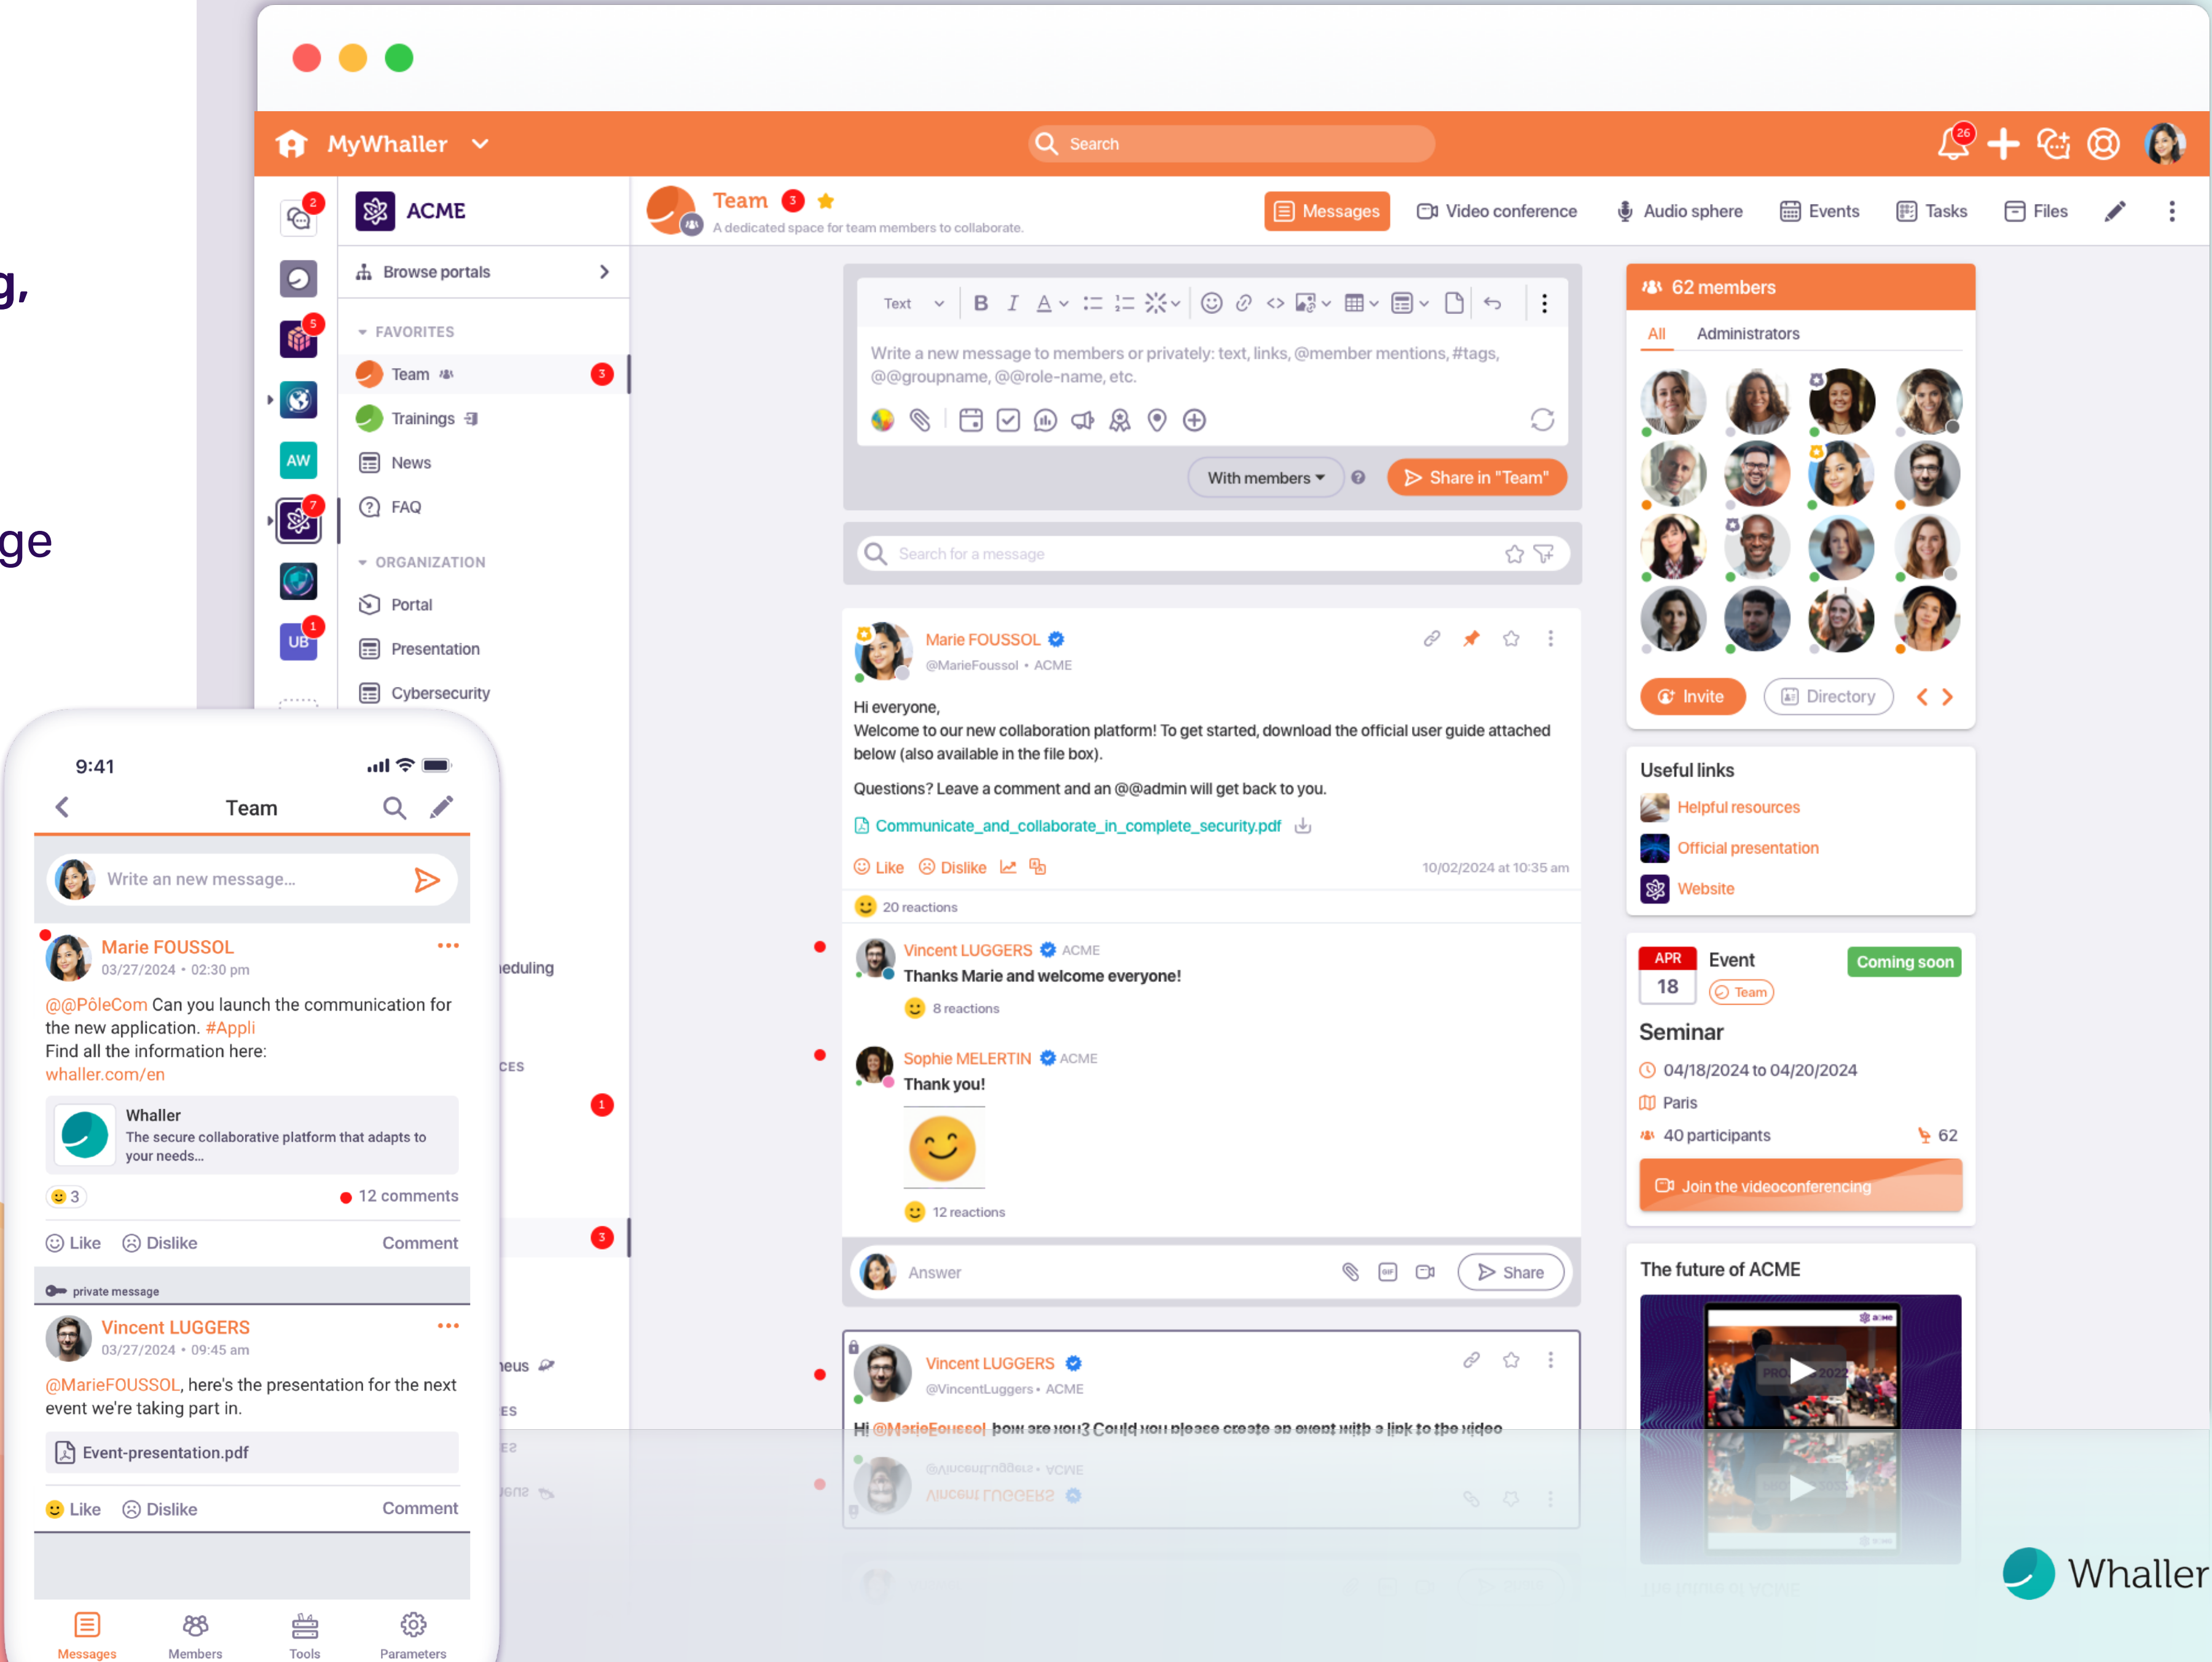

# Contents

<b>Whaller in a nutshell: spheres, organizations, federations</b>	<b>3</b>
<b>Spheres - Social network and collaboration tools</b>	<b>7</b>
<b>Organizations - A complete intranet</b>	<b>23</b>
<b>The platform - A unified digital workplace in your image</b>	<b>34</b>
<b>Whaller offers</b>	<b>40</b>
<b>Contact us</b>	<b>41</b>

# Spheres

Sealed and secure, spheres are contextualized spaces for sharing, discussion and collaboration.

True work platforms, they allow a community of members to exchange messages, documents, images, videos, surveys, events...

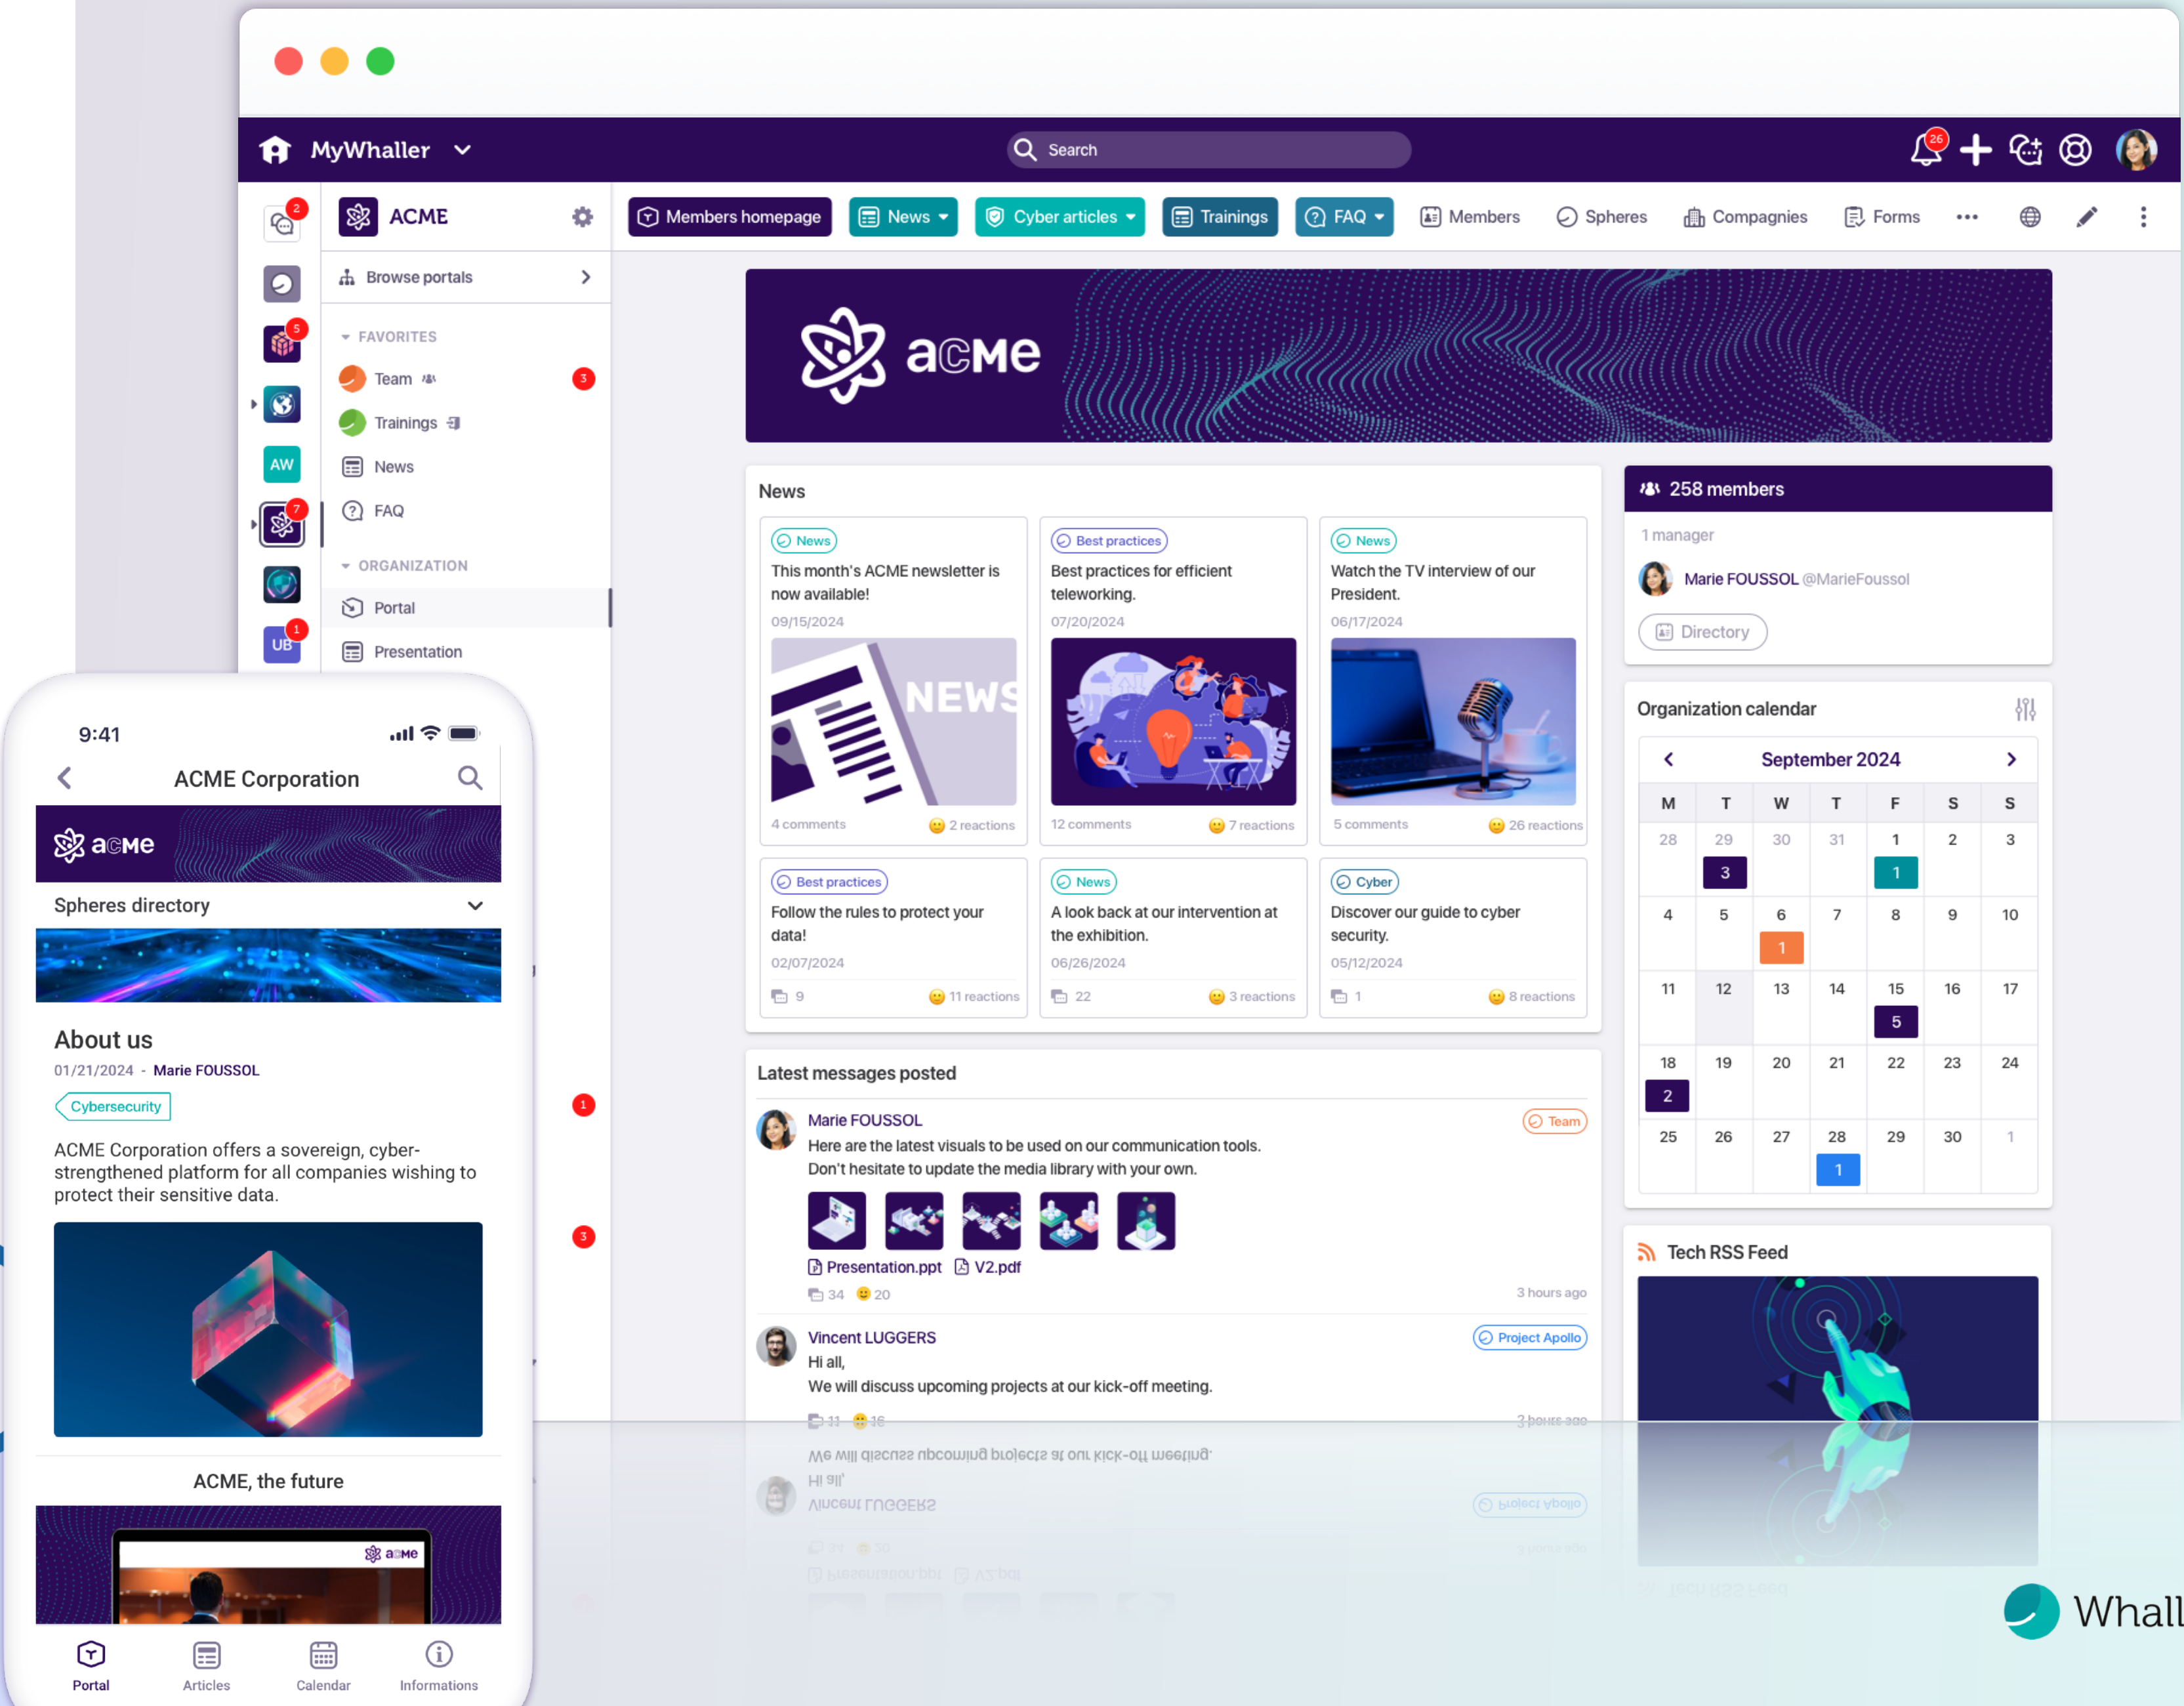

# Organizations

Veritable social intranets, organizations allow you to bring together multiple spheres and members in one central place.

Organizations are fully customizable and scalable.

They include a variety of transversal tools: portal, articles, widgets, badges (rewards), store...

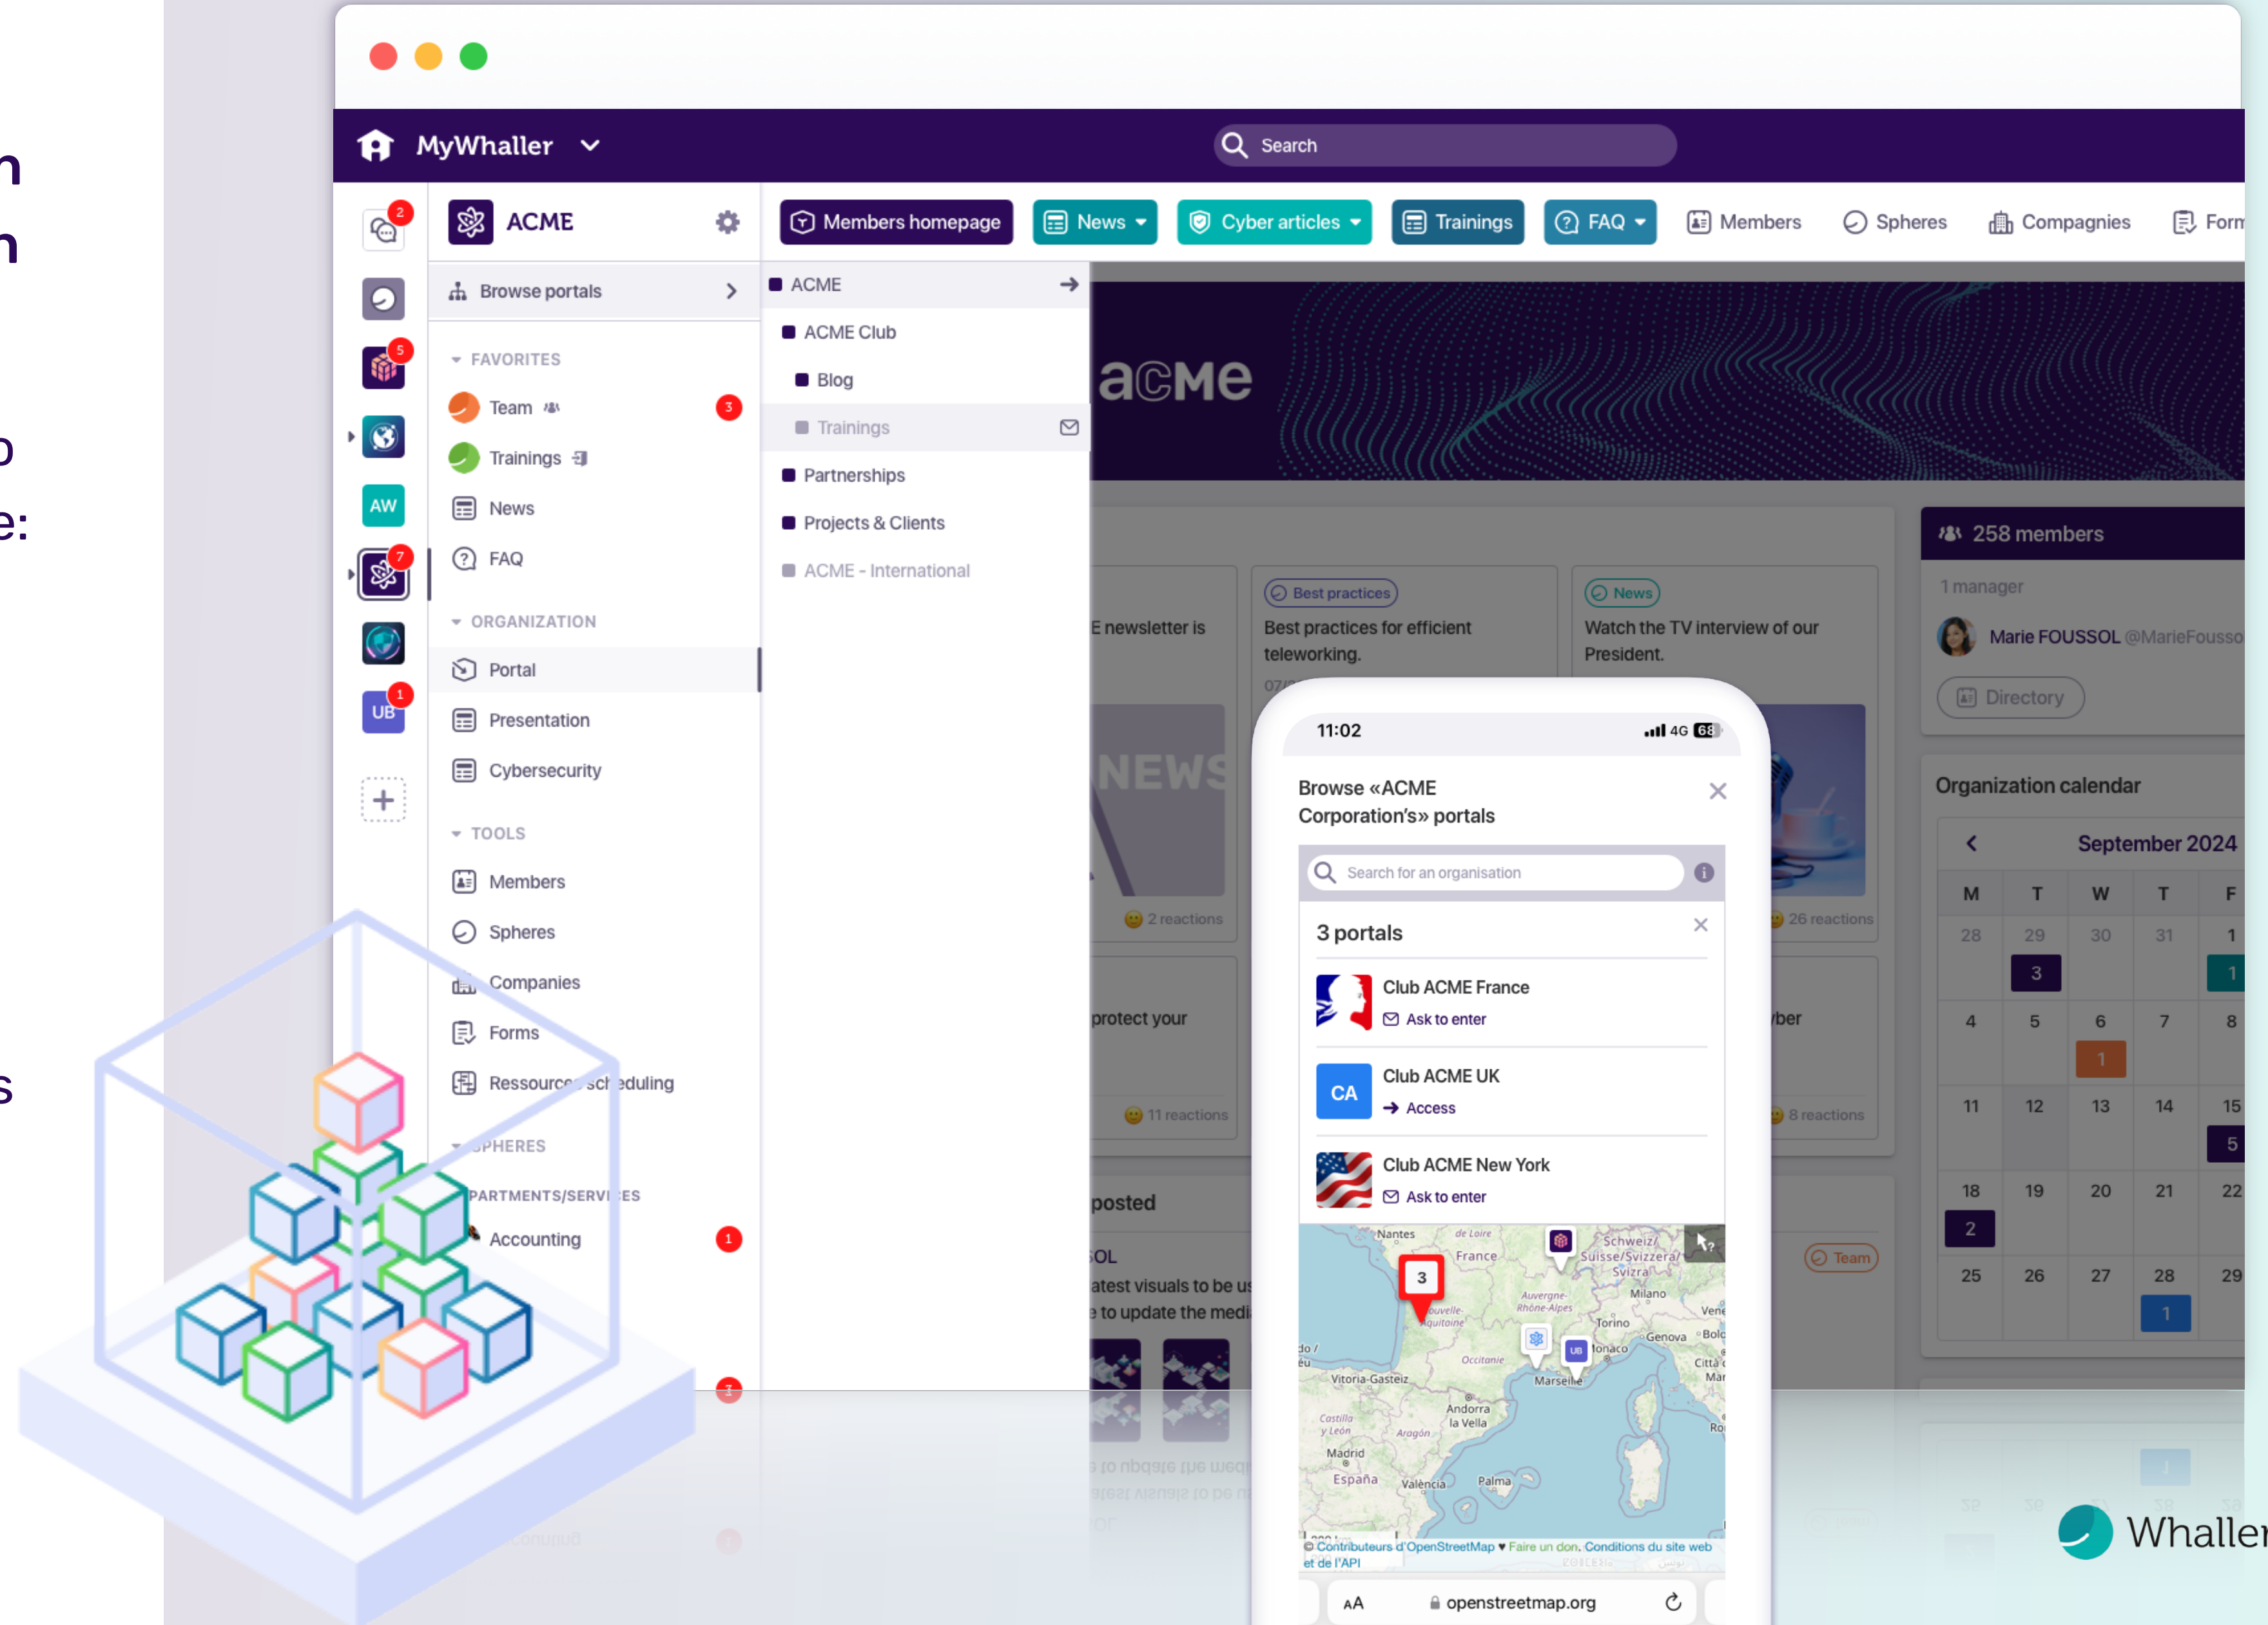

# Federations

Easily manage multi-organization networks by arranging them in an arborescent manner.

Federations are particularly suited to large, federal structures, for example:

- a group and its subsidiaries
- a sports league and its clubs
- an association with branches in different territories
- a public service with local agencies

# Discussions

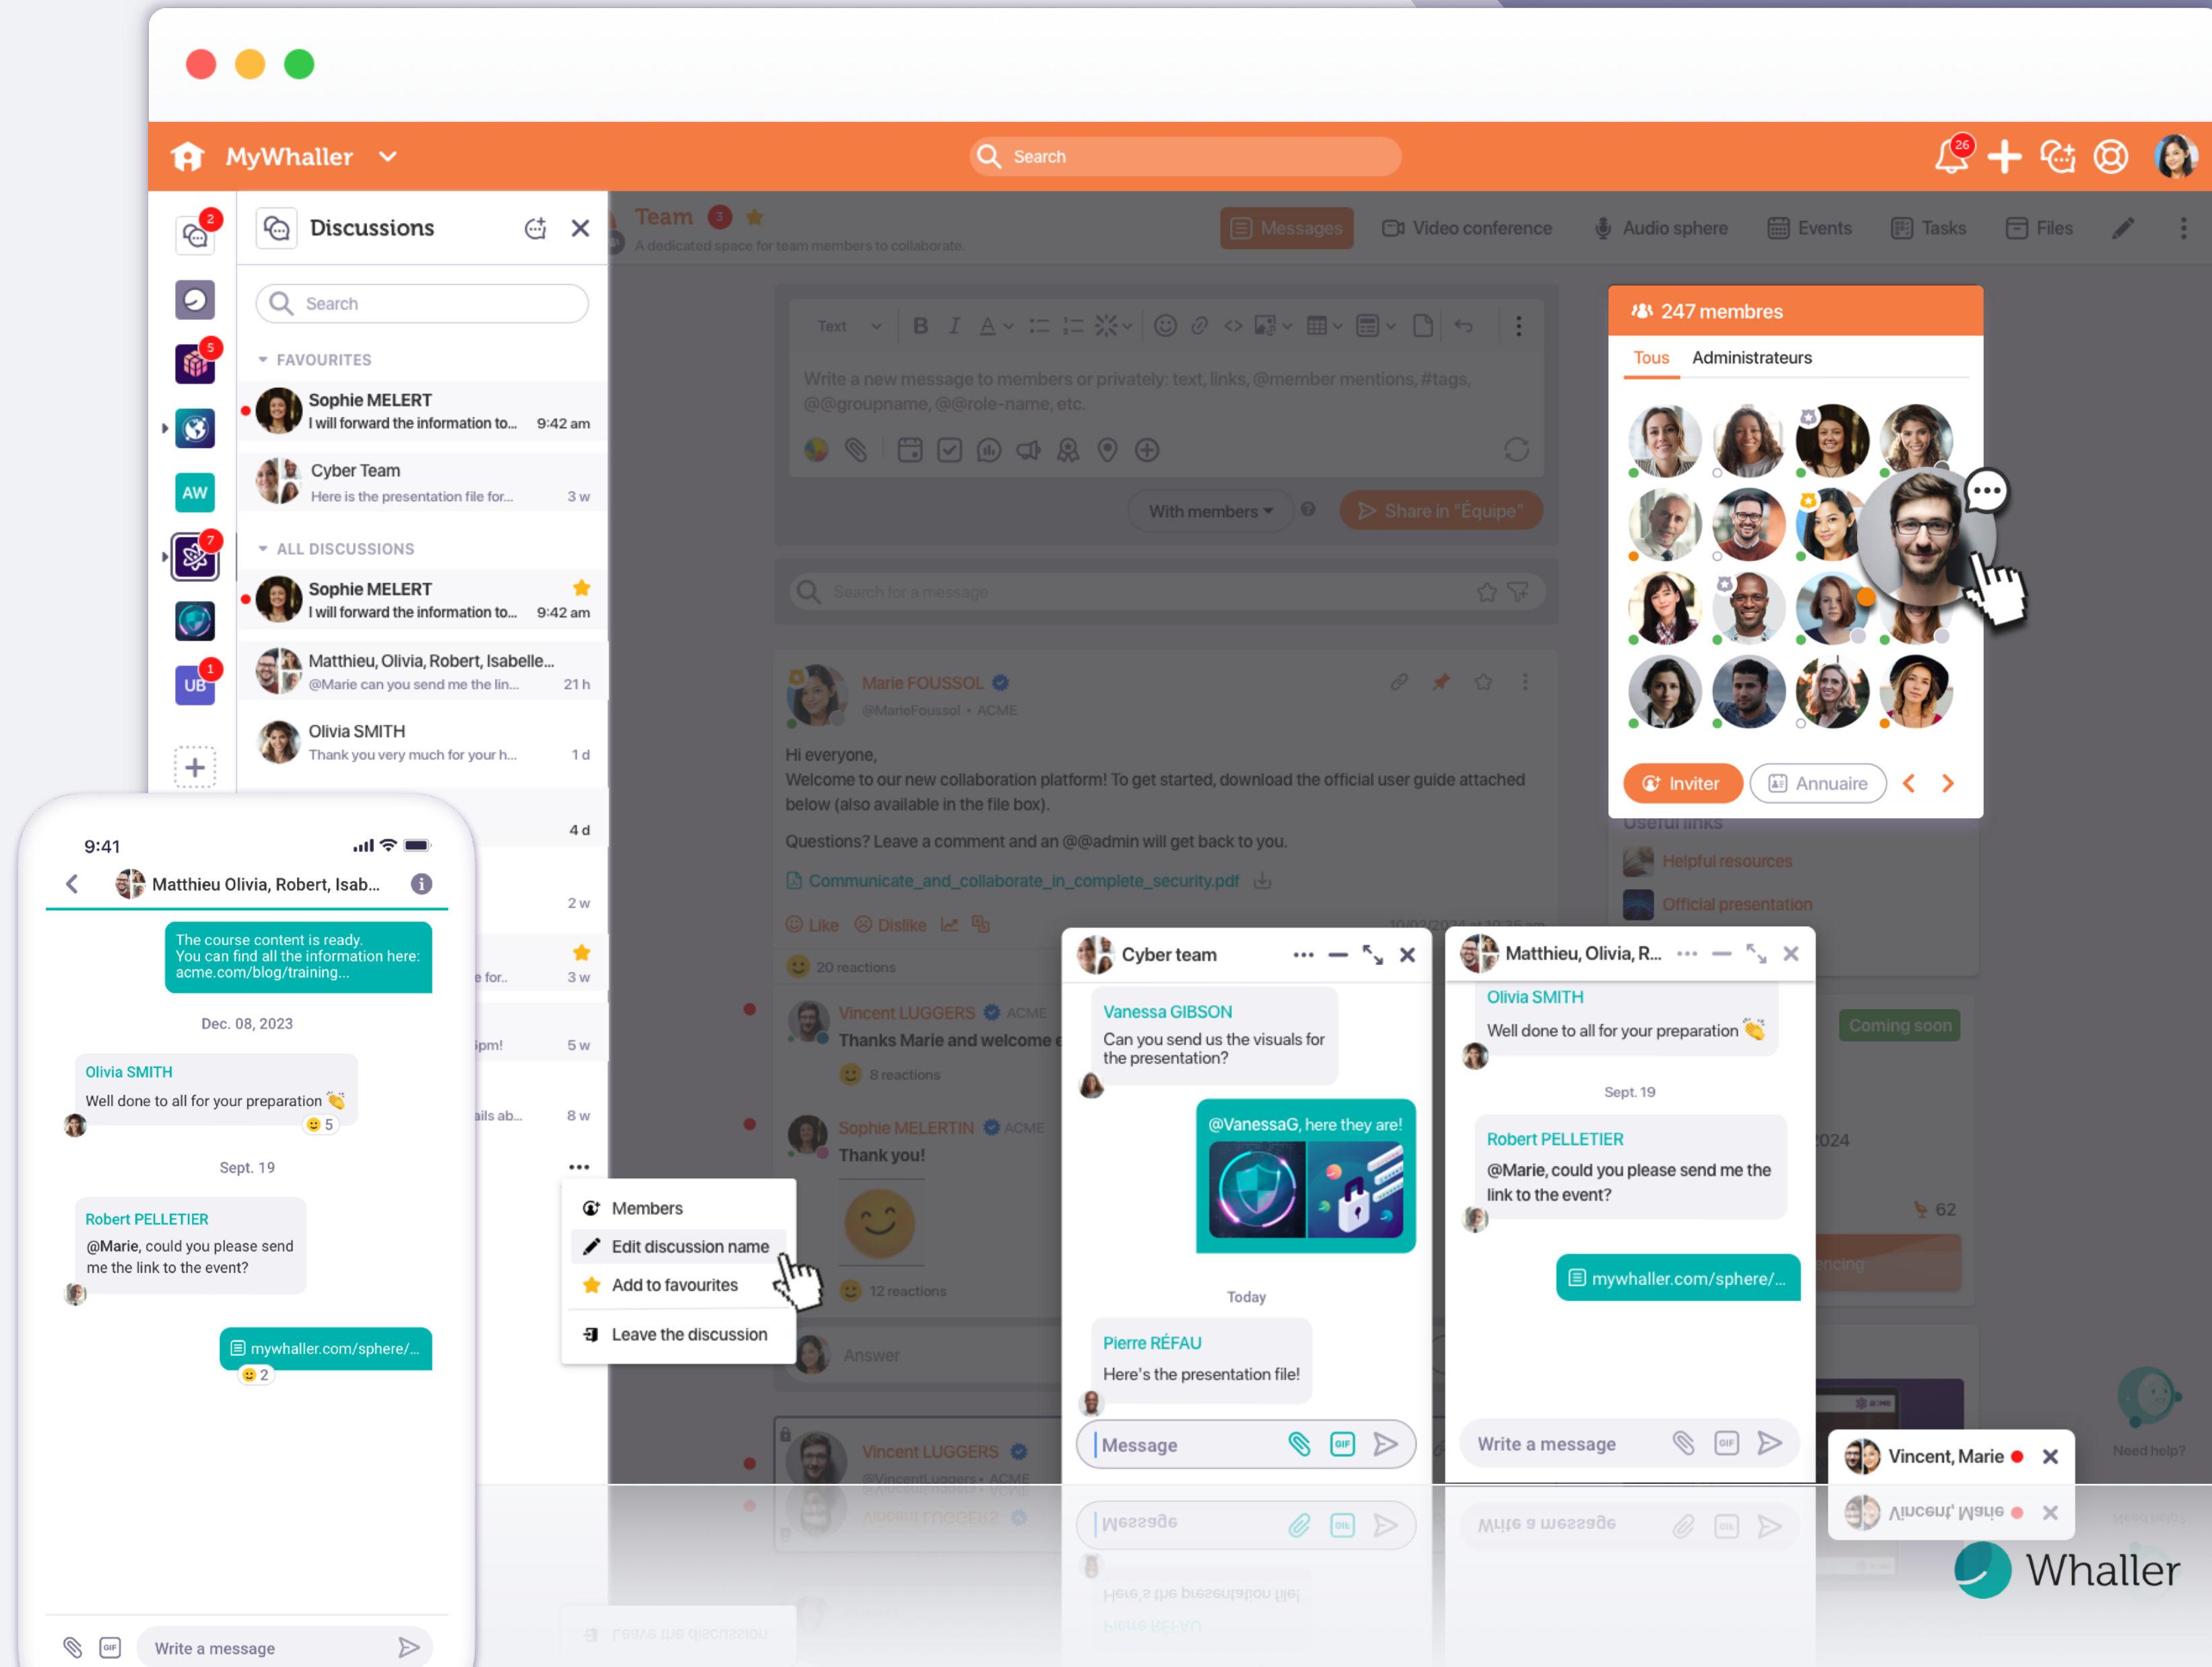

Standard

"Discussions" instant messaging includes security, encryption and conversation indicators for a secure exchange of information in real time.

- **Instant:** start instant discussions with any member of the network.
- **Simple:** click on an avatar to start a private conversation.
- **Organisation:** manage discussions using an intuitive sidebar.
- **Notifications:** stay informed of important messages thanks to the notification centre.

## Advanced features :

- **Customisation:** choose from 3 chat display modes.
- **Easy sharing:** send files, GIFs, images and videos with ease.
- **Chat management:**
  - Quick access to your favourite chats.
  - See all members at a glance.
  - Name your discussions for precise communication.
  - Leave discussions freely.

# Anatomy of « Discussions » (instant messaging)

# ✧ Whaller (IA)ssistant: AI for your productivity

**Business**  
Mistral AI integration

Maximise your productivity with Whaller (IA)ssistant, specifically designed to enrich your collaboration and project management experience within your organisation.

## Key features of Whaller (IA)ssistant

- **Conversation summary generation:** Get instant summaries of your exchanges, enabling fast, informed decision-making.
- **Automatic task generation:** Convert your conversations into actions with intelligent task generation, making project management easier.
- **Improved writing:** Take advantage of writing assistance with automatic corrections and suggestions for improvement, making your texts clearer and more impactful.
- **Greater accessibility:** Use the FALC (Easy to read and understand) method to make your texts more comprehensible to people with disabilities, guaranteeing inclusiveness.

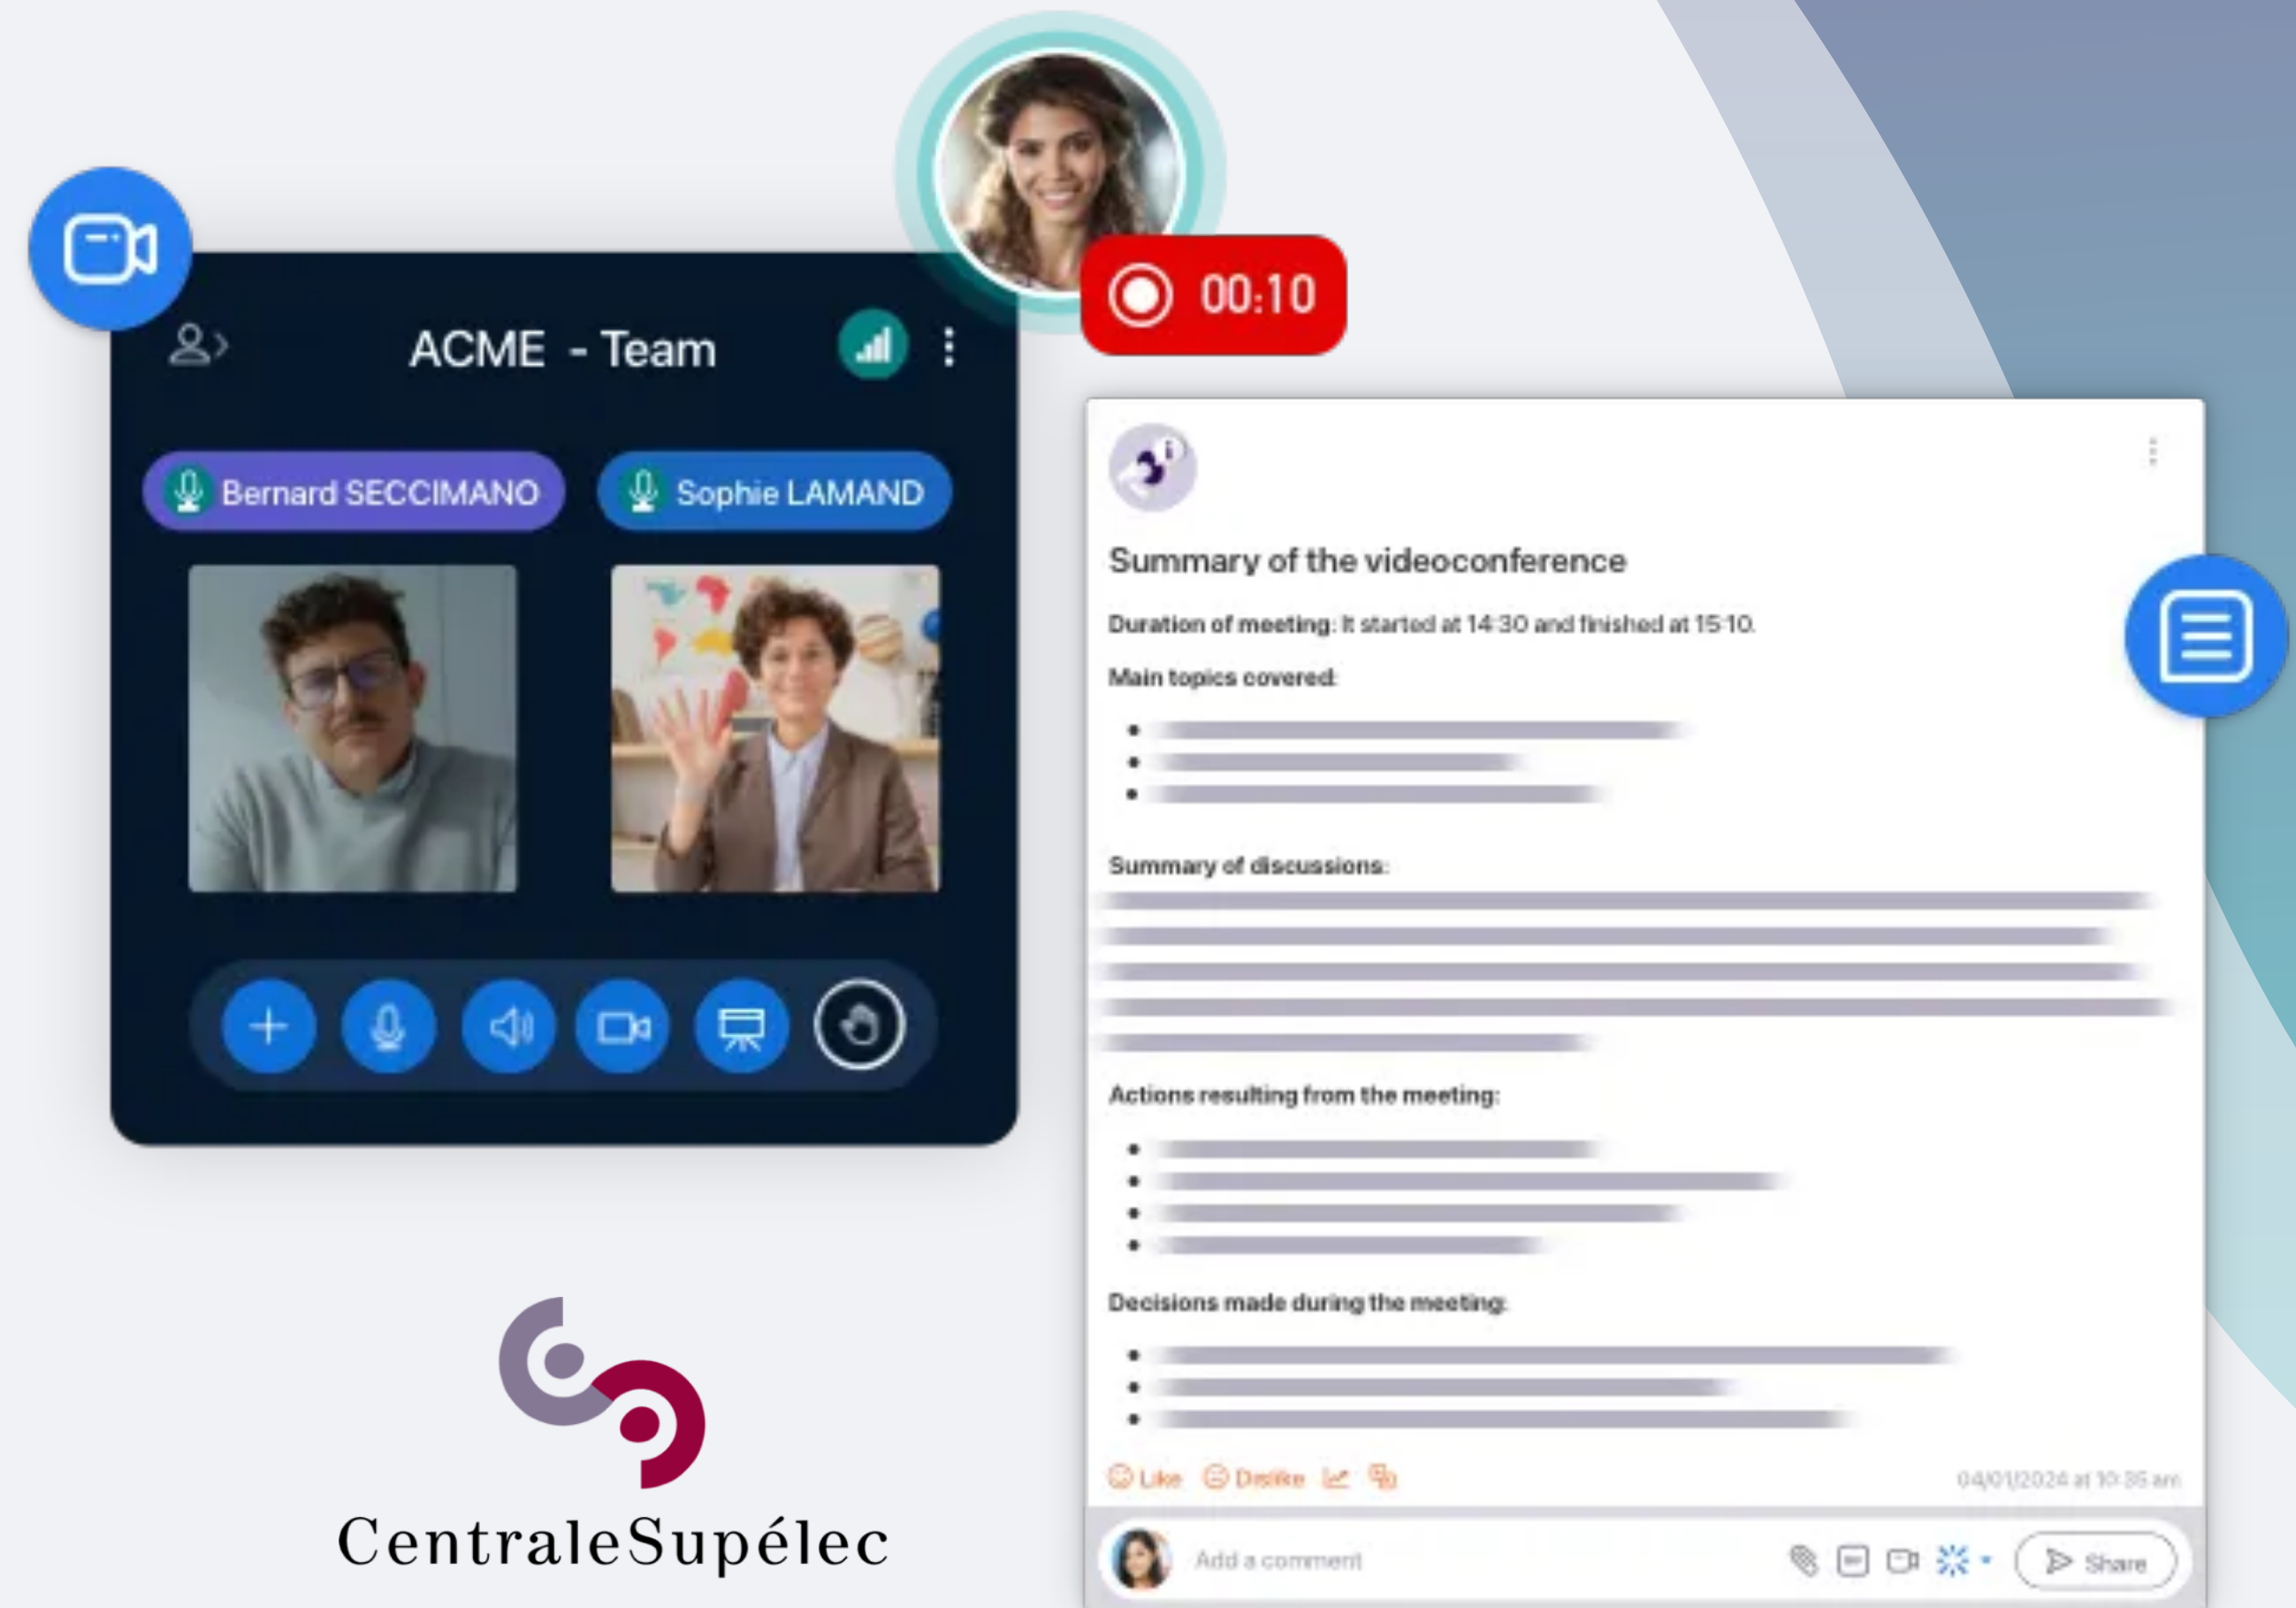

# ✧ Aristote: your assistant for automatic reporting

Business

Whaller (IA)ssistant integrates Aristote, an artificial intelligence developed by CentraleSupélec, dedicated to the creation of automatic reports.

## The minutes include :

- **Summary of the videoconference:** A concise overview of the meeting.
- **Meeting summary:** A detailed summary of the discussions and key points raised.
- **Duration:** The total time of the meeting.
- **Topics covered:** The main topics discussed.
- **Exchanges:** A summary of the interactions and contributions of the participants.
- **Future actions:** The steps and tasks to be completed after the meeting.
- **Decisions taken:** The resolutions and agreements reached during the meeting.

  
CentraleSupélec

## Messages

## Endless possibilities for sharing!

## Post private or public messages for sphere members.

Attach files (documents, images, videos) and GIFs to these messages, while creating tasks, events, polls and much more! With Whaller (IA)ssistant, get a concise summary of your conversations, highlighting decisions and key points in seconds. Save valuable time and clarify exchanges within your team thanks to the automatic generation of tasks from your conversations.

# Video conferencing

Start secure video conferences right from your Whaller spheres.

The Whaller platform includes a sovereign video conferencing solution based on BigBlueButton.

Two modes: classic meeting or webinar (up to 300 people).

Possibility to integrate other external solutions: Glowbl or Zoom.

## Standard

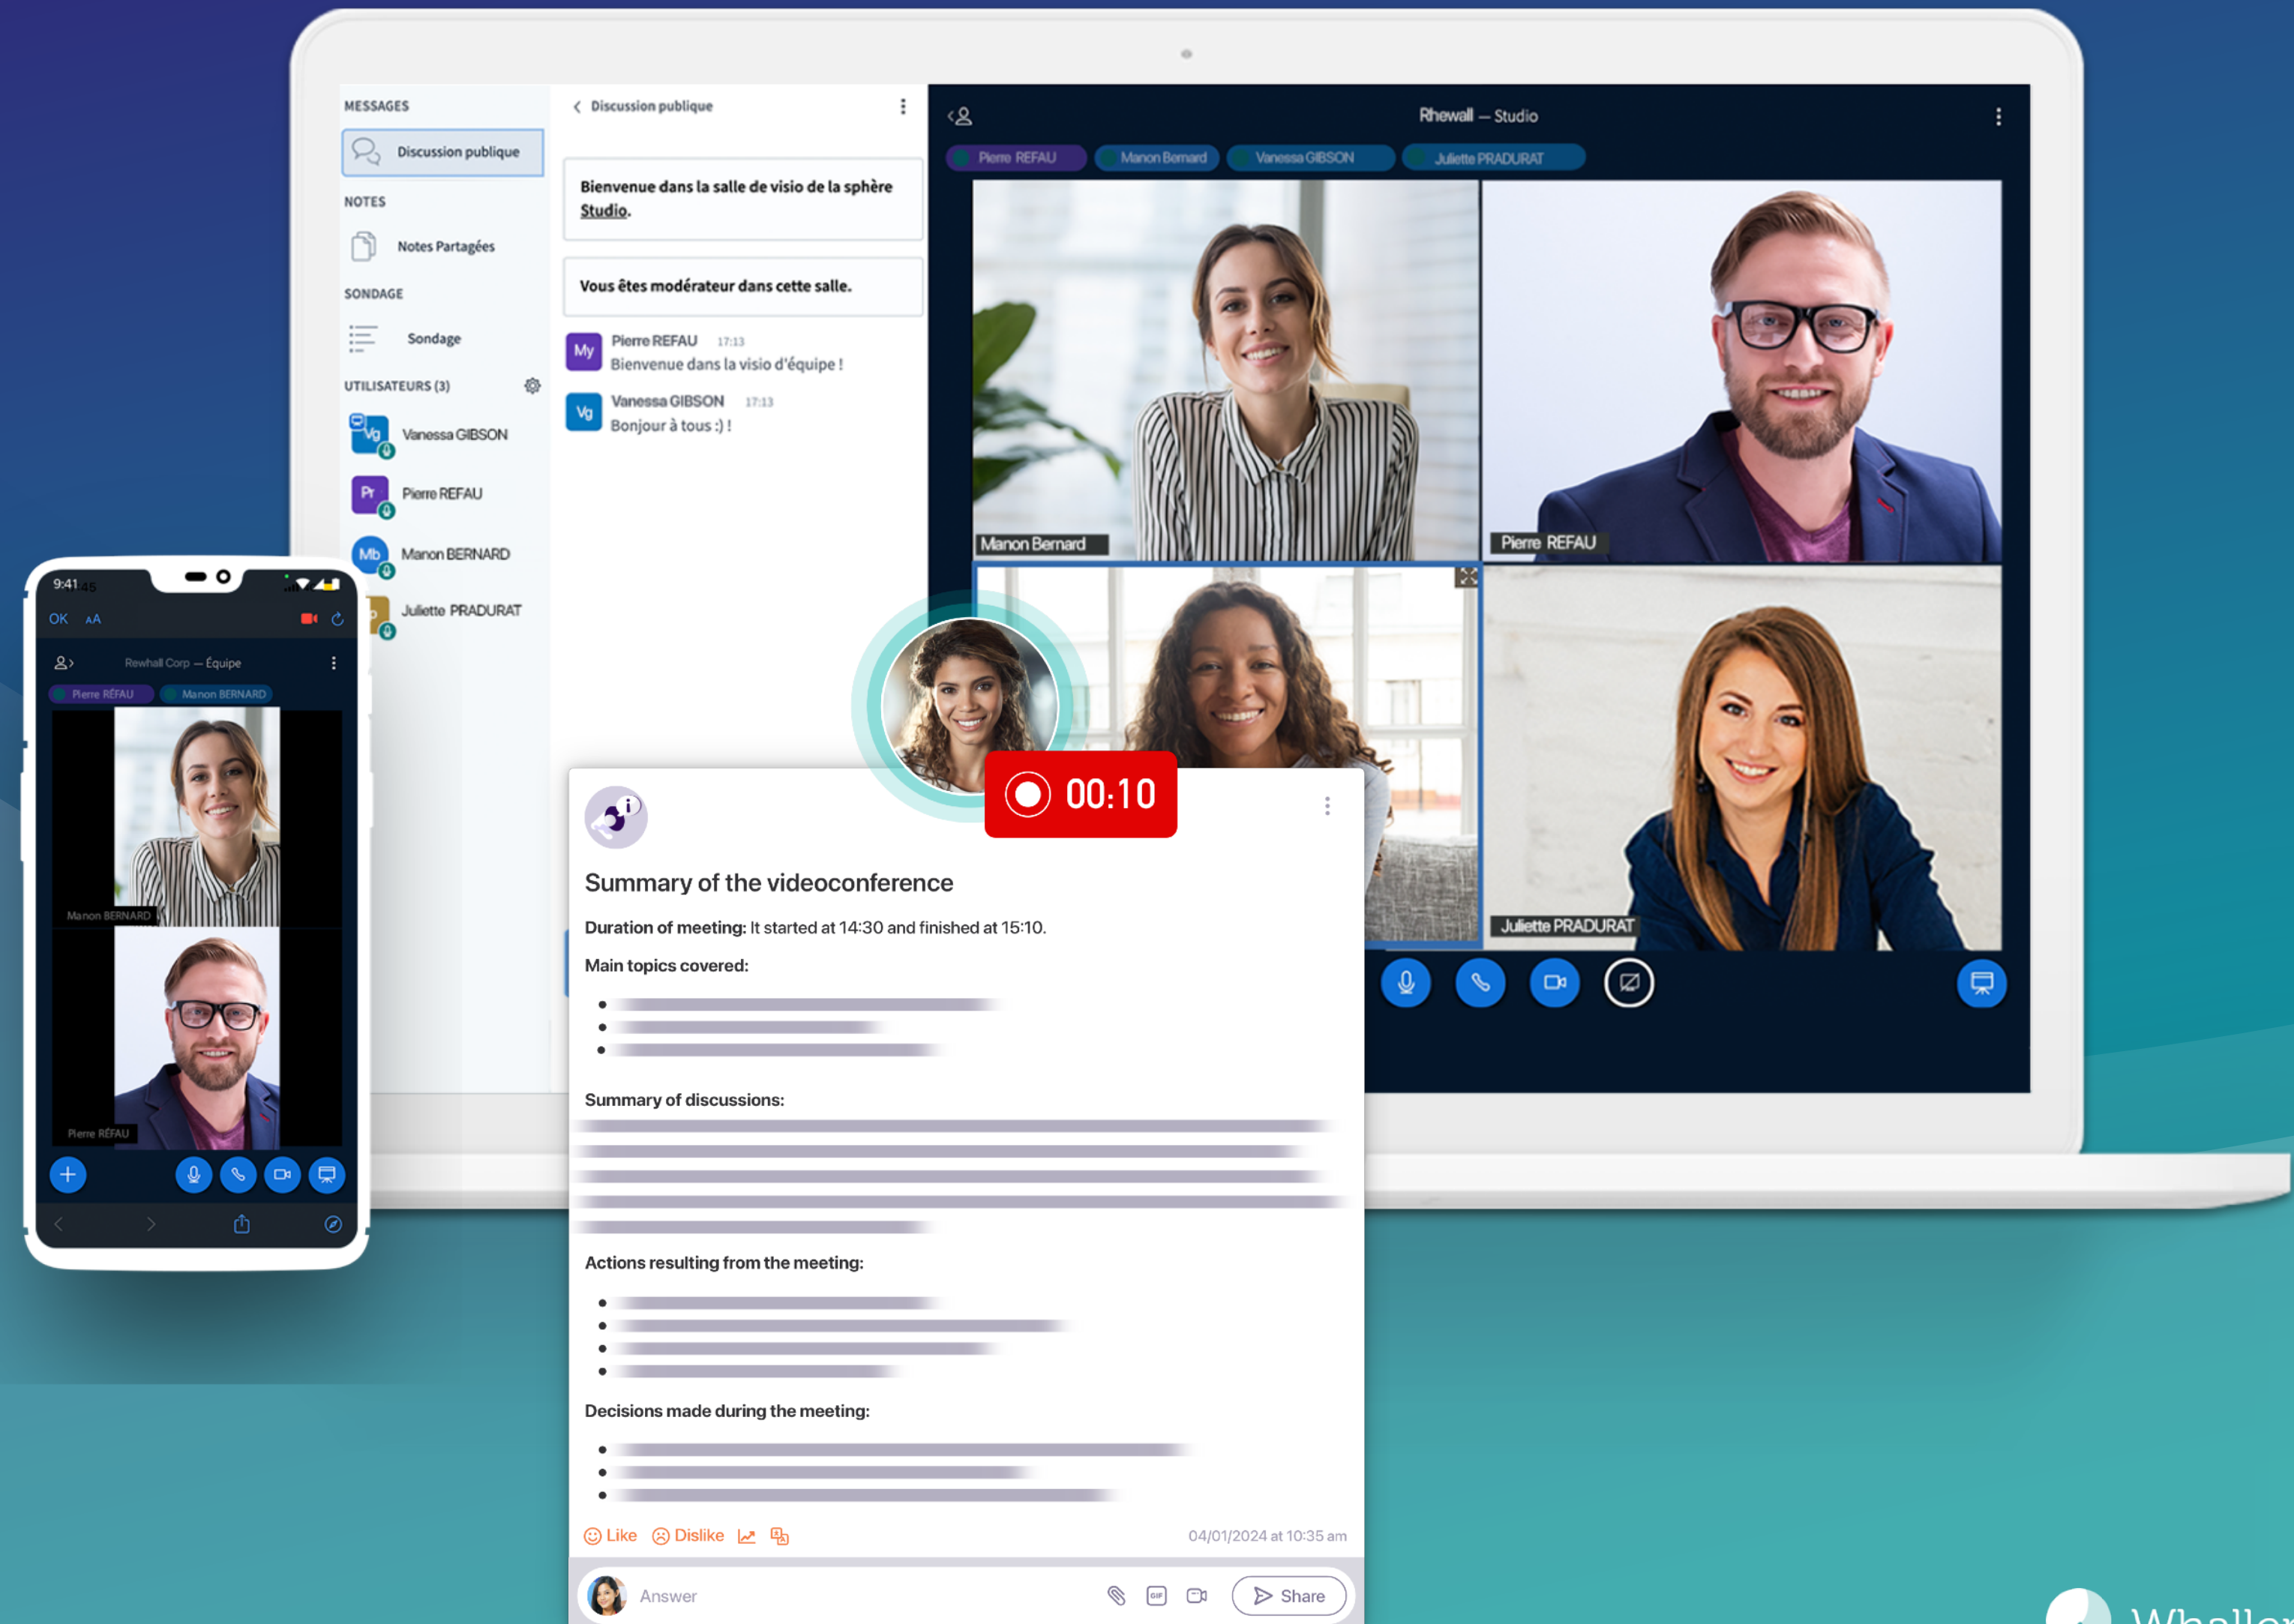

External links of your choice:  
Glowbl , BigBlueButton

## Pro

Online meeting rooms: BigBlueButton  
(Servers hosted at Whaller)

## Business

Webinars: BigBlueButton  
(Servers hosted at Whaller)

 Video conference

## Facilitate real-time communication and collaboration with audio spheres.

With a simple click, start or join a sphere's audio room and interact instantly with connected members.

A separate control window allows you to simultaneously follow a conversation and collaborate in other spheres.

Audio spheres can accommodate up to 200 participants at the same time.

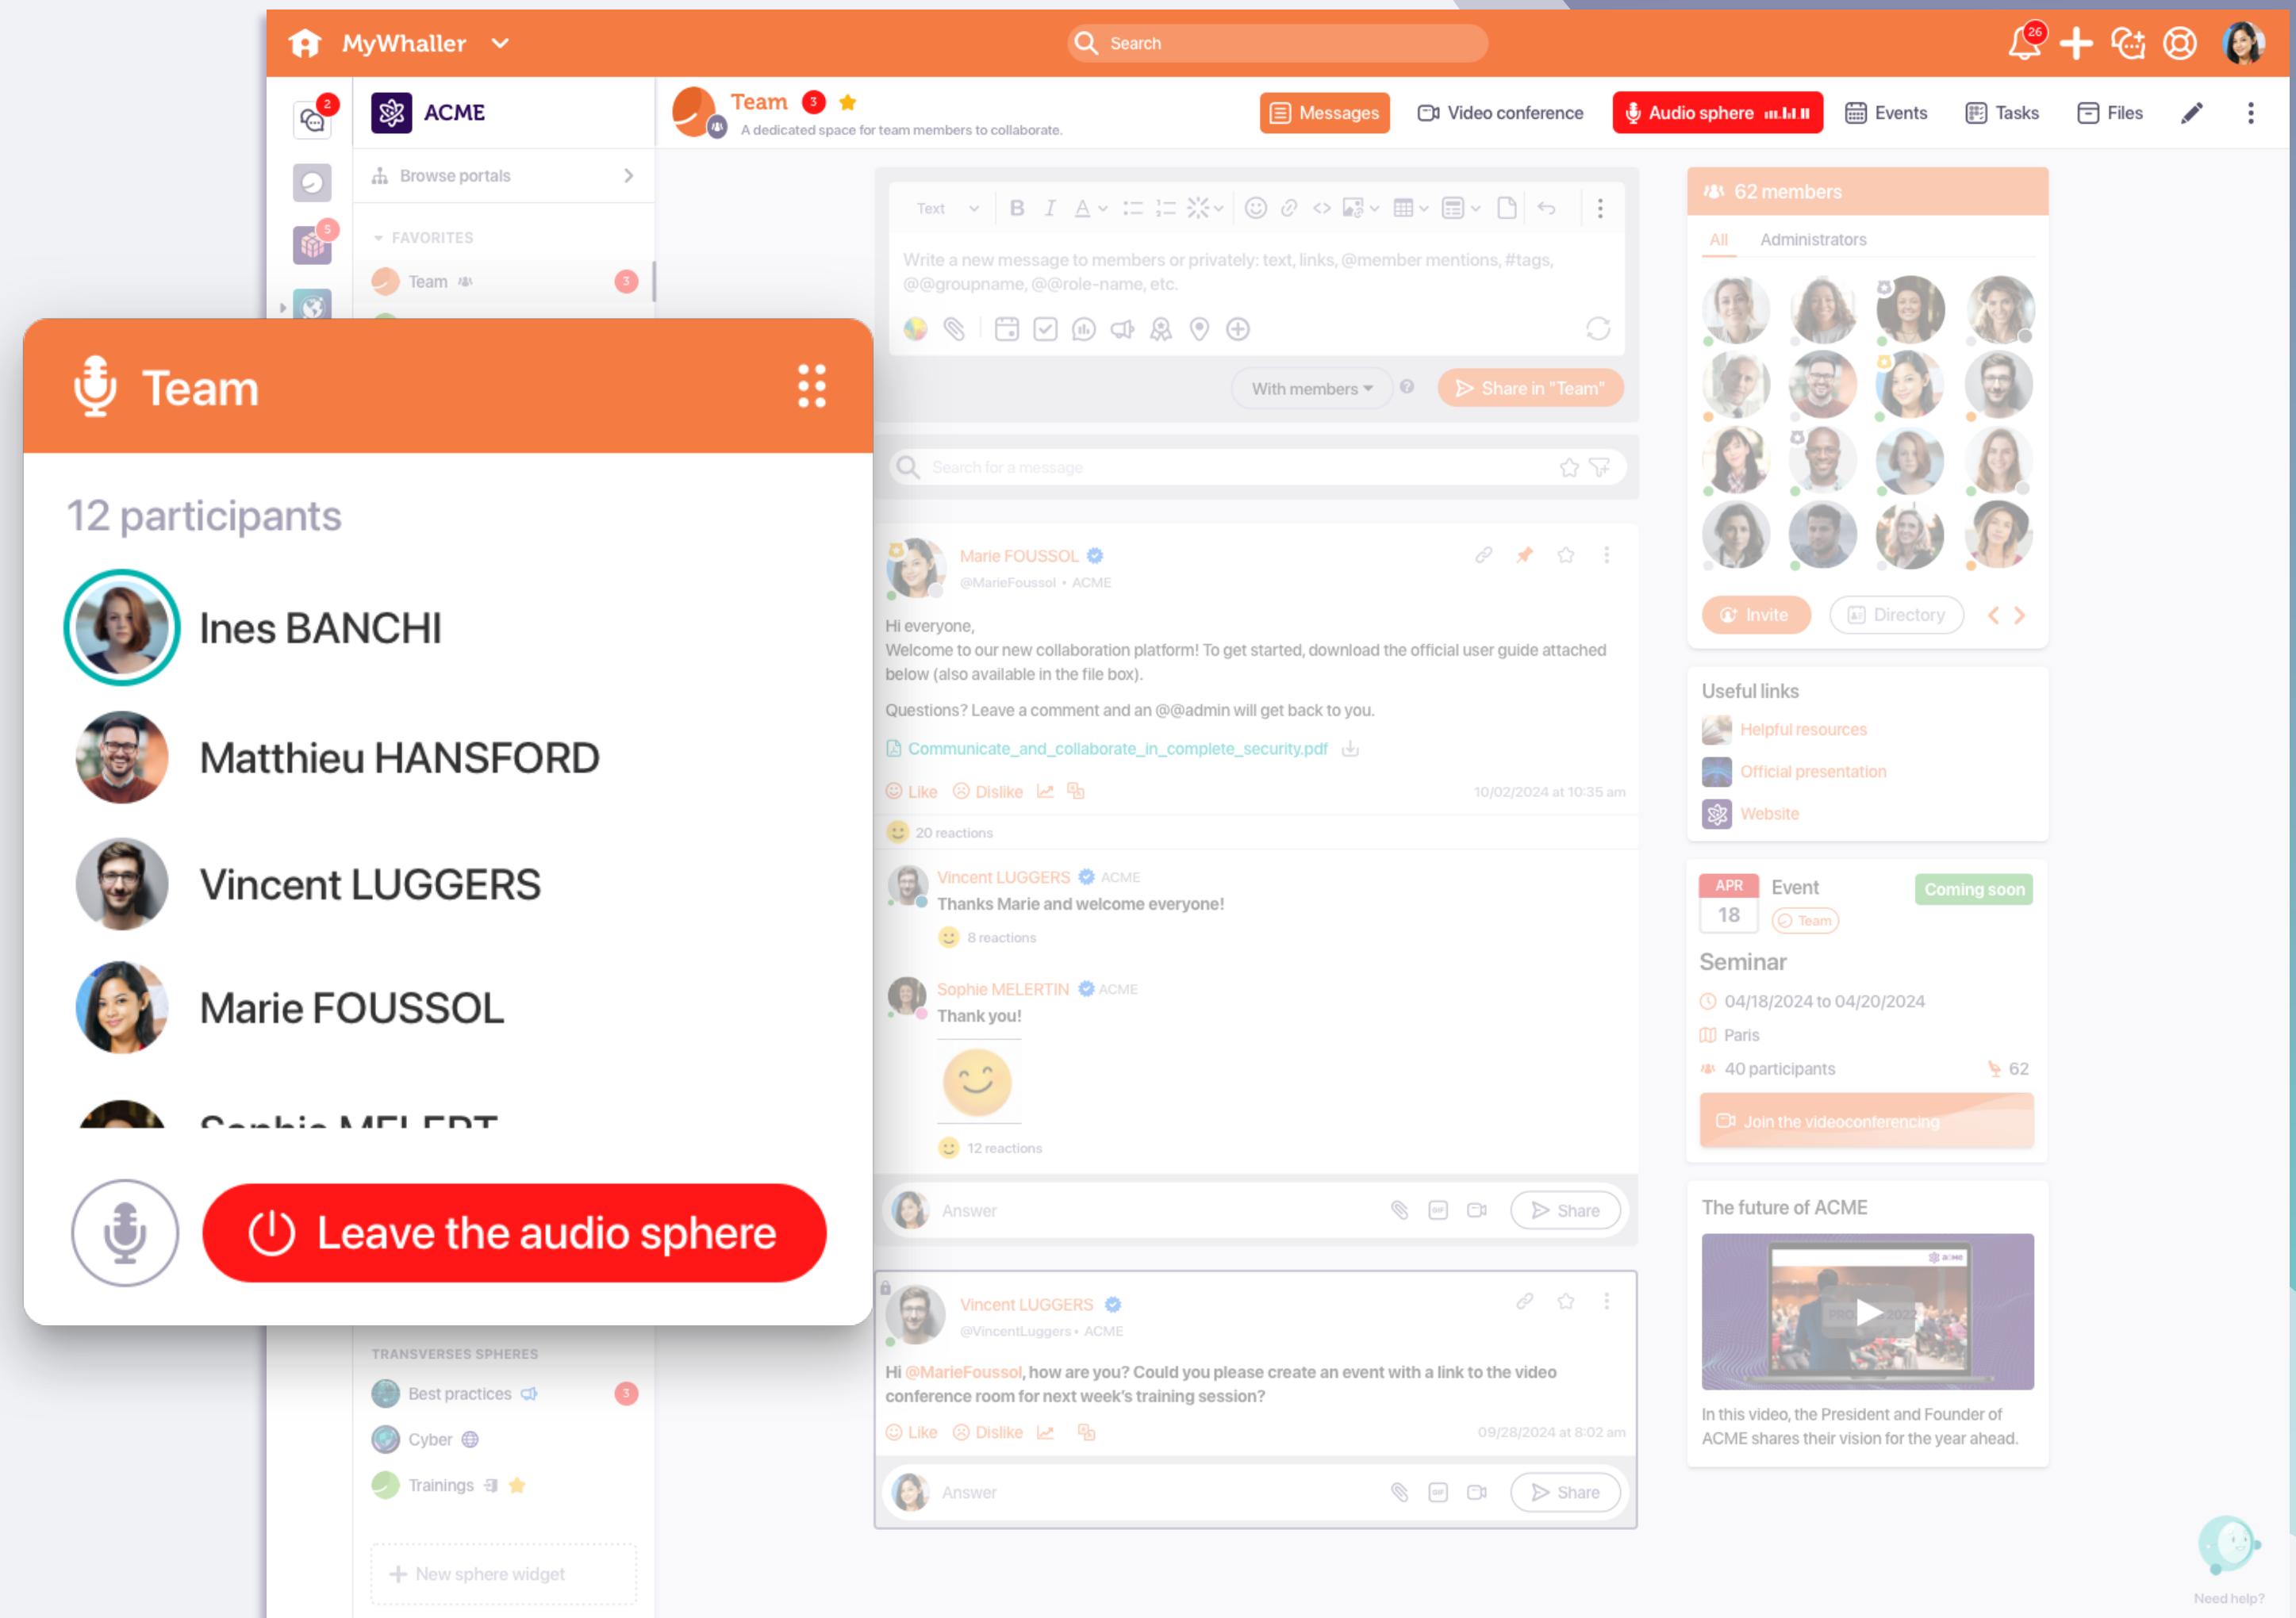

Great for remote work!

### USES

- Team Daily
- Audio conference

Audio sphere

# 😊 Profile status

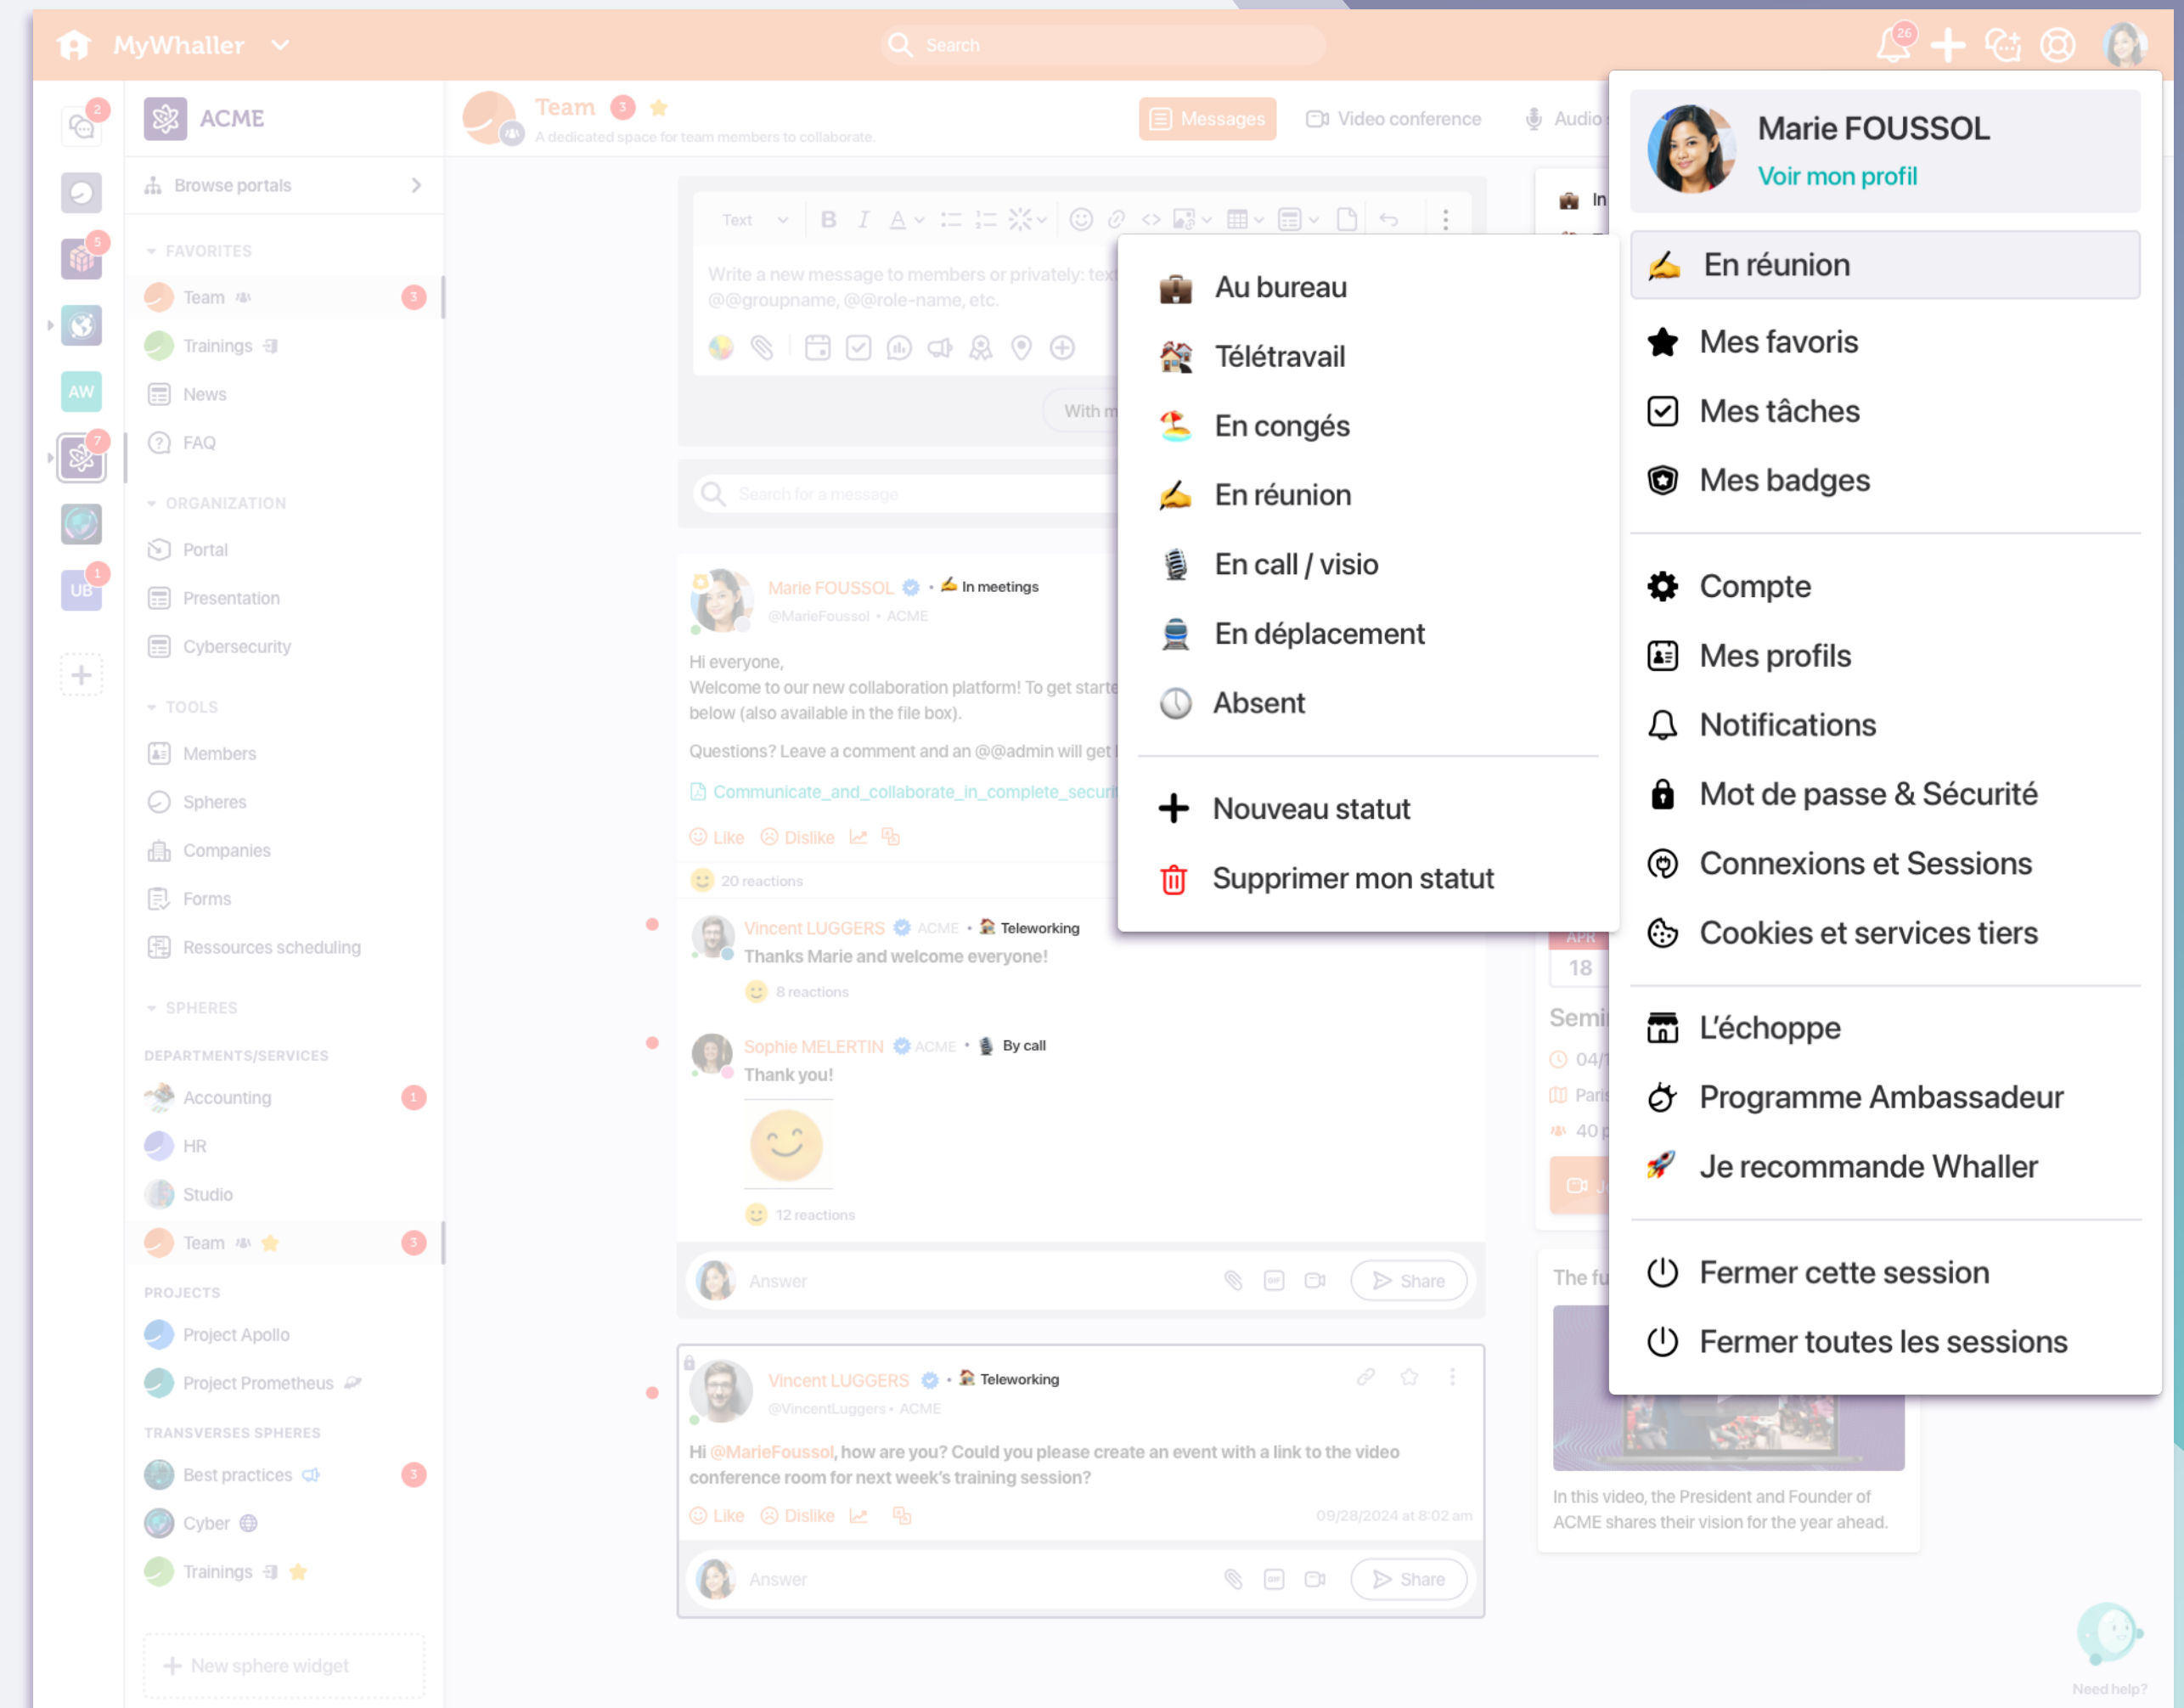

Standard

More serenity and concentration adapted to your working environment!

✍️ Choose your status from the 7 available by default to inform members of your situation.

🎨 Define and customise the status of your choice and the duration of its application.

🛡️ Create your status list from your organisation's management pages (Managers).

Create surveys to gather feedback from your network members.

Customize your surveys with multiple choice, open-ended questions or satisfaction scales.

Choose privacy and visibility options.

View graphs of the results and download them in CSV format.

## USES

- Satisfaction questionnaires
- Opinion polls
- Selecting a date for an event or meeting
- Election by secret ballot

# Translation and multilingual content

 **Business**  
DeepL translation

 **Enterprise**  
Creation of multilingual content

## Communicate without borders!

 Create multilingual versions of messages and articles so that members can access content in their preferred language.

 Instantly translate messages using the integrated DeepL tool.

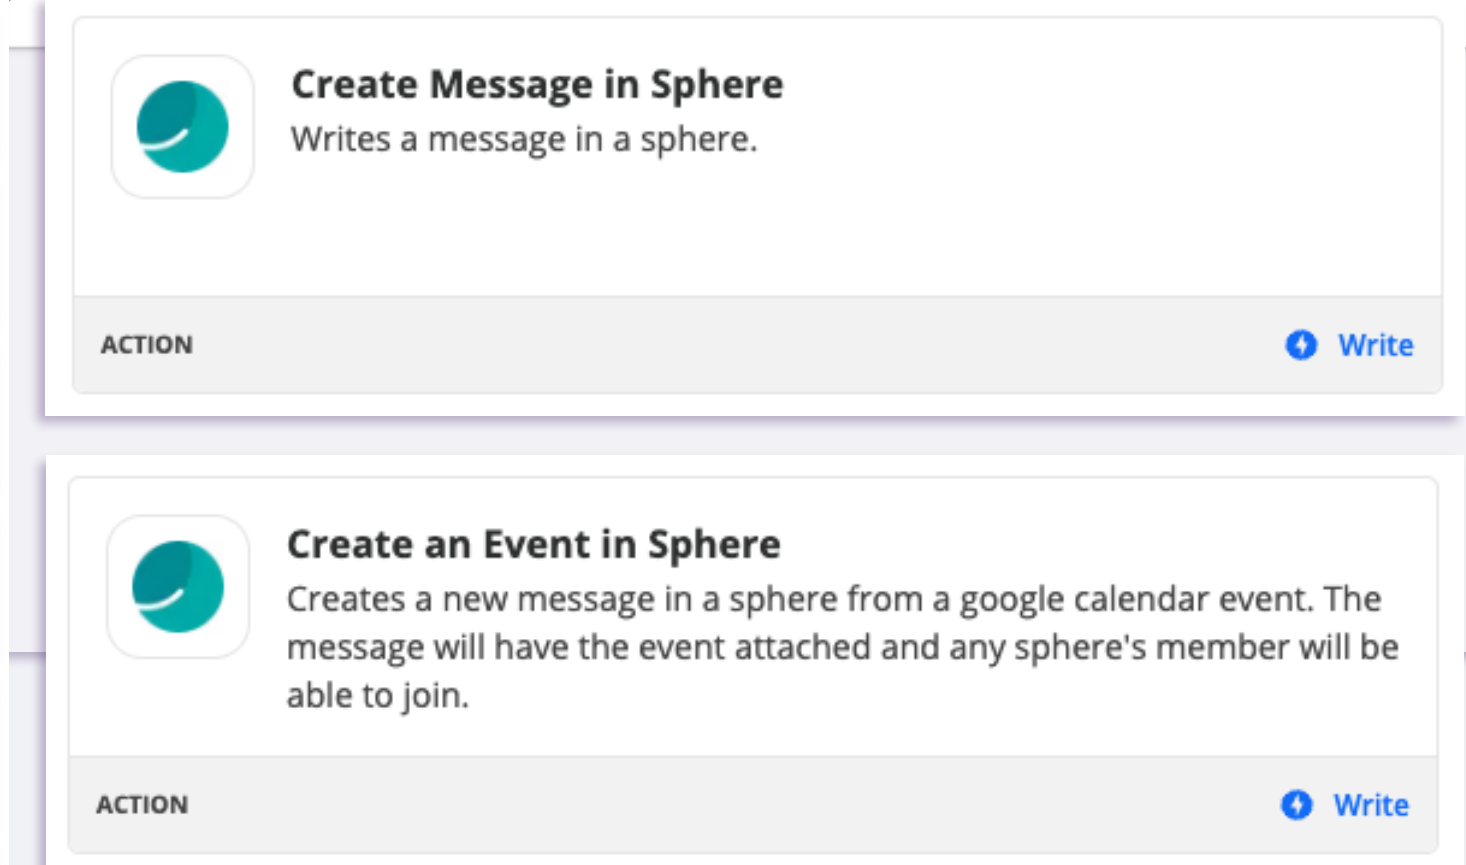

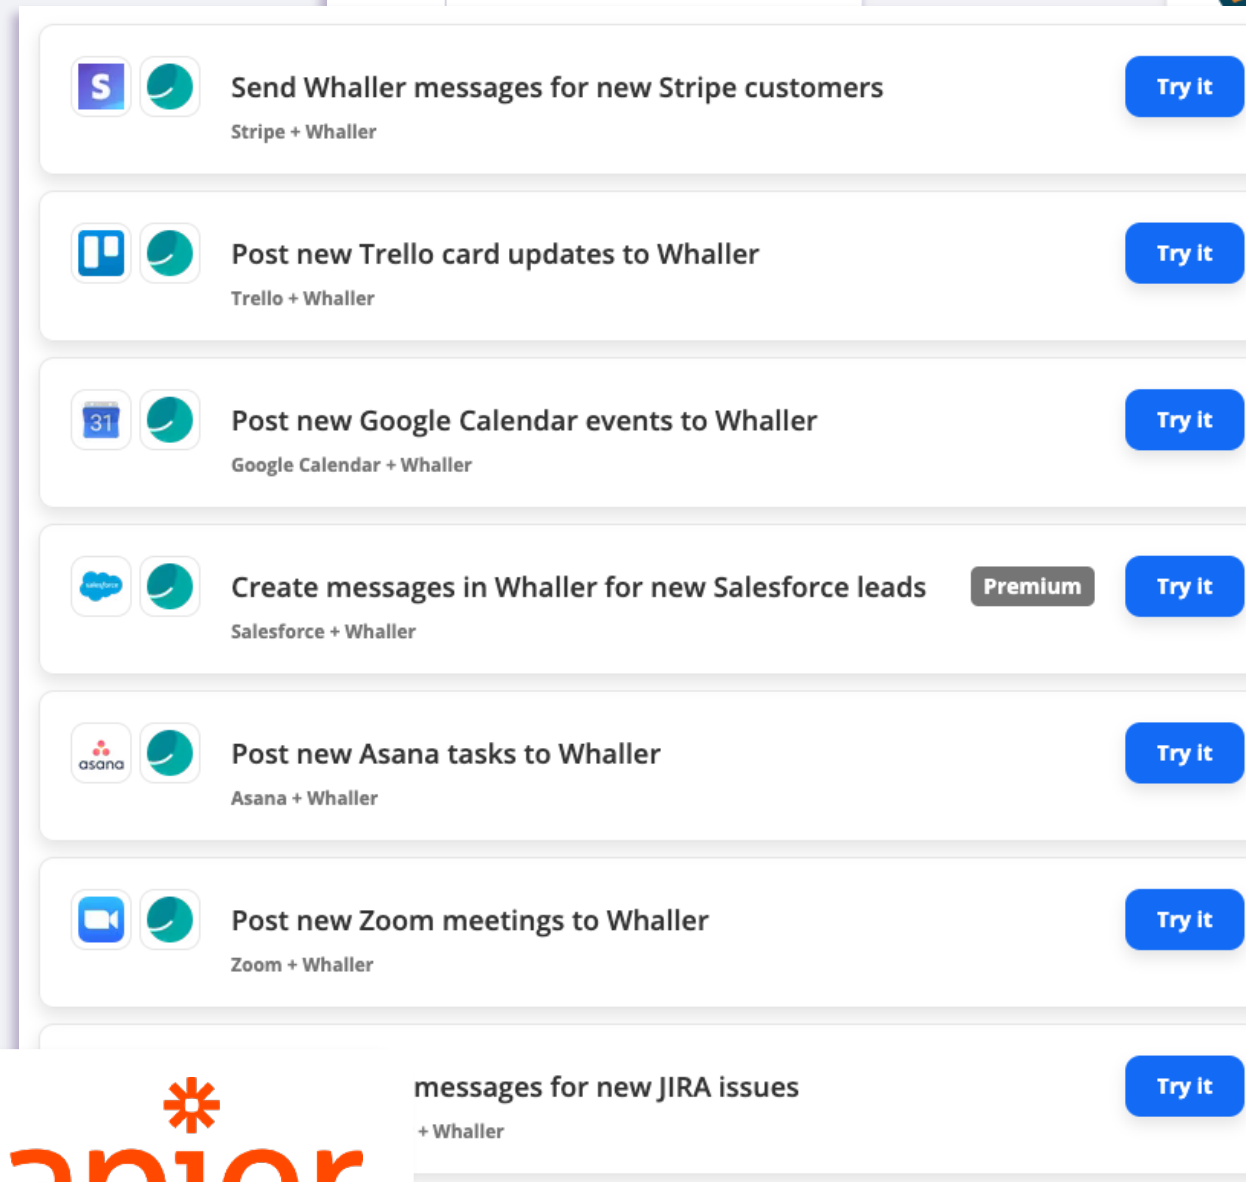

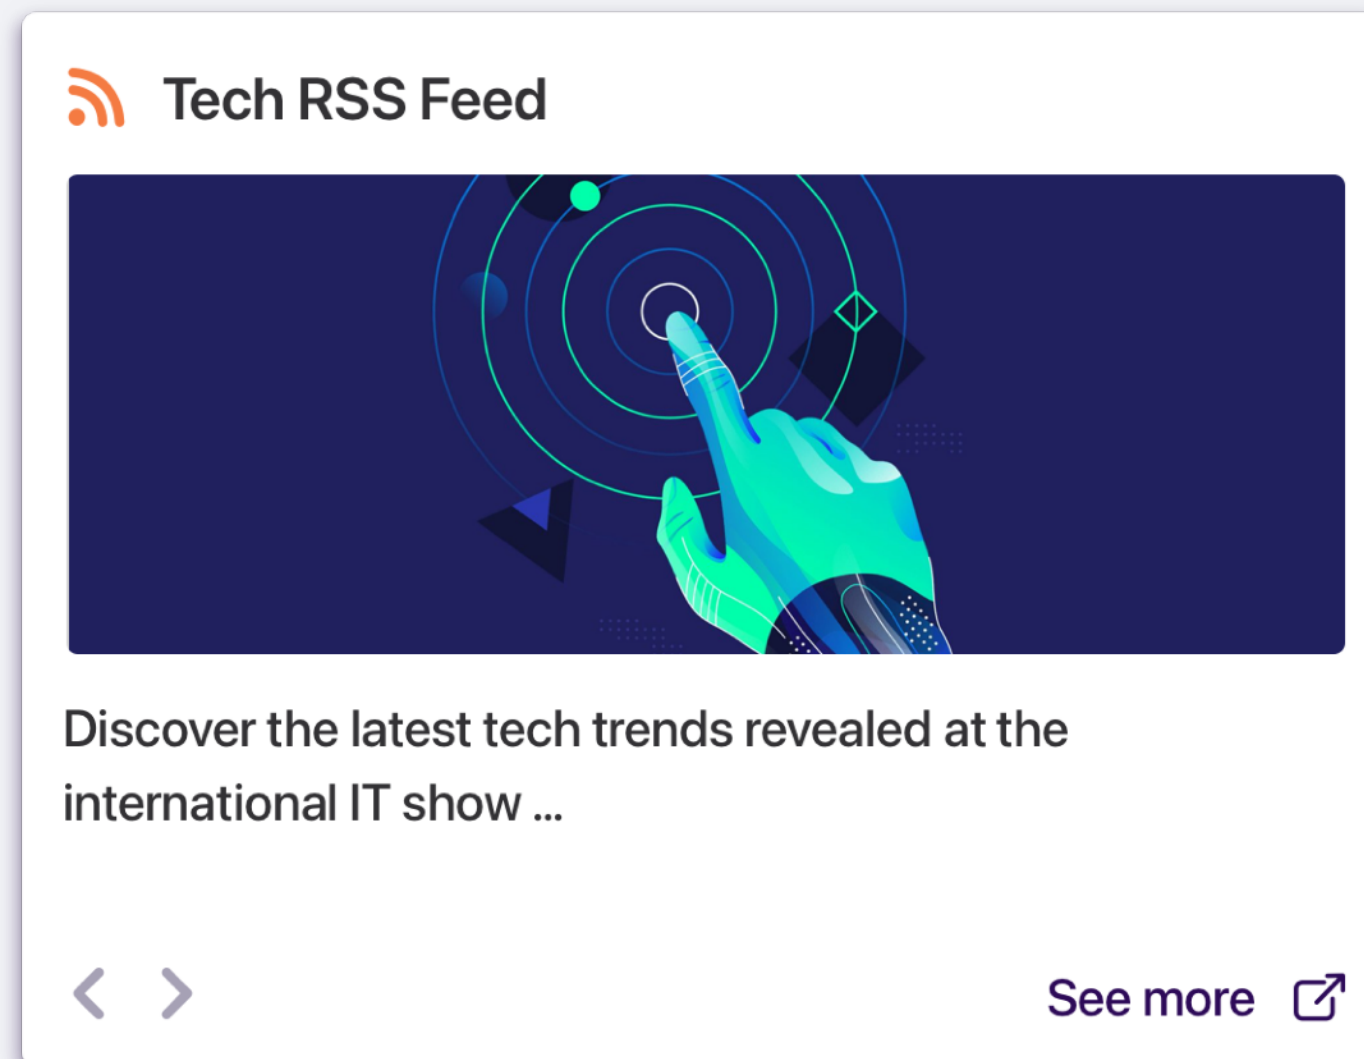

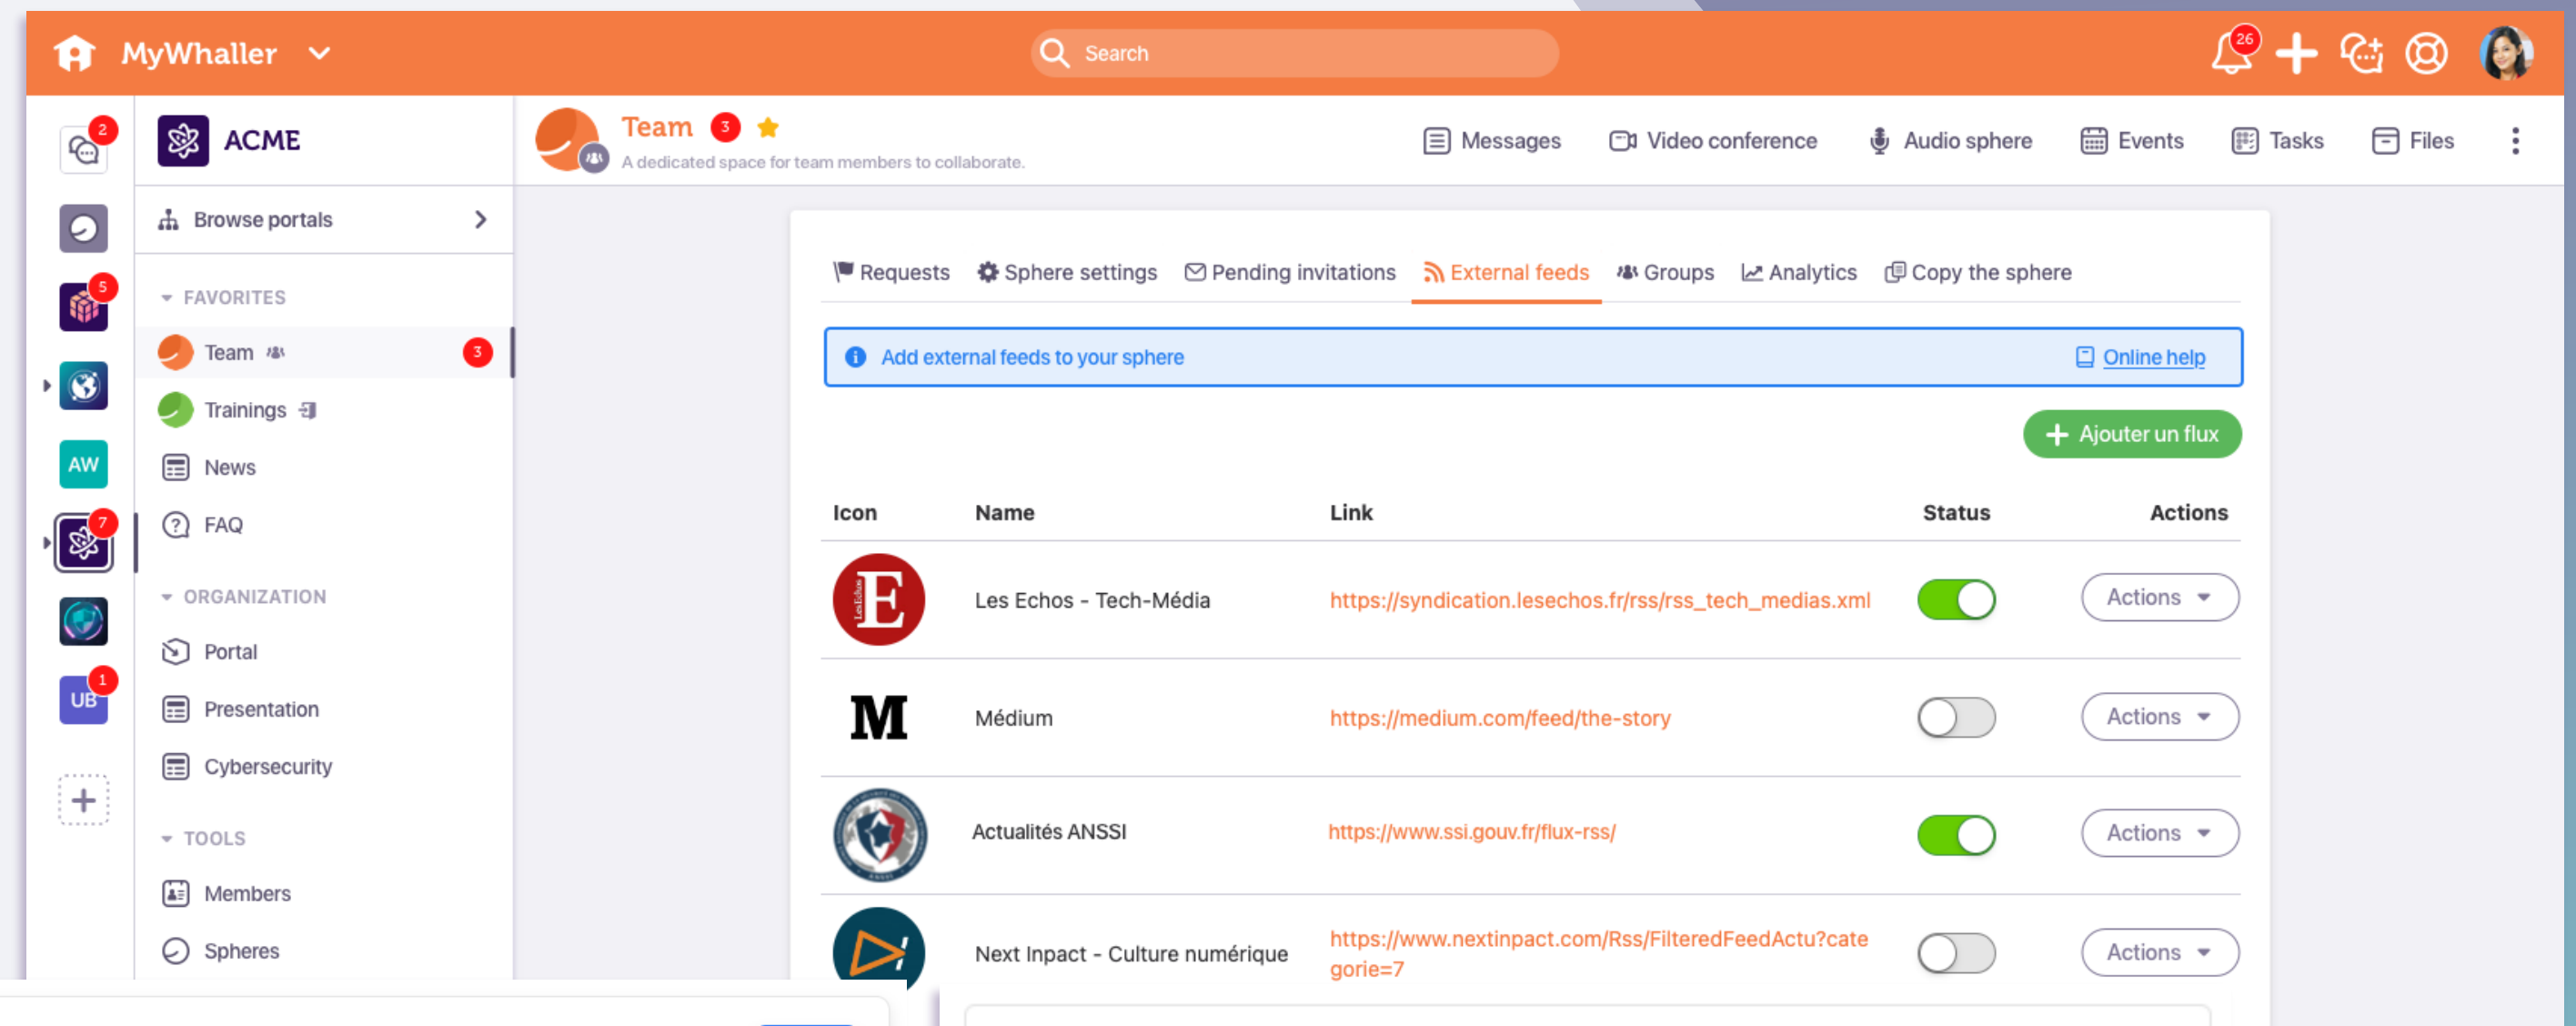

# External feed imports & Zapier

 Business

Connect RSS feeds to your sphere to share the best of the web with your members.

Personalize your portals and spheres by adding an “RSS feed” widget.

Connect your Whaller spheres to over 4,000 applications using Zapier.

# Calendar & events

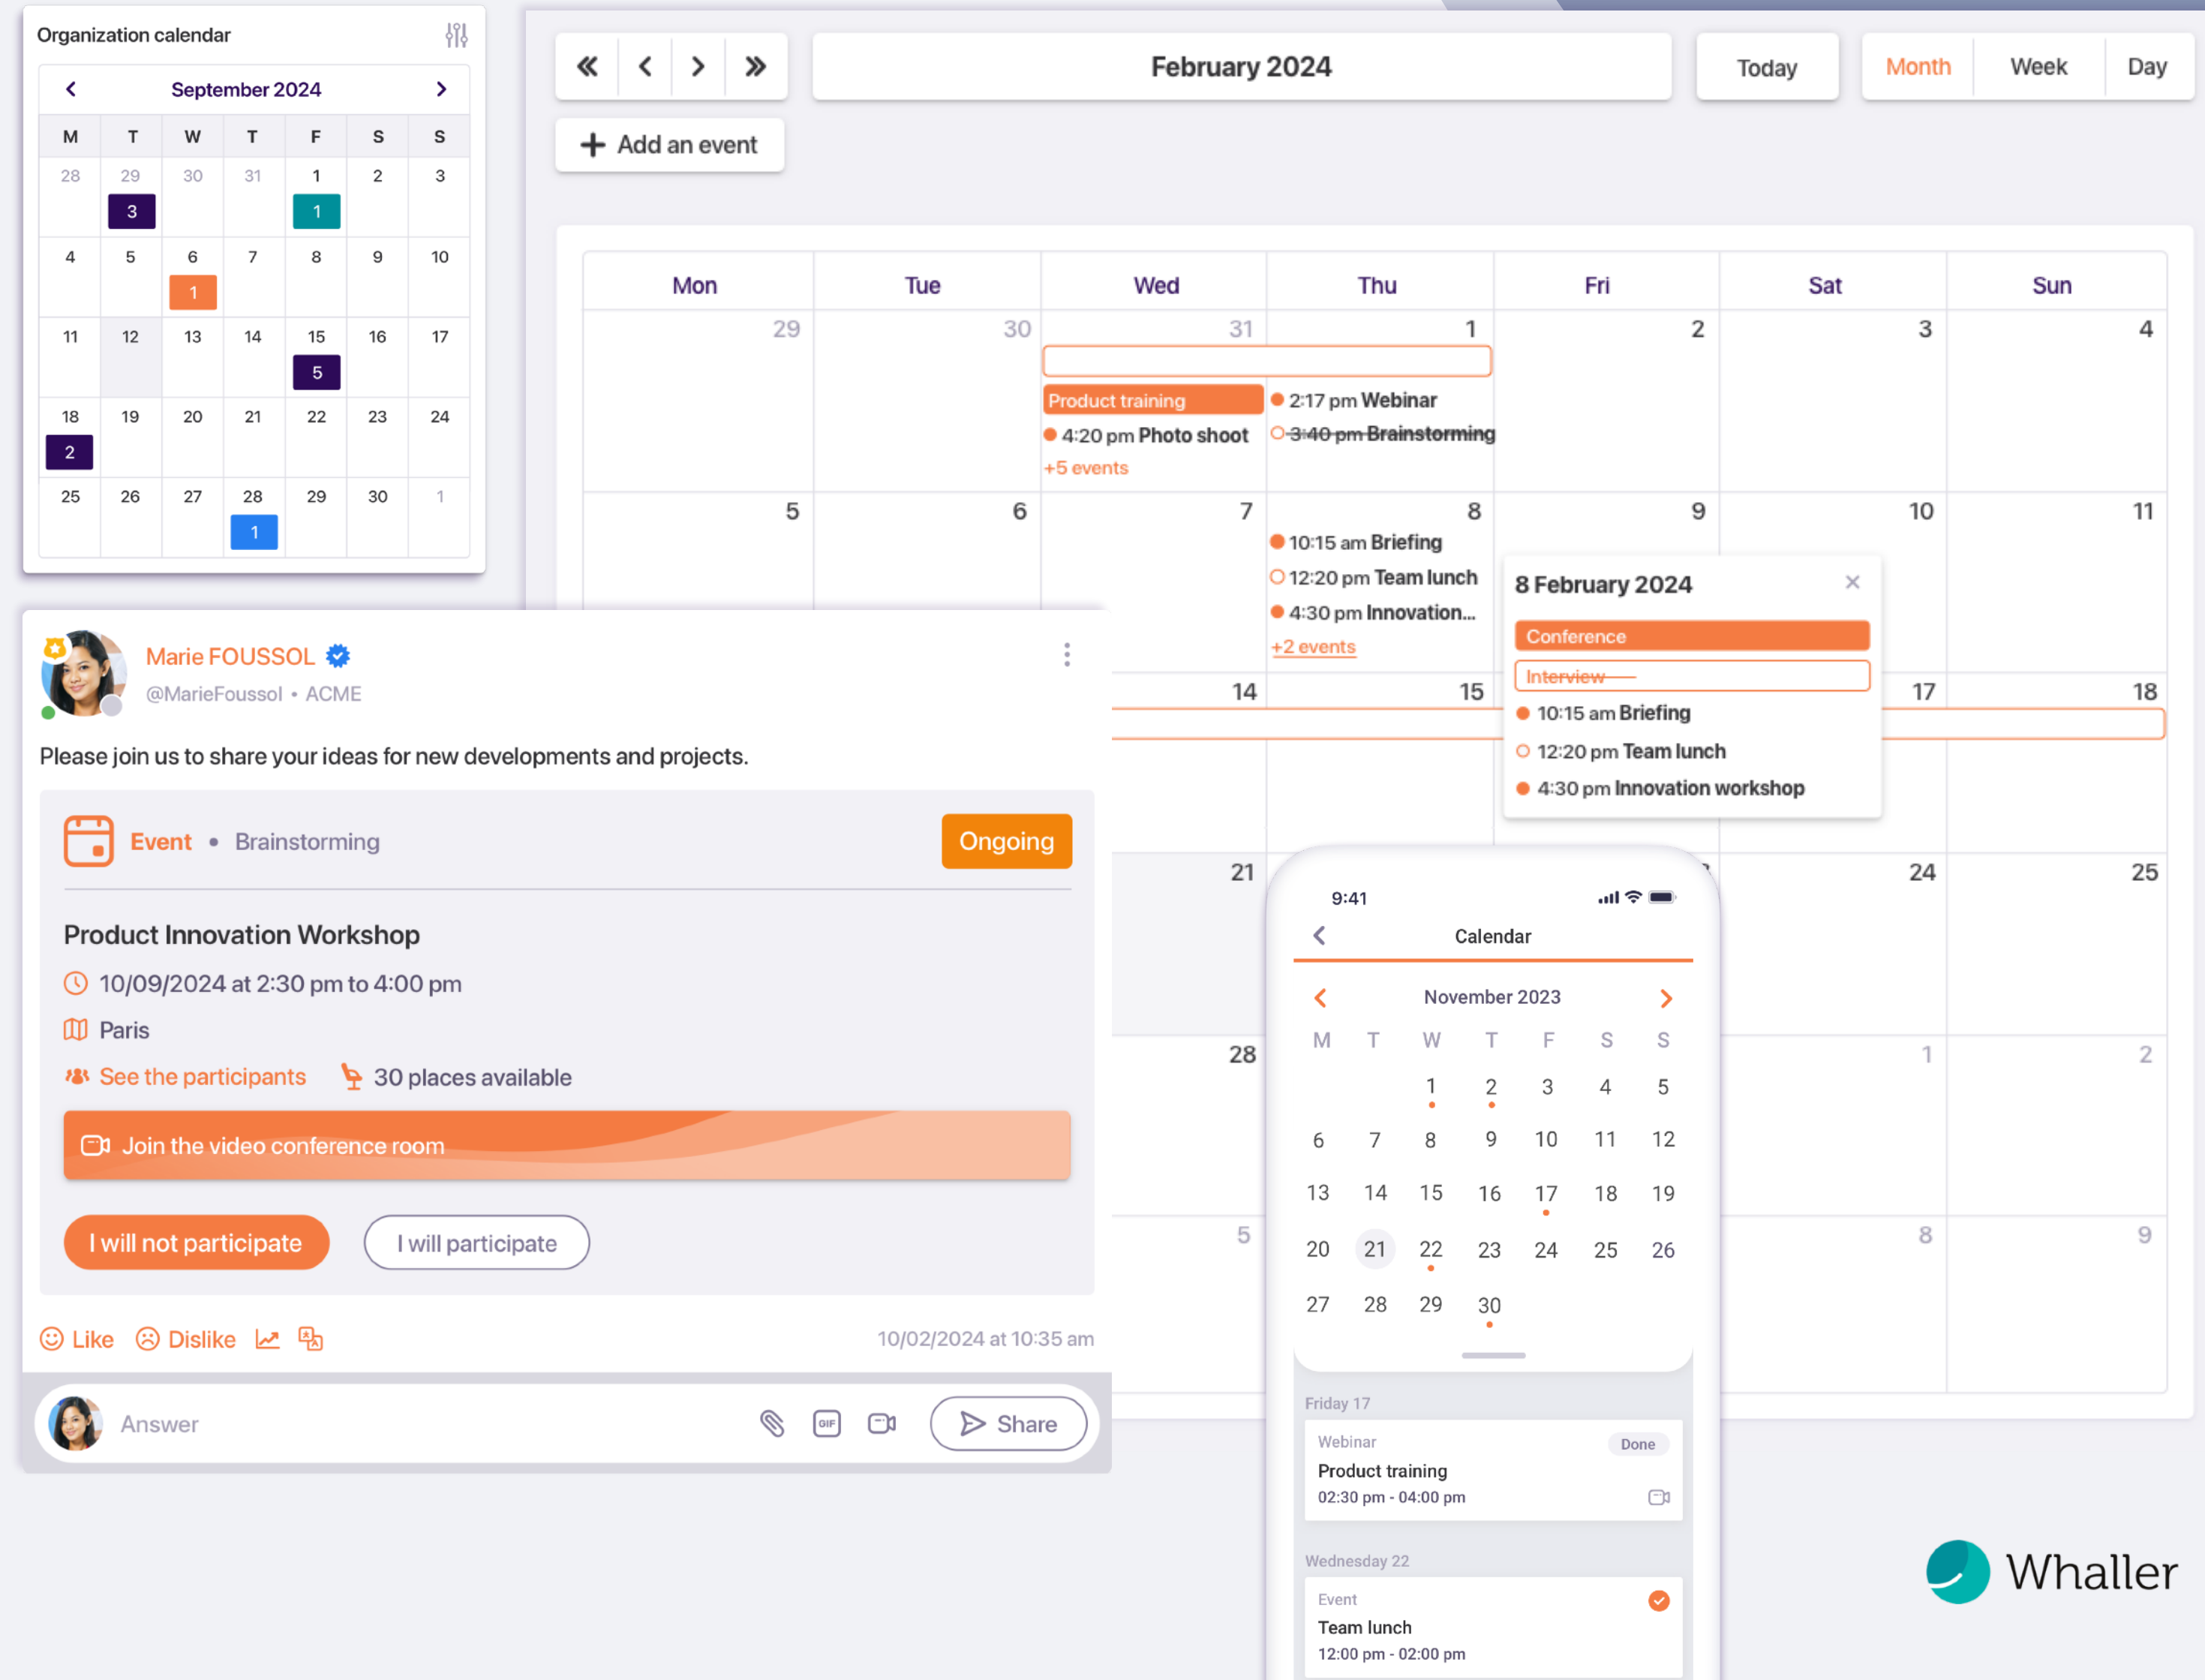

Plan and keep track of events.

A complete event management tool:

- Various types of events
- Restricted events
- Attached video conference rooms
- Limited participants and reservations

## USES

- Team meetings
- Meet-ups with a limited number of places
- General assemblies
- Company seminars

The screenshot displays the Whaller application interface, which includes a top navigation bar with 'Standard Events' and 'Pro Sphere calendar' options. A central 'Events' button is prominently displayed. The main area features a large calendar for February 2024, showing various events such as 'Product training', 'Webinar', 'Photo shoot', and 'Brainstorming'. A detailed view of the 'Brainstorming' event is shown, including the title 'Product Innovation Workshop', date '10/09/2024 at 2:30 pm to 4:00 pm', location 'Paris', and a button to 'Join the video conference room'. A mobile phone mockup in the bottom right corner shows a calendar view for November 2023, highlighting a 'Team lunch' event on Wednesday 22nd.

# Tasks & Kanban

Manage your teams and their tasks using Kanbans and facilitate communication with various collaborative tools, enhanced by Whaller (IA)ssistant.

- Assign tasks to your members within conversations and benefit from automatic task generation from your discussions with Whaller (IA)ssistant.
- View all tasks in task kanbans (agile method) and track the progress of a project at a glance.
- Plan a meeting or event and access a global view in the calendar.
- Customise the kanban columns and add new ones to adapt the tool to your specific needs.

## USES

- Project management
- Customer support
- Follow-up of personal daily tasks
- Advancement of collaborators and teams

 **Standard**  
Tasks

 **Pro**  
Tasks and Kanban

 **Business**  
Column customisation Whaller  
(IA)ssistant integration

 **Tasks**

The screenshot displays the Whaller Task Kanban interface. At the top, there's a header with 'Task Kanban', 'Filters', and 'Customise columns'. Below this, a conversation thread is visible, starting with a message from Marie FOUSSOL (@MarieFoussol - ACME) asking for a newsletter brief. A task card is attached to the message, titled 'Monthly newsletter' with a due date of 10/09/2024 and assigned to three team members. To the right of the conversation is a Kanban board with columns: 'To do' (3 tasks), 'In progress' (3 tasks), and 'Done' (1 task). The 'To do' column contains 'Press kit' (10/22/2024) and 'Exhibition program' (11/08/2024). The 'In progress' column contains 'Update product presentation' (11/14/2024) and 'User tests' (05/19/2024). The 'Done' column contains 'Production of presentation video for the website' (10/24/2024). A context menu is open over the 'User tests' task, showing options: 'Favourites', 'My tasks', 'Unassigned', 'Canceled' (selected), and 'Archived'. Another context menu is open over the 'Resolve bug on website' task, showing options: 'Add to favorites', 'Copy the URL', 'Cancel', and 'Archive'. The bottom of the interface shows a chat input area with 'Answer' and a 'Share' button.

Store, create, share and co-edit files.

- Electronic Document Management integrated in each sphere
- Unlimited storage
- Large files
- Versioning
- Rights and authorizations

USES

- Meeting minutes
- Technical documentation
- Course materials
- Request forms

## All your documents at your fingertips

Sync your Whaller file boxes to your computer thanks to the Whaller Drive application.

The management of access rights for members of a Whaller network applies equally to Whaller Drive.

View, edit and save a document directly from your workstation. The latest version will be automatically updated for all members.

Compatible with Windows and MacOS.

# 🔑 End-to-end encrypted spheres

Business

A secure solution for your strategic exchanges

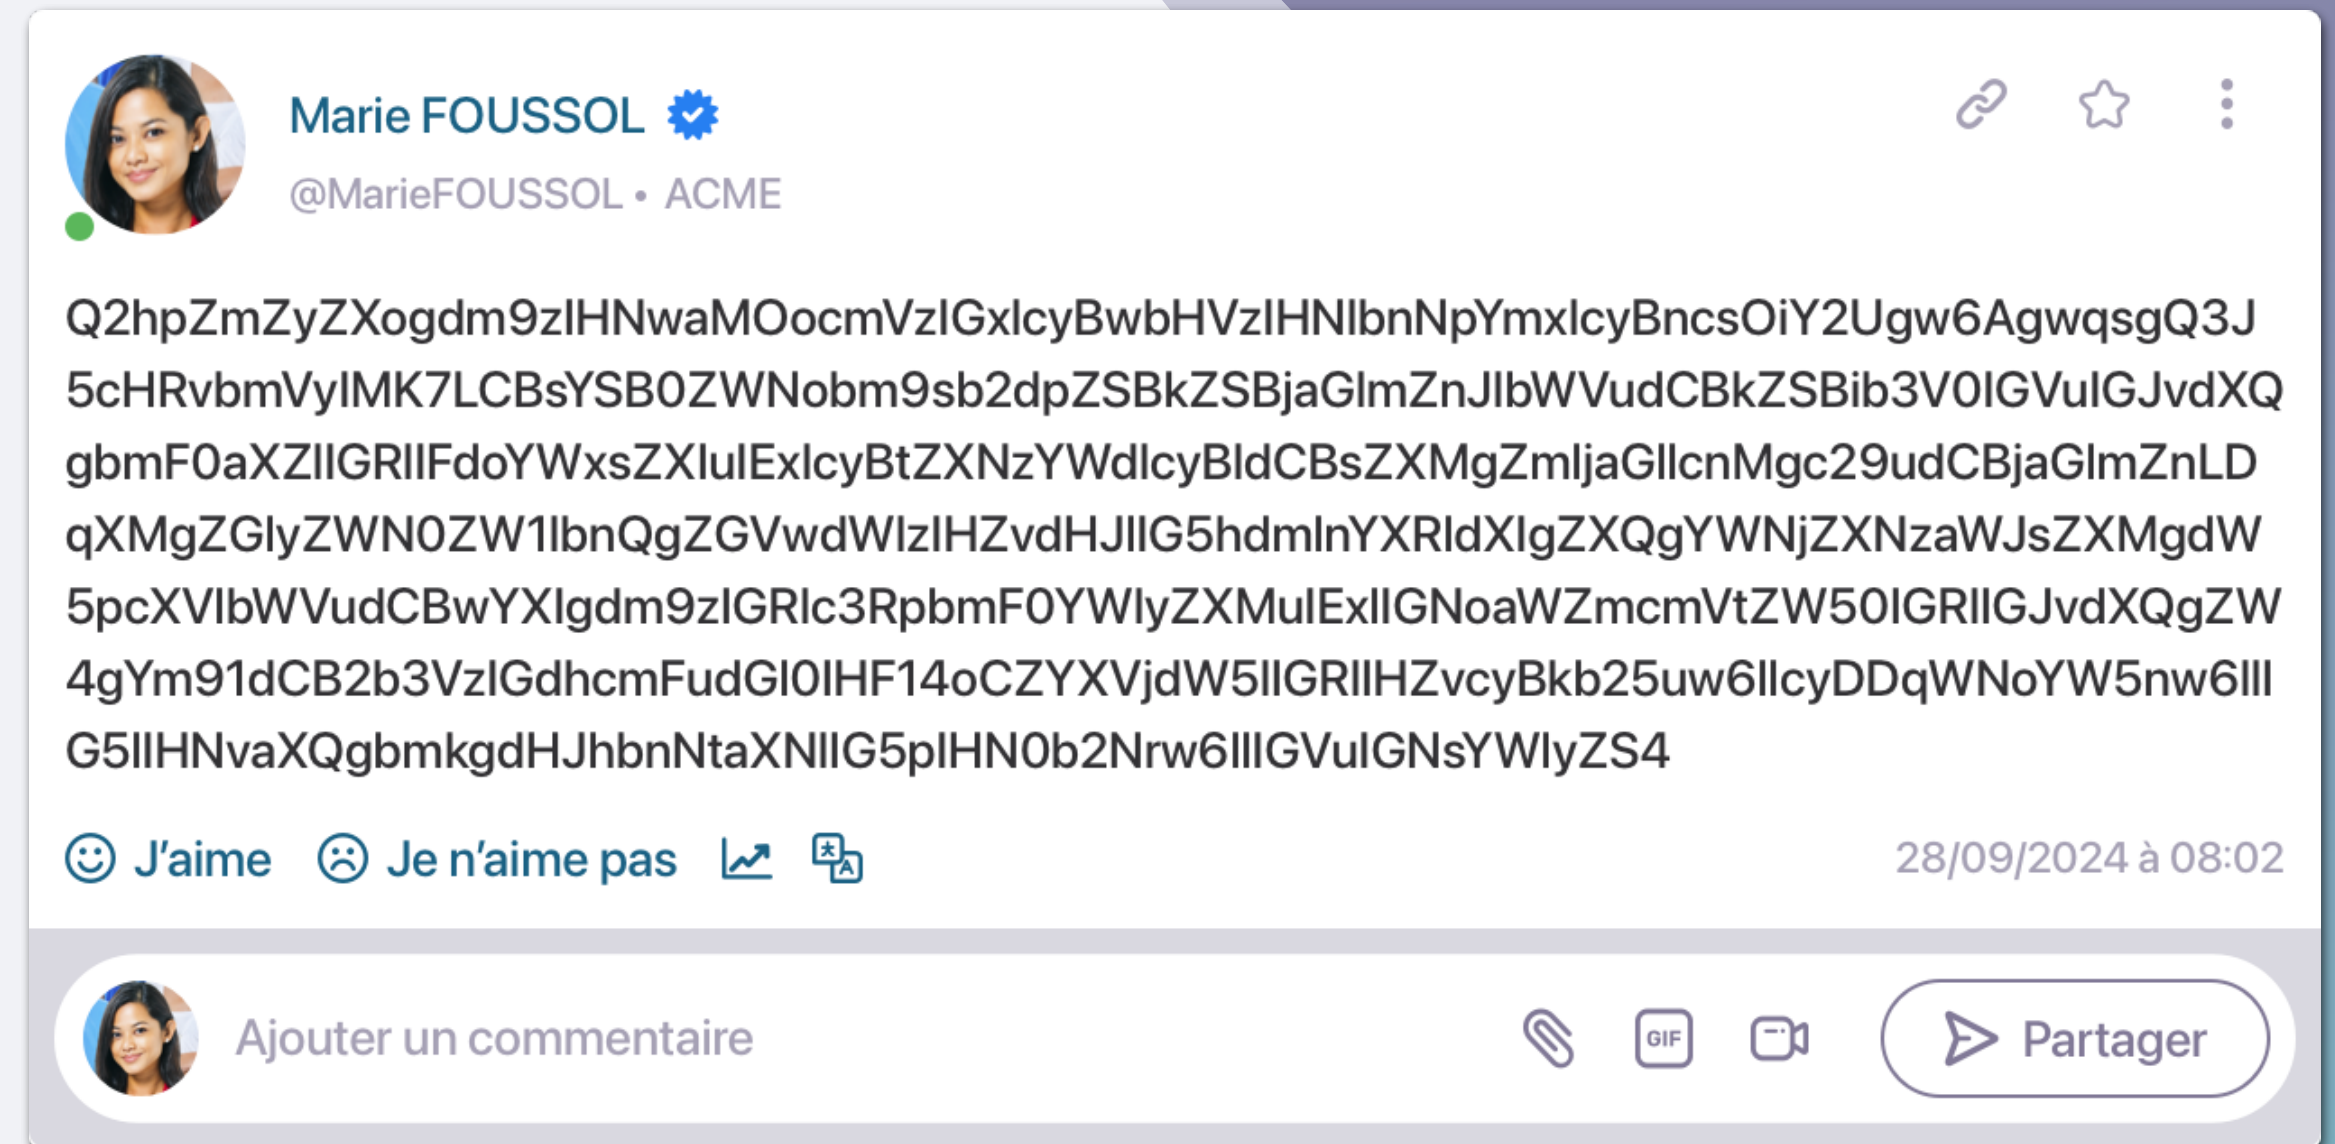

**Whaller offers an end-to-end encryption system for communications and documents shared in spheres.**

This encryption system, called **"Cryptoner"**, is a major innovation: it is based on the SKRED and OLVID messaging solutions, but applied to a more complex collaborative environment, and accessible via a browser.

**This is the first web-based solution for end-to-end encryption of a digital workplace, without deporting secrets to the server.**

## Features :

- **End-to-end encryption (E2EE)** for conversations and files
- **Sovereign hosting** guaranteed by French partners
- **Zero Trust principle:** no encryption keys on the servers

Server-side encryption

Classic end-to-end encryption architecture

« Cryptoner » by Whaller architecture peer-to-peer secret management

# Types of spheres

Select different types of spheres, each with distinct uses, to create a truly custom network.

## CLASSIC

Closed, members must be invited to join.

 Standard

## OPEN

Visible to any Whaller member.

 Standard

## GLOBAL

Automatically includes all members of an organization.

 Standard

## PUBLIC

Visible to all, even those who are not registered on Whaller.

 Standard

## RESTRICTED

Only "staff" members can post public messages.

 Business

## FORUM

Allows an "FAQ" format, comments must be approved.

 Business

## ENCRYPTED

Sphere where your data is encrypted directly on your device and never decrypted on the servers thanks to Cryptoner technology.

 Business

## NEWS

Content posted in this sphere is highlighted on the organization portal in the "News" section.

 Enterprise

# Visitor spheres

 Business

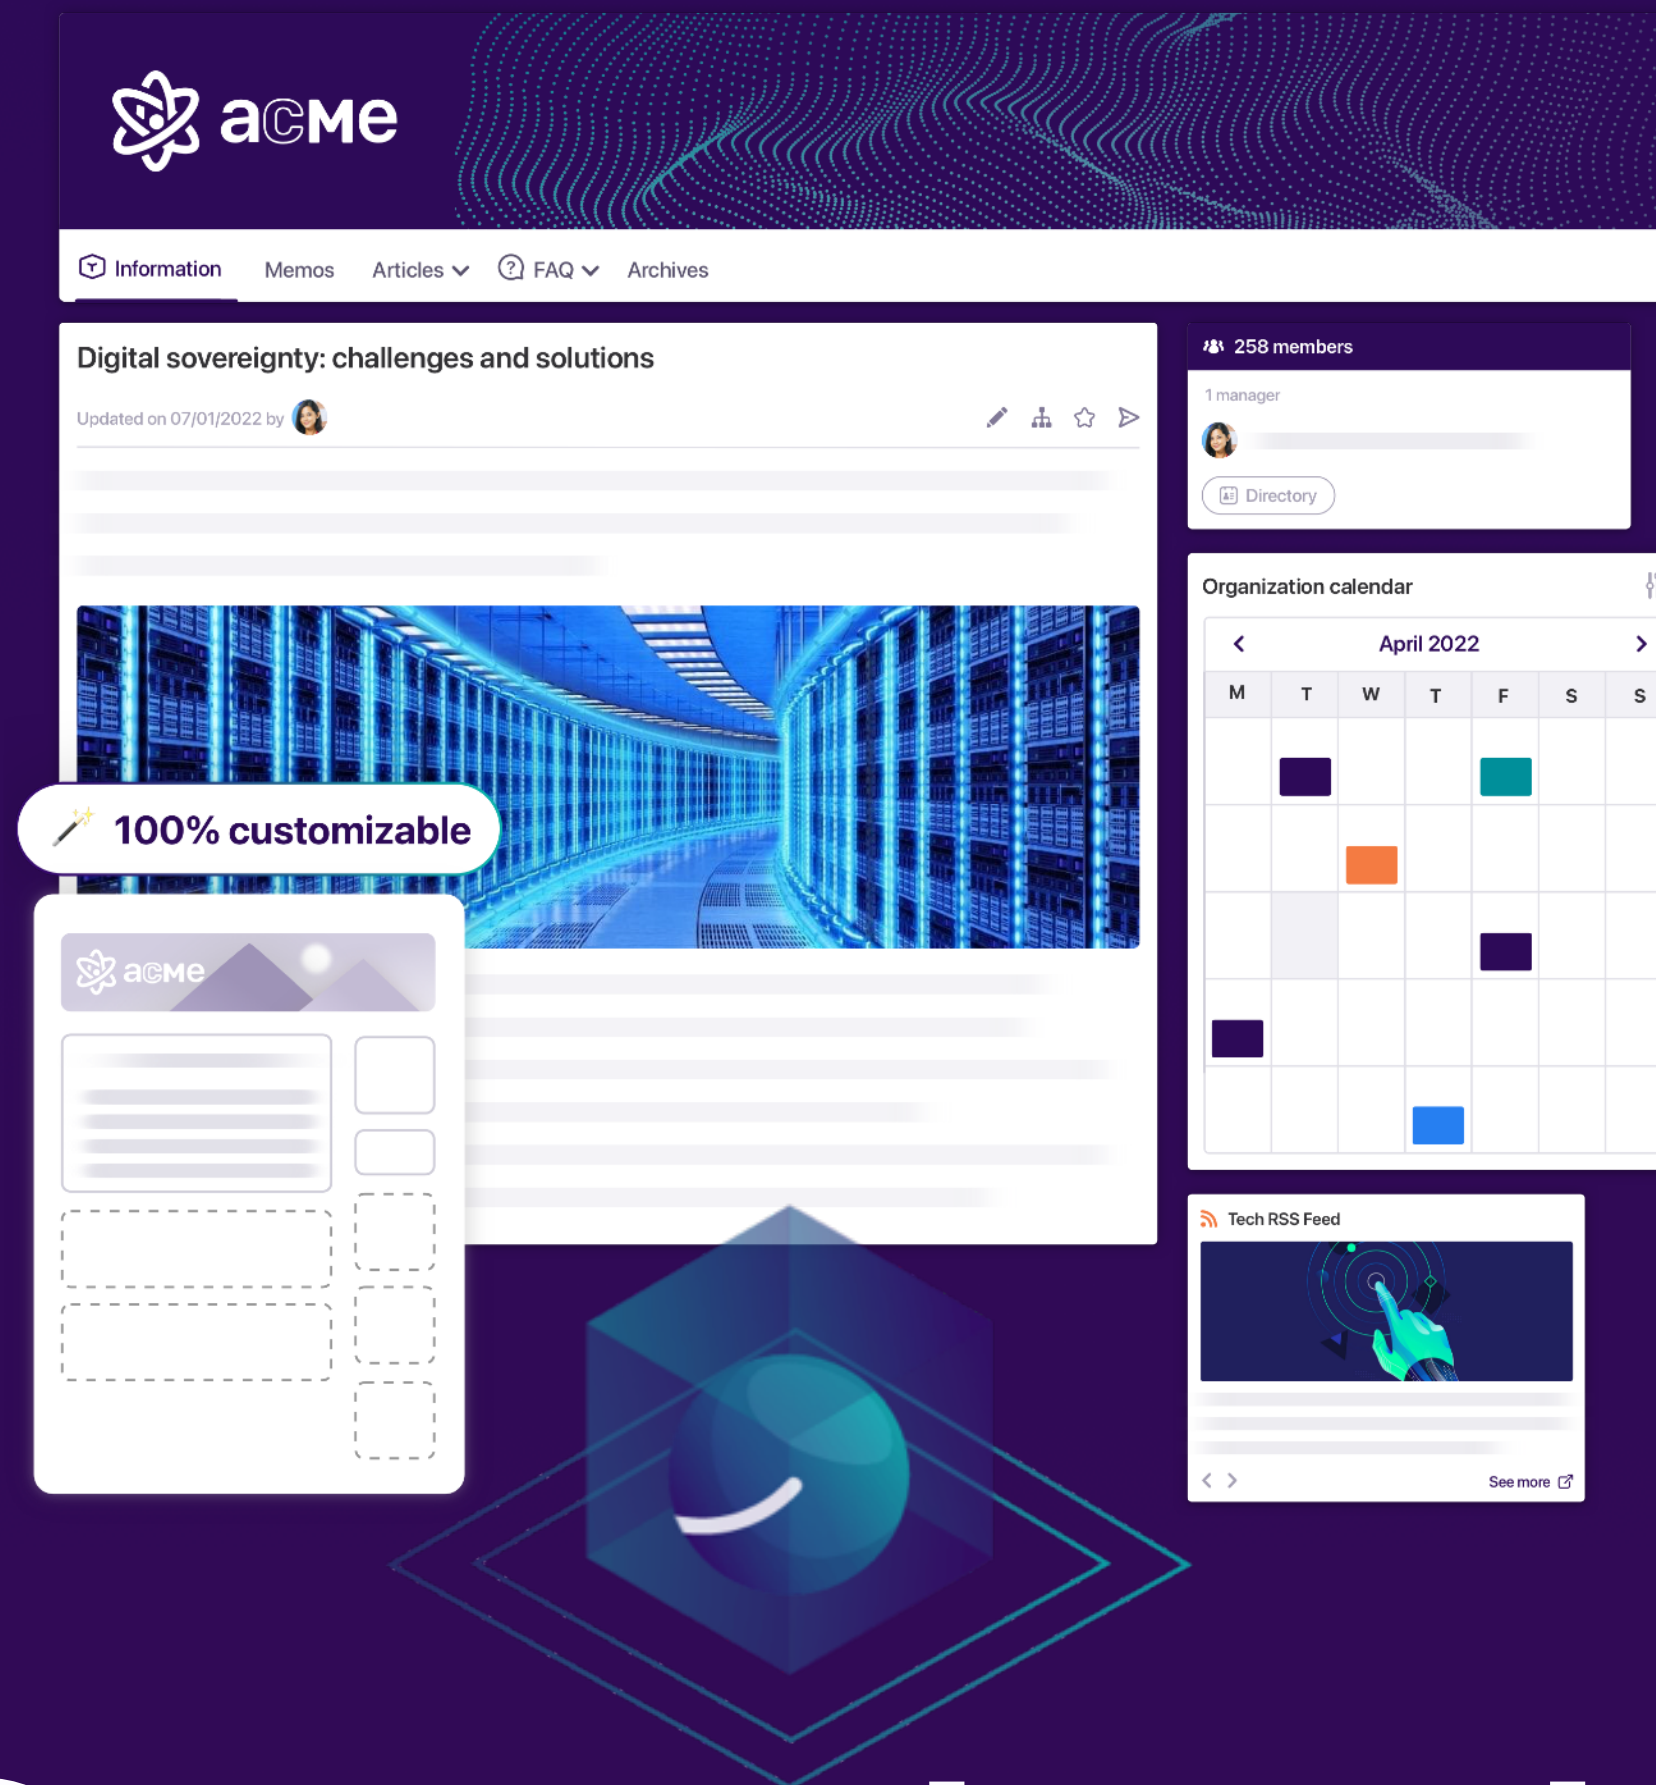

## Welcome external collaborators to your network.

Invite people from outside your organization (clients, suppliers, partners, freelancers, etc.) to interact with members in designated spheres.

Visitors, identifiable by a dedicated icon, can access the sphere, with limited rights:

- ✓ Create and post events
- ✓ View the sphere directory
- ✓ Use collaboration tools
- 🚫 Access the organization portal
- 🚫 Manage the sphere

## 2. Organizations

# Companies directory

Access key information about the members of your community, thanks to enriched company directory profiles.

**Company geolocation:** locate partner companies on an interactive map to optimise local actions and simplify the coordination of teams on the ground.

**Enhanced company profiles:** Consult key information (contact details, current projects, associated contacts), making it easier to manage your business relationships.

**Optimised management of contacts and roles:** Easily organise and track the roles and contacts associated with each company for structured, productive interactions.

The screenshot displays the Whaller ARENA interface, which is a platform for managing company profiles and interactions. The main section, titled "Companies' directory", shows a grid of company cards. Each card includes a logo, the company name, a brief description, and its location. The cards are categorized by tags such as "Education", "Social network", "Cyber", "Design", "SmartCity", "Innovation", and "Privacy".

On the left, a sidebar menu provides navigation options: "Browse portals", "FAVORITES" (with sub-items like Team, Trainings, News, FAQ), and "ORGANIZATION" (with sub-items like Portal, Presentation, Cybersecurity). The top navigation bar includes a search bar, a "MyWhaller" dropdown, and various icons for notifications, settings, and user profile.

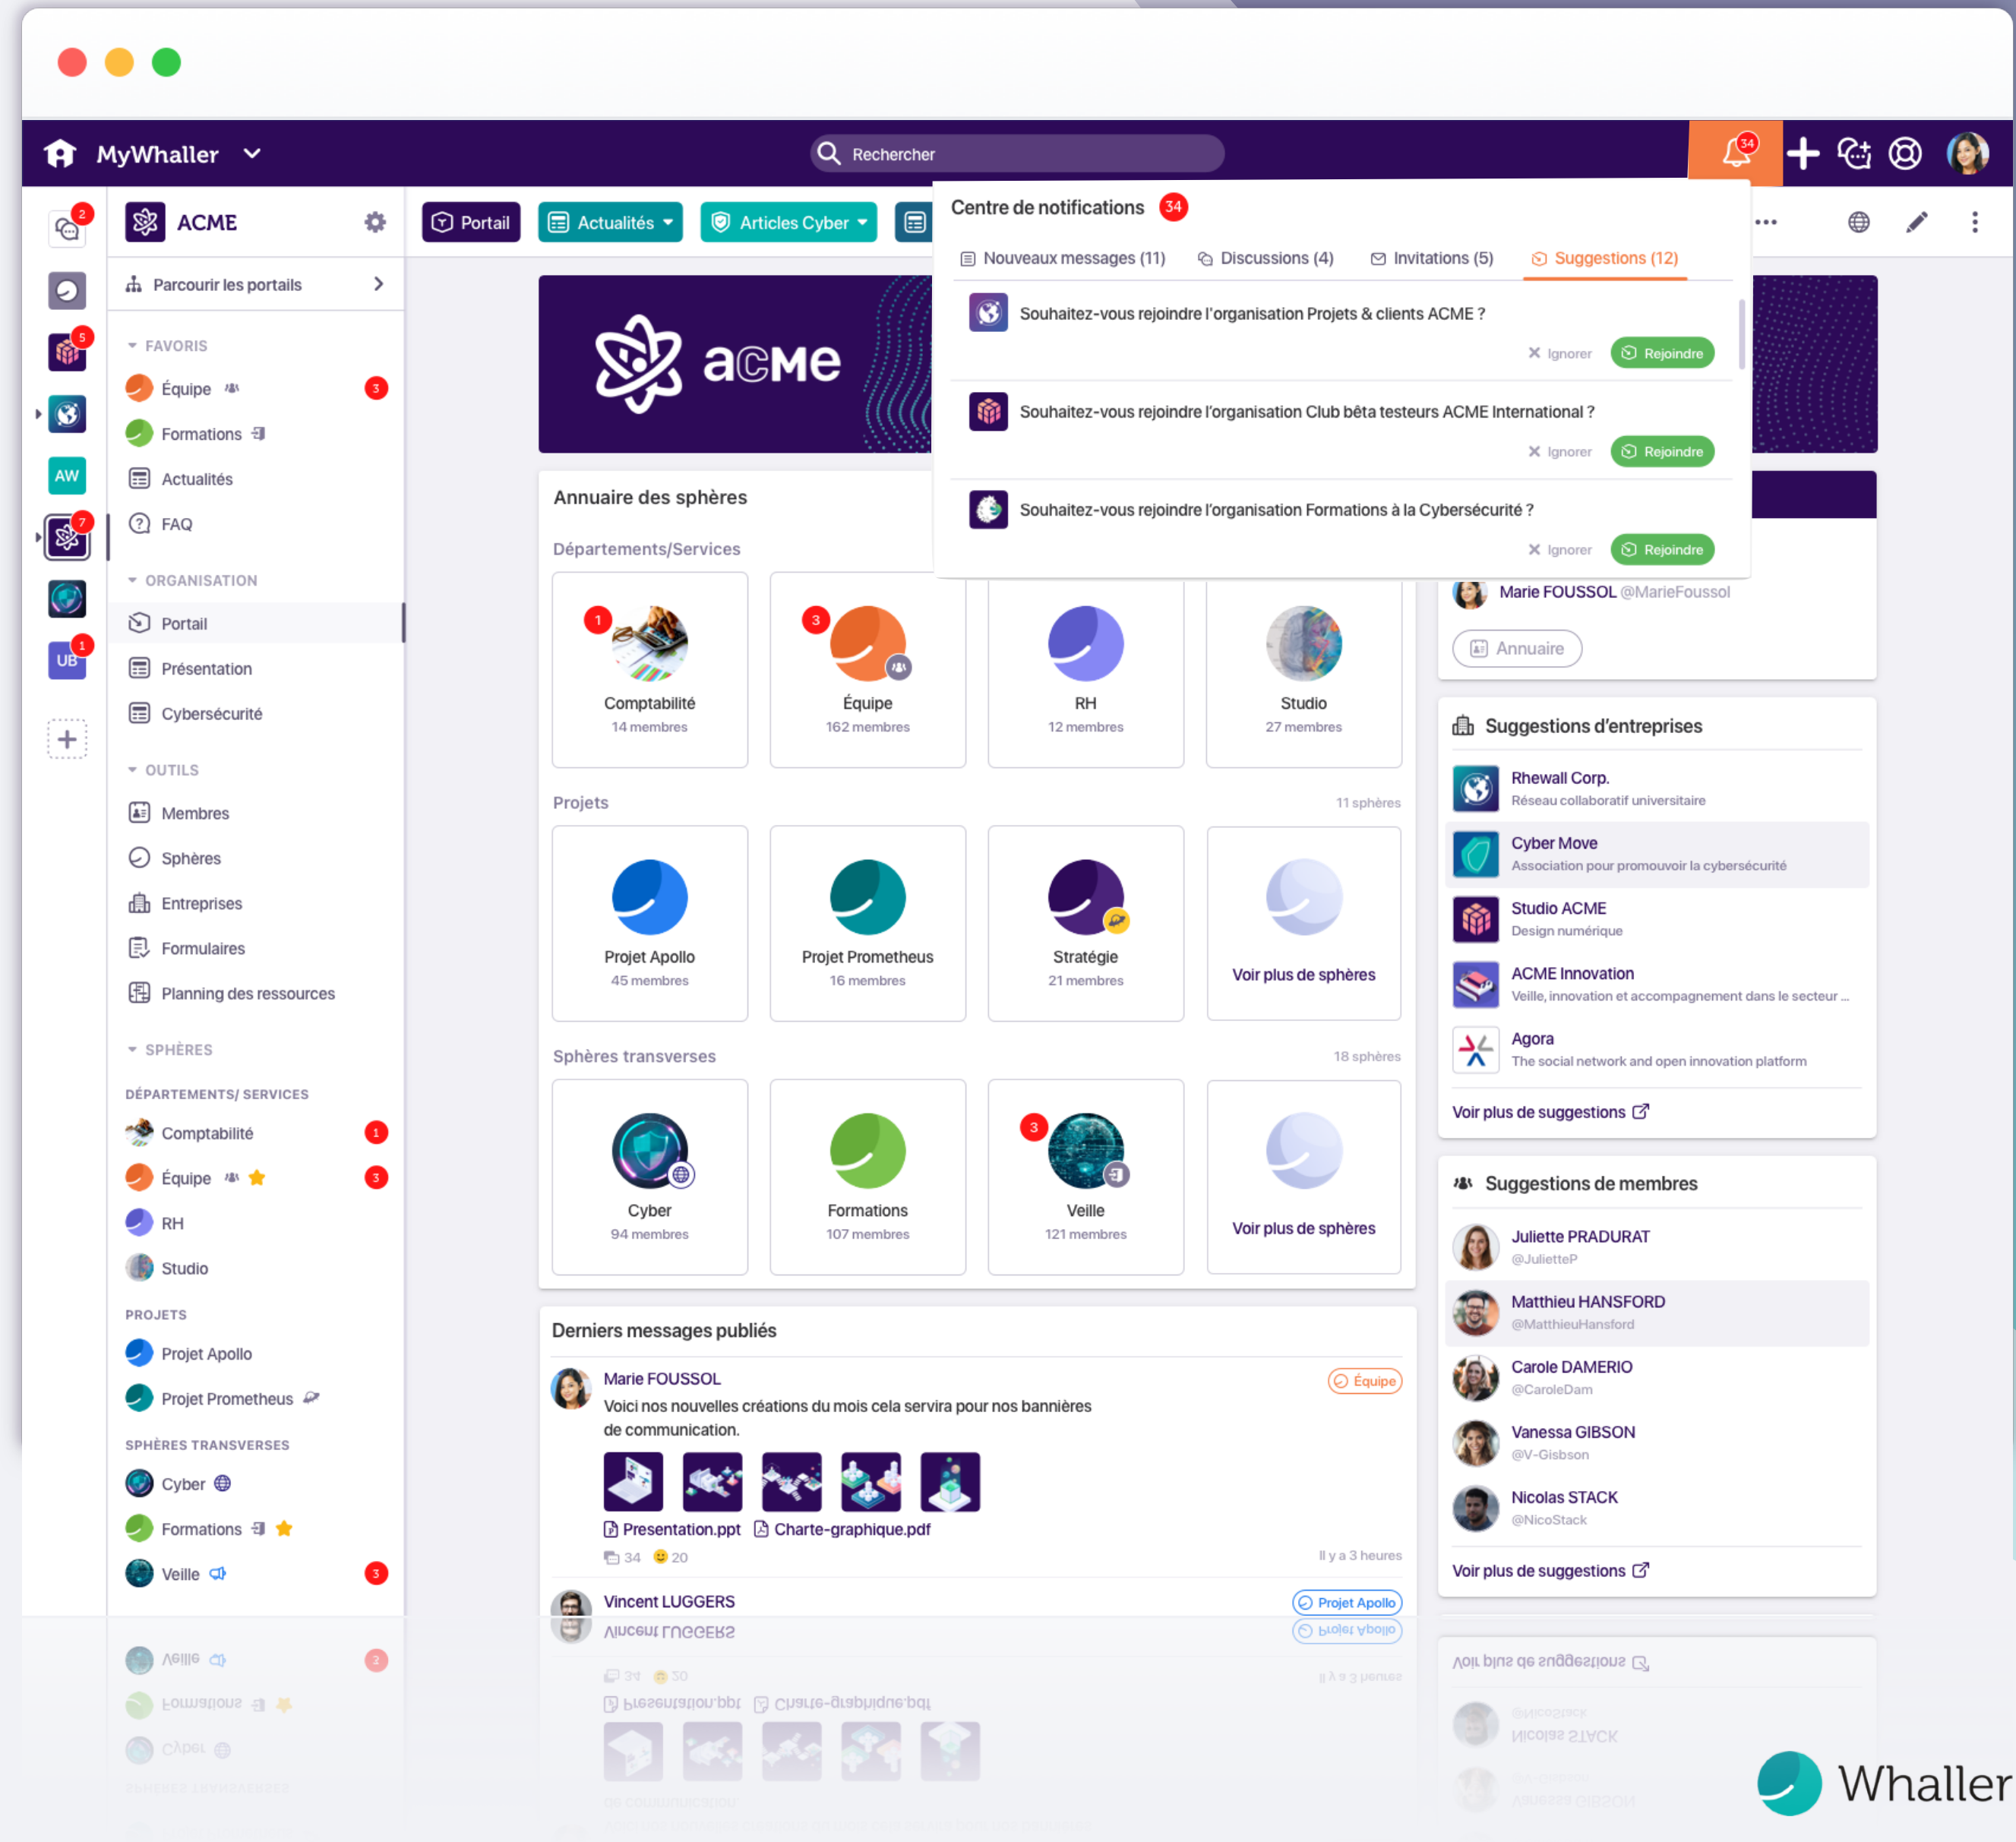

A detailed profile for "Club ACME Corporation" is shown in a modal window. It includes the company's logo, a "contact the company" button, and a "Presentation" section. The presentation text describes the company's mission and services. Below this, there are sections for "Business segment", "Company size", "Start date", "Phone", and "External links".

On the right side of the directory, there is a "Filters" section with a search bar and a list of tags. The tags are organized into categories: "Favourites", "Geolocation", and "Tags". The "Tags" section shows a list of tags with their corresponding counts, such as "greenenergy" (56), "energy" (43), "ai" (41), "digital" (37), "Digital&Growth" (32), "cyber" (30), "manufacturing" (25), "project management" (19), "Green project" (12), "engineer" (12), "design" (11), "innovation" (10), "SmartCity" (9), "social network" (9), "sustainability" (9), "startups" (7), "press" (7), "sales" (7), and "Ops" (5).

# Personalised suggestions (« matching »)

Whaller ARENA's intelligent algorithm suggests contacts, communities and companies based on your members' profiles.

- **Member suggestions:** Quickly access the profiles you're looking for, with intelligent suggestions based on connections, skills and shared projects.
- **Company suggestions:** Find relevant companies and partners instantly with suggestions based on past collaborations, sectors of activity and shared projects.

The screenshot displays the MyWhaller web application interface. The top navigation bar includes a search bar, a notification bell with 34 alerts, and a user profile icon. The left sidebar contains a menu with categories like FAVORIS, ORGANISATION, OUTILS, DÉPARTEMENTS/ SERVICES, PROJETS, and SPHÈRES TRANSVERSES. The main content area is divided into several sections: 'Annuaire des sphères' (Departments/Services) with cards for Comptabilité (14 membres), Équipe (162 membres), RH (12 membres), and Studio (27 membres); 'Projets' with cards for Projet Apollo (45 membres), Projet Prometheus (16 membres), and Stratégie (21 membres); 'Sphères transverses' with cards for Cyber (94 membres), Formations (107 membres), and Veille (121 membres); 'Derniers messages publiés' showing recent posts from Marie FOUSSOL and Vincent LUGGERS; 'Suggestions d'entreprises' (Company suggestions) listing Rhewall Corp., Cyber Move, Studio ACME, ACME Innovation, and Agora; and 'Suggestions de membres' (Member suggestions) listing Juliette PRADURAT, Matthieu HANSFORD, Carole DAMERIO, Vanessa GIBSON, and Nicolas STACK. A 'Centre de notifications' (Notification center) is overlaid on the right, showing suggestions to rejoin various organizations like 'Projets & clients ACME', 'Club bêta testeurs ACME International', and 'Formations à la Cybersécurité'.

# Widget center

Pro

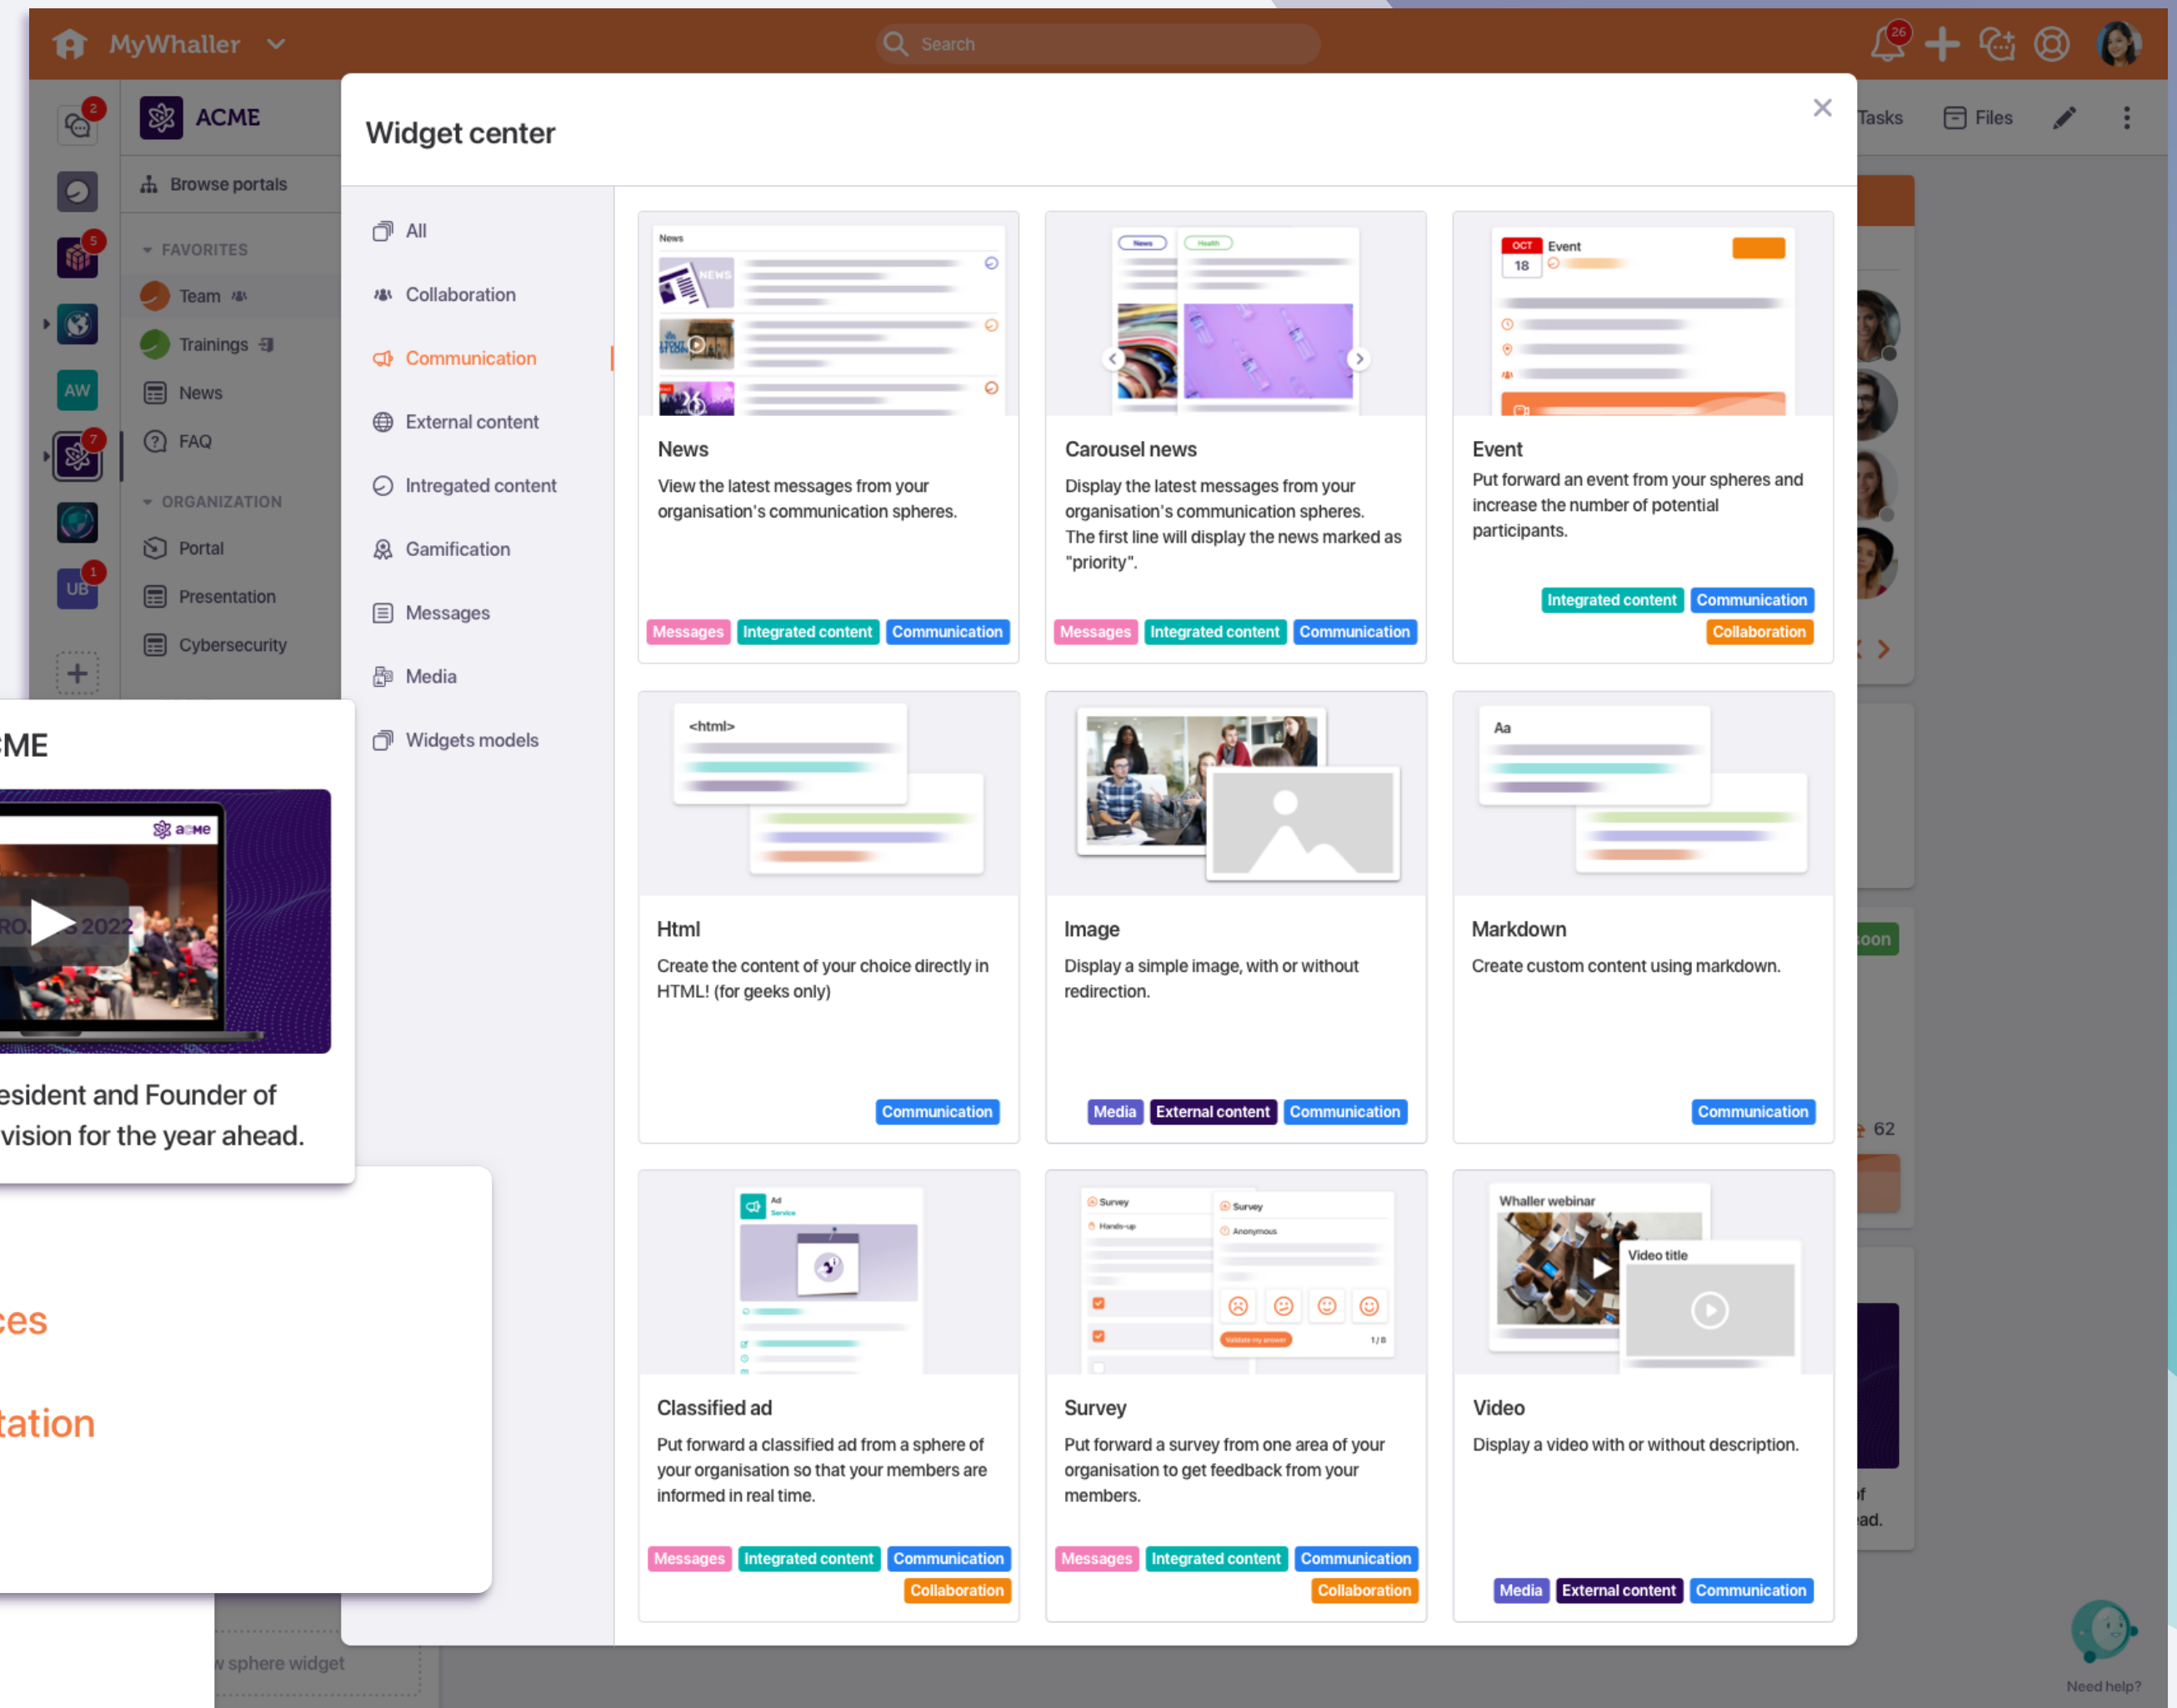

+ New widget

Build a personalized platform with a wide variety of widgets.

Customise the content of your portals and spheres by adding widgets of your choice via the widget center.

Access and set up the widgets you need from a wide range of content: multimedia content (images, videos, links, etc.), external content (Twitter, RSS feeds, iframes, etc.), internal content (messages, files, favourites, events, etc.) and much more...

Create widget templates to optimize the configuration/customization of your network.

# Articles (CMS)

Business

Add custom content to your organization portal.

Create and organize articles using an integrated CMS (Content Management System).

Choose “Article” or “FAQ” display, internal or external visibility, location or editing.

Use the WYSIWYG editor to easily build content with text, images, videos, tables...

The screenshot displays the MyWhaller CMS interface for editing an article titled "Privacy by Design". The interface is divided into several sections:

- Left Sidebar:** Contains navigation links for "Access to the organization", "GENERAL SETTINGS" (Settings, Spheres, Federation), "USERS" (Members, Visitors, Requests, Invitations, Roles, Profiles, Profile statuses), and "TOOLS" (Companies, Articles (CMS), Forms, Maps).
- Top Bar:** Includes the MyWhaller logo, a search bar, and user profile information.
- Main Content Area:**
  - Banner:** A large image placeholder with a "Replace or drag and drop an image" prompt.
  - Title:** The article title "Privacy by Design".
  - Contenu:** A WYSIWYG editor with various formatting tools (bold, italic, underline, link, etc.) and the article text: "The concept of 'Privacy by Design' involves protecting users' personal data right from the design stage of a platform, website or mobile application (engineering, practices, procedures). Discover some concrete examples of how 'Privacy by Design' has been implemented in ACME".
  - Colonne:** A sidebar for the article content, including a "Titre 3" section with a "Password policy" heading and a detailed description of the policy.
- Right Sidebar:** Contains metadata and options:
  - Save:** A green button to save the article.
  - Position:** A dropdown menu set to "1".
  - Language:** A dropdown menu set to "English".
  - Status:** A green "Published" button and a "Stop publishing the article" button.
  - Parent article:** A dropdown menu set to "Intranet".
  - Sub-articles:** A list of sub-articles with a "Create a sub-article" button.
  - Options:** A section for layout, display of sub-articles, tags, color, and logo.

Collect important information from your members with engaging, paperless forms.

 **Create:** customise and submit forms to enhance and streamline your internal communications.

 **Parameters:** Activate or deactivate certain parameters to avoid information overload and process the most relevant.

 **Distribute:** Send the form you want to the right audience to retrieve even more detailed and qualified information.

 **Collect data:** Find responses in your management page. Reply to your members, approve requests and export responses in XLSX format.

# Interactive maps

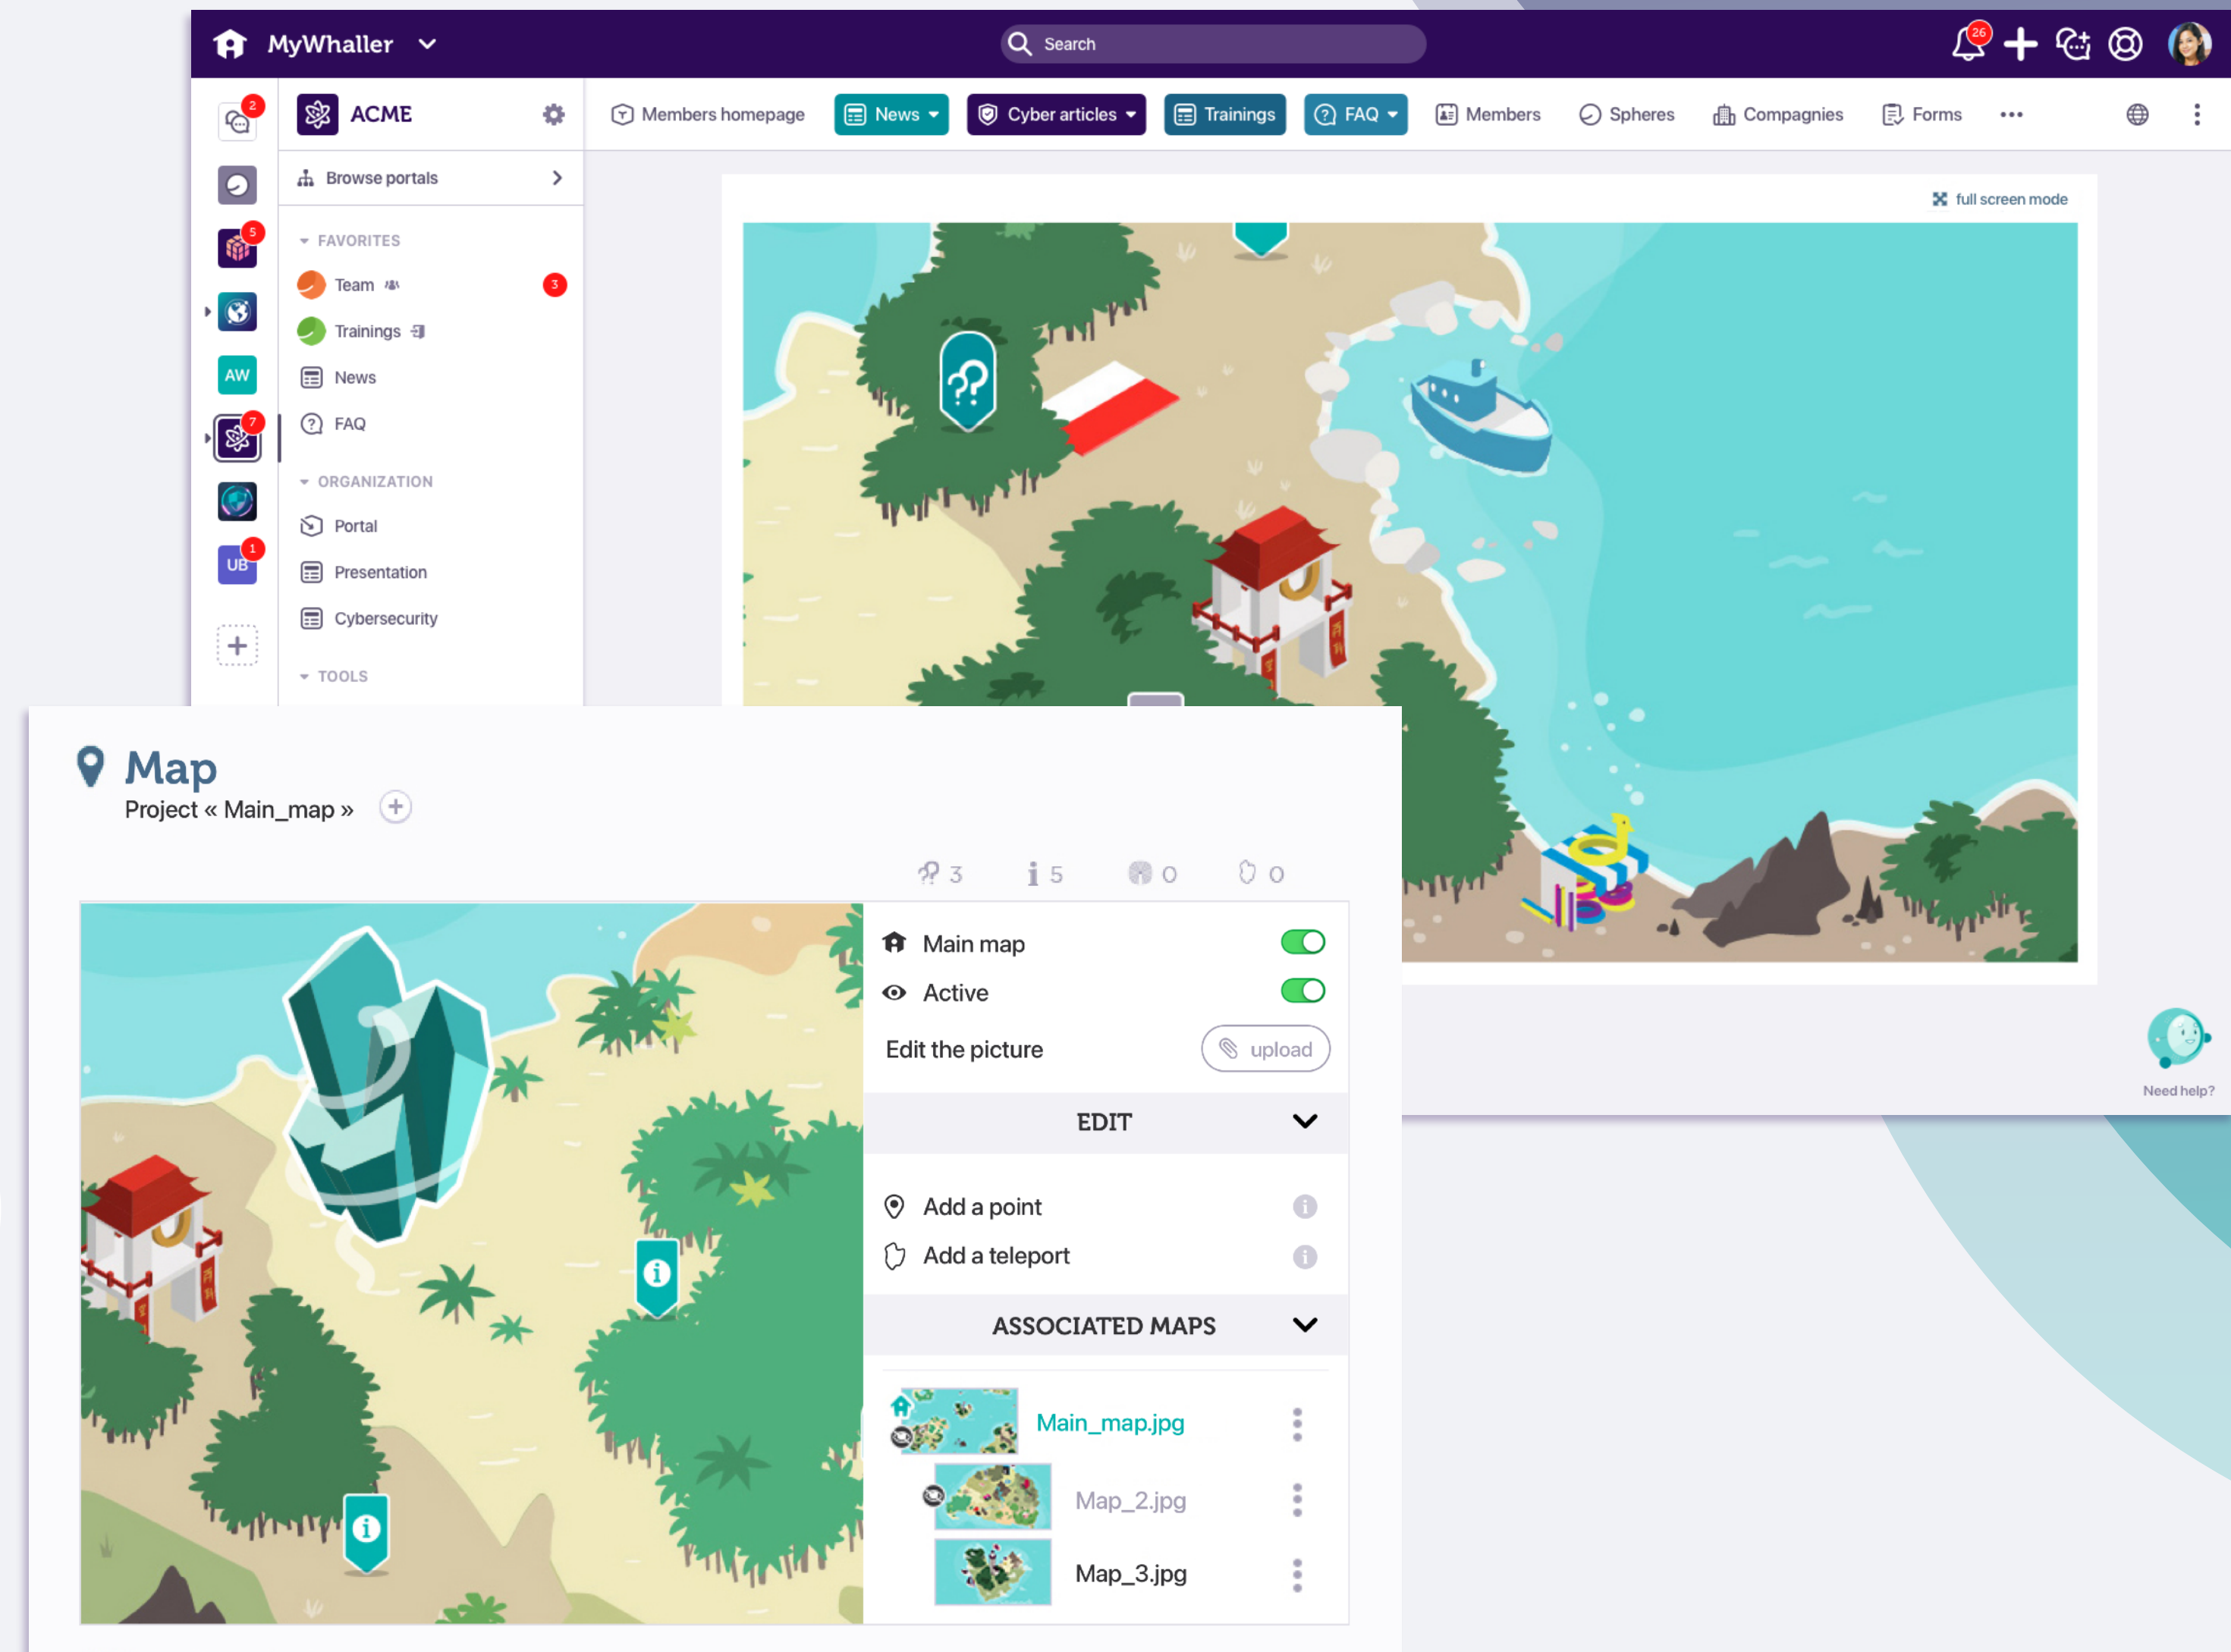

Present important information in an original and memorable way.

For example, represent your subsidiaries in the form of different locations, then invite your members to move around the map to discover the various worlds.

Enhance these journeys with quizzes and other animations that will allow your employees to better understand their organization and its culture.

## USES

- Onboarding
- Contests
- Building, campus maps

# Store & points

 Business

Create an advanced rewards system for organization members.

Set up an internal e-shop and award points to members that they can use to purchase goodies.

## USES

- Loyalty program
- Incentive

The screenshot displays the Whaller Business interface. At the top, a dark purple header contains a search bar and navigation icons. Below this, a white navigation bar lists various sections: Members homepage, News, Cyber articles, Trainings, FAQ, Members, Spheres, Compagnies, Forms, and a globe icon. The main content area shows a member's points balance: "You have 7100 points" with a sub-note "25 points won, 5 points spent" and a link to "View transaction details". Below this, a section titled "Choose your gifts with your points" displays five reward cards: a Mug (10 points), a Customisable T-shirt (50 points), a Tote bag (25 points, marked as "New"), a Wellness box (100 points), and 5 cinema tickets (25 points). A bottom panel, titled "My deals" with a "Return to store" link, shows a transaction history table.

7100 points remaining / 420 points earned		
- 10 points	Mug	03/29/2024 at 5:04pm
- 100 points	Wellness box	11/19/2022 at 4:28pm
+ 150 points	Received by @VincentLuggers	01/05/2023 at 11:56am
+ 25 points	Present	12/27/2024 at 09:23am

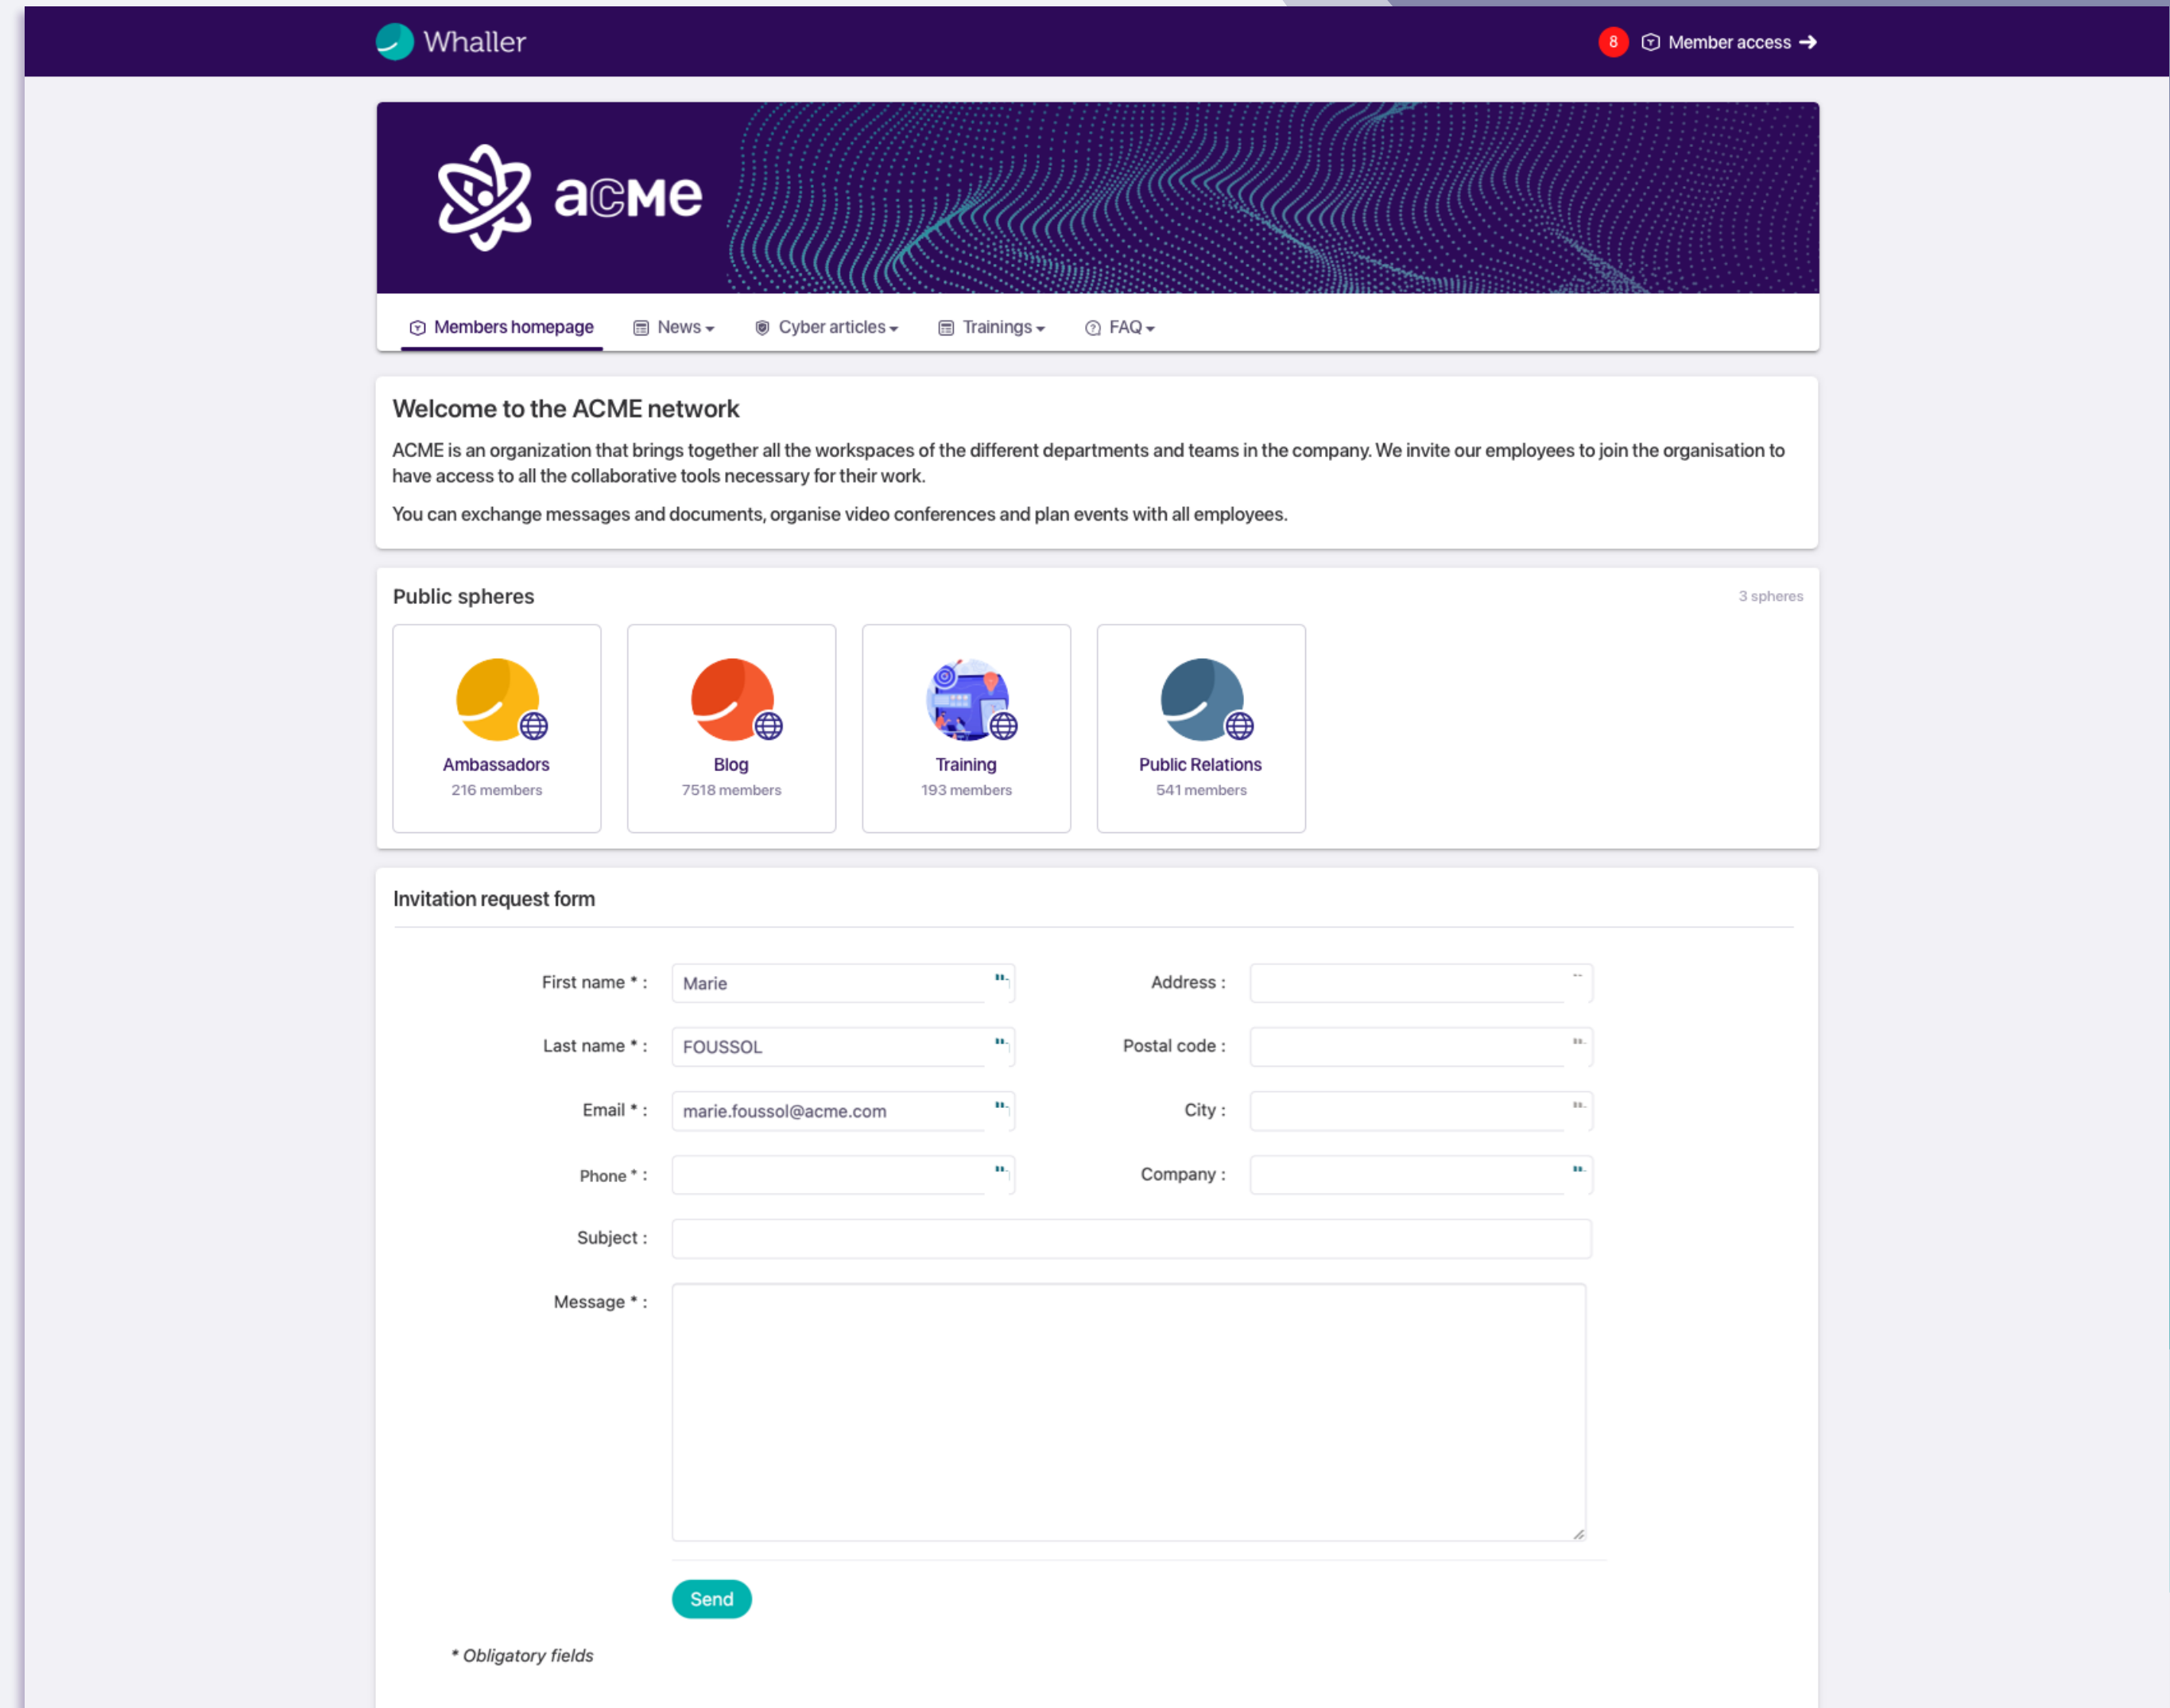

## Increase visibility and attract more members.

Create a public homepage to build an online presence, present your organization and allow users to request to join your network.

Public spheres, dedicated to sharing external content, are visible on this portal.

### USES

- Showcase website
- External homepage
- Entry request form

The screenshot displays the Whaller Public portal for ACME. The header includes the Whaller logo and a 'Member access' link. The main banner features the ACME logo and a navigation menu with links to 'Members homepage', 'News', 'Cyber articles', 'Trainings', and 'FAQ'. Below the banner, a 'Welcome to the ACME network' section provides an overview of the organization and its collaborative tools. The 'Public spheres' section lists four categories: 'Ambassadors' (216 members), 'Blog' (7518 members), 'Training' (193 members), and 'Public Relations' (541 members). The 'Invitation request form' section contains fields for 'First name', 'Last name', 'Email', 'Phone', 'Address', 'Postal code', 'City', 'Company', 'Subject', and 'Message'. A 'Send' button is located at the bottom of the form, and a note indicates that fields marked with an asterisk are obligatory.

**Welcome to the ACME network**

ACME is an organization that brings together all the workspaces of the different departments and teams in the company. We invite our employees to join the organisation to have access to all the collaborative tools necessary for their work.

You can exchange messages and documents, organise video conferences and plan events with all employees.

# 3. The platform

A unified digital workplace in your image

# Hosting

Decide how and where your data's hosted.

## SaaS

By default, host your data on Whaller's servers located in Roubaix, France (OVHcloud).

Standard

## Data On-Premises

Benefit from a hybrid architecture by hosting your data on the servers of your choice, and accessing your networks via whaller.com.

Business

## SecNumCloud

Secure your data on OVHcloud's SecNumCloud-certified Hosted Private Cloud.

Enterprise

# Hosting

Decide how and where your data's hosted.

## SaaS

By default, host your data on Whaller's servers located in Roubaix, France (OVHcloud).

Standard

## Data On-Premise

Benefit from a hybrid architecture by hosting your data on the servers of your choice, and accessing your networks via whaller.com.

Business

## All On-Premise

Install a standalone version of Whaller on your own servers to keep your service and data at home. Offer reserved for European institutional or industrial customers.

Enterprise

## SecNumCloud

Benefit from a physically dedicated platform adapted to sensitive information systems.

**Also available for :**

- ✓ Restricted Distribution (DR)
- ✓ Health Data (HDS)

Upgrade your network protection by putting an advanced password policy in place:

- ✓ Strong authentication
- ✓ SSO, LDAP
- ✓ Length
- ✓ Complexity (minimum number of characters, numbers, uppercase, lowercase, special characters)
- ✓ Expiration
- ✓ Number of connections before renewal
- ✓ Duration of the reset token (the length of time a password renewal request is valid)

Whaller white label, or “gate”, is a platform hosted on a dedicated URL that completely isolates your ecosystem from the rest of Whaller, and allows more advanced customization.

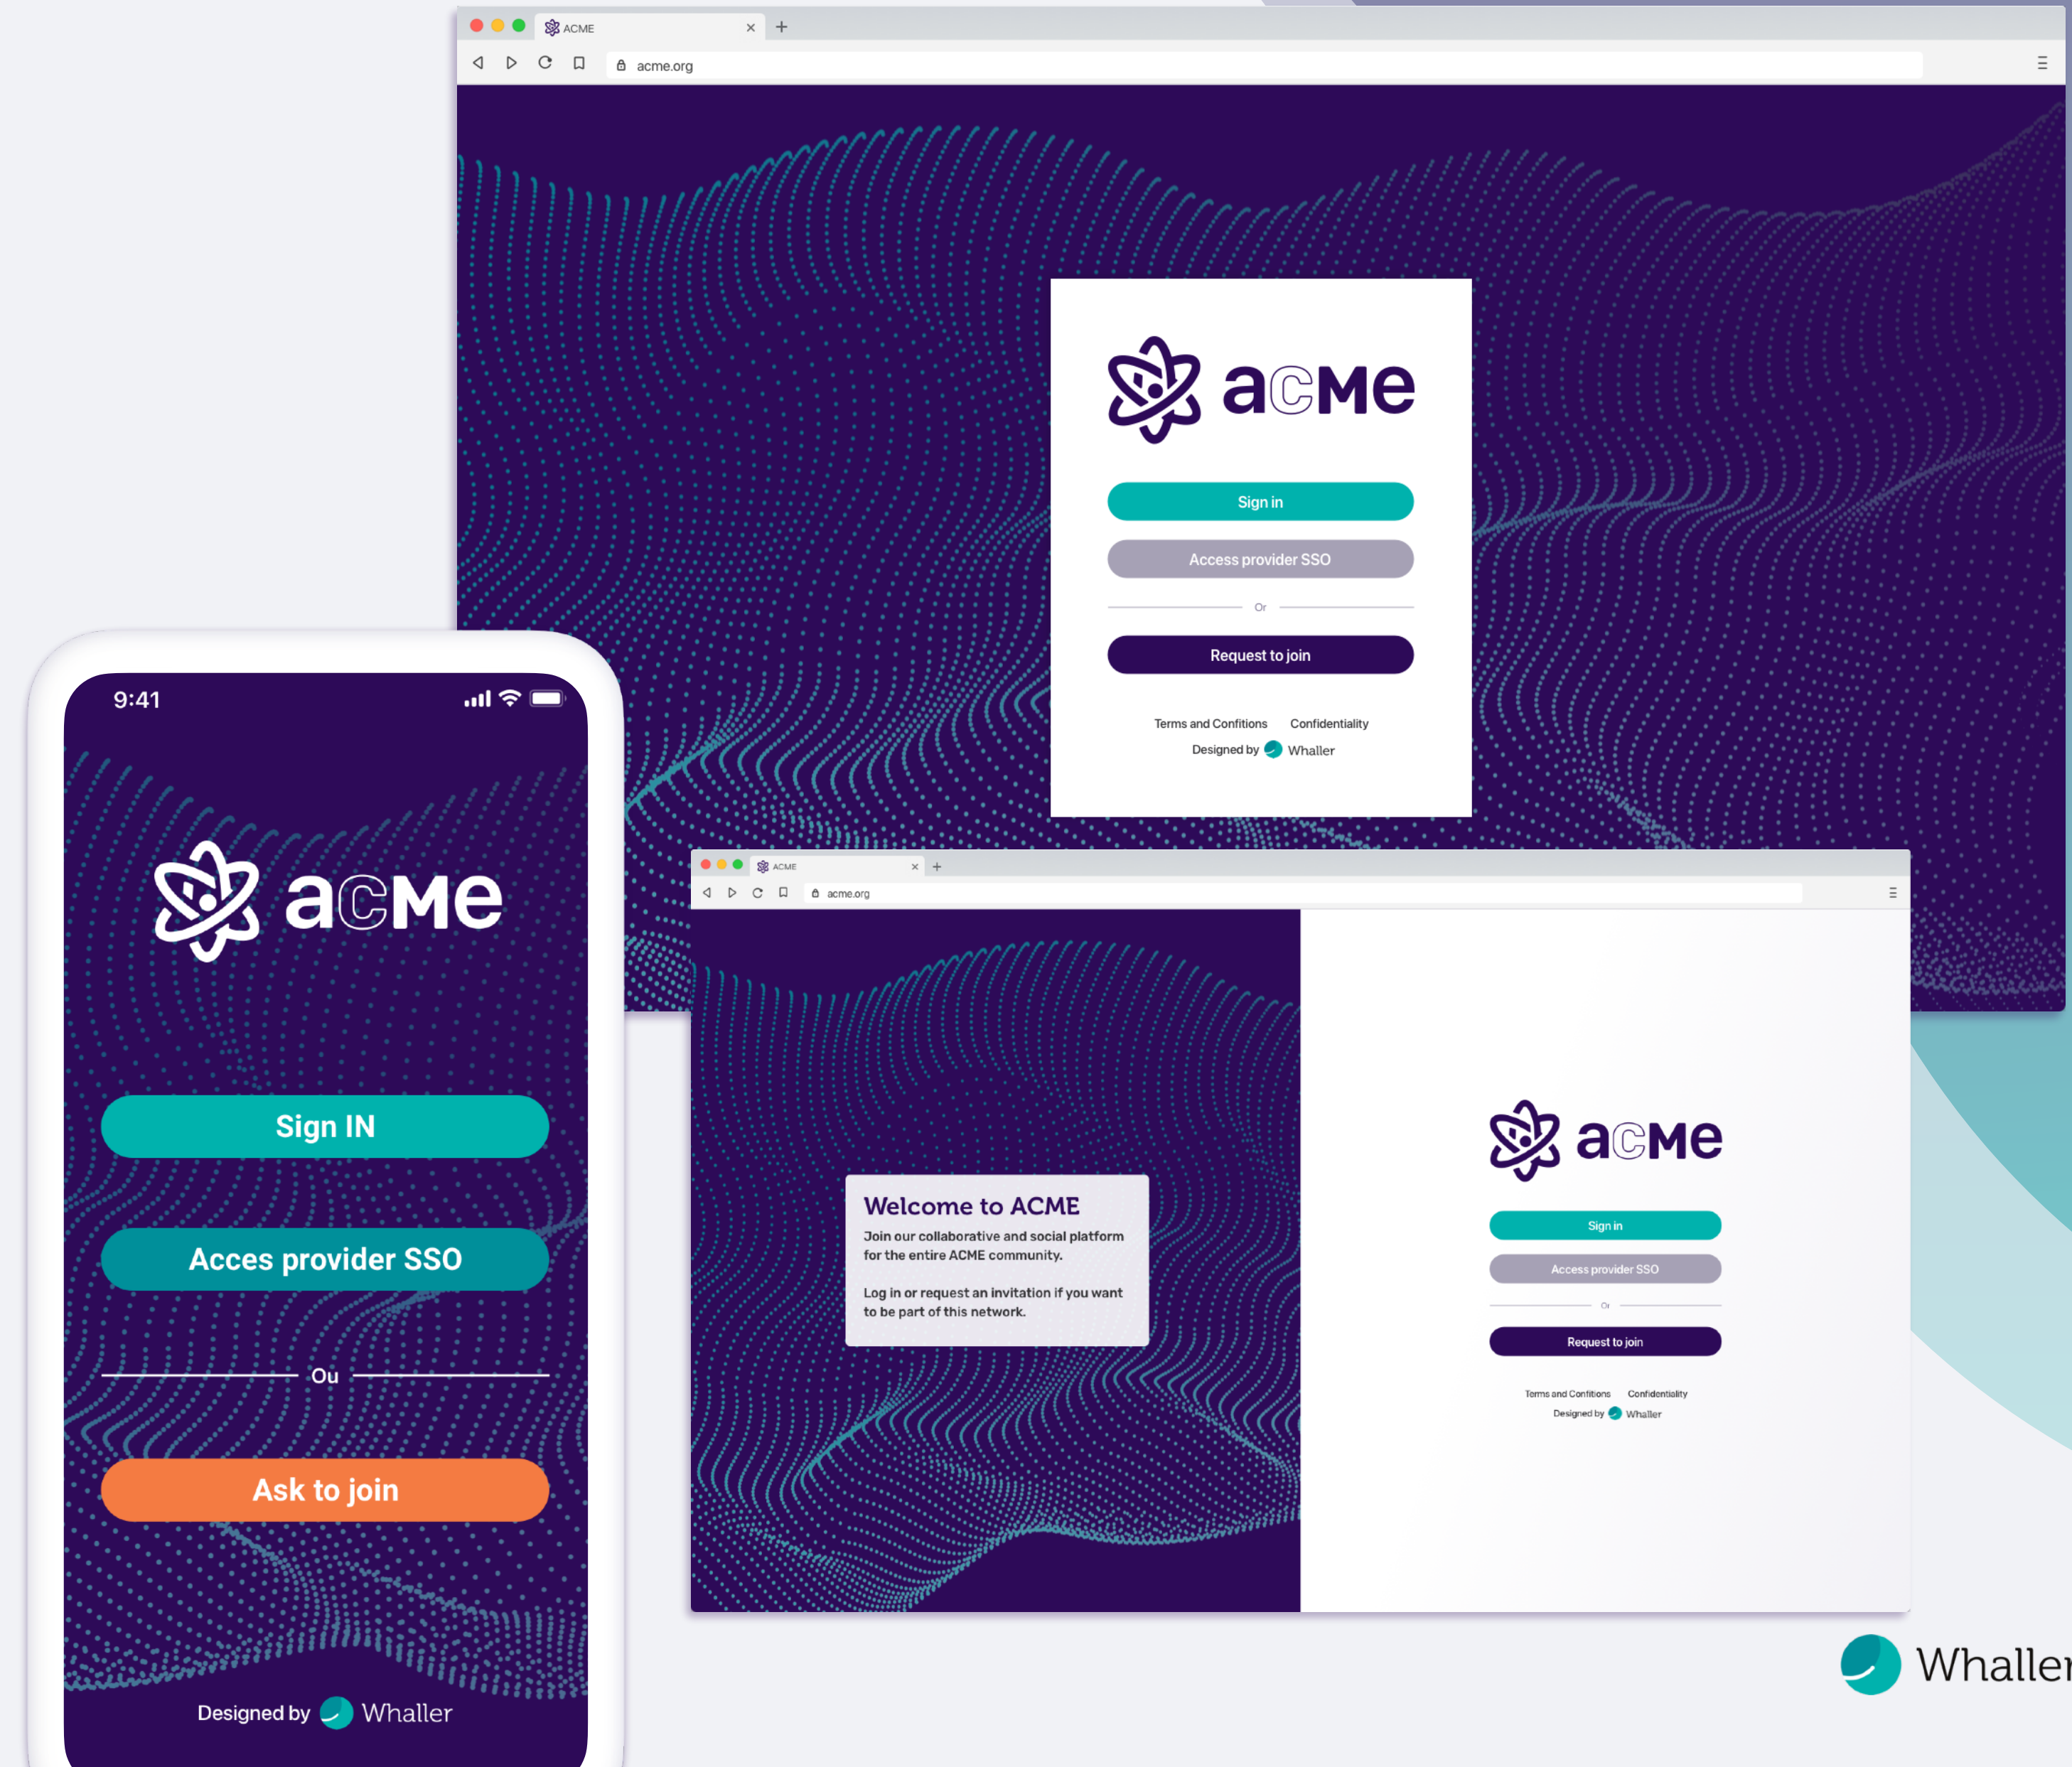

White label is available for the web and mobile.

Your disconnected homepage is fully customizable:

- Dedicated URL (possibility to use your own domain name)
- Tailor-made background, colors and style
- Various cumulative connection modes: SSO, LDAP, Whaller, etc.
- Custom footer links

 **Business**  
White label website

 **Enterprise**  
White label website and mobile application

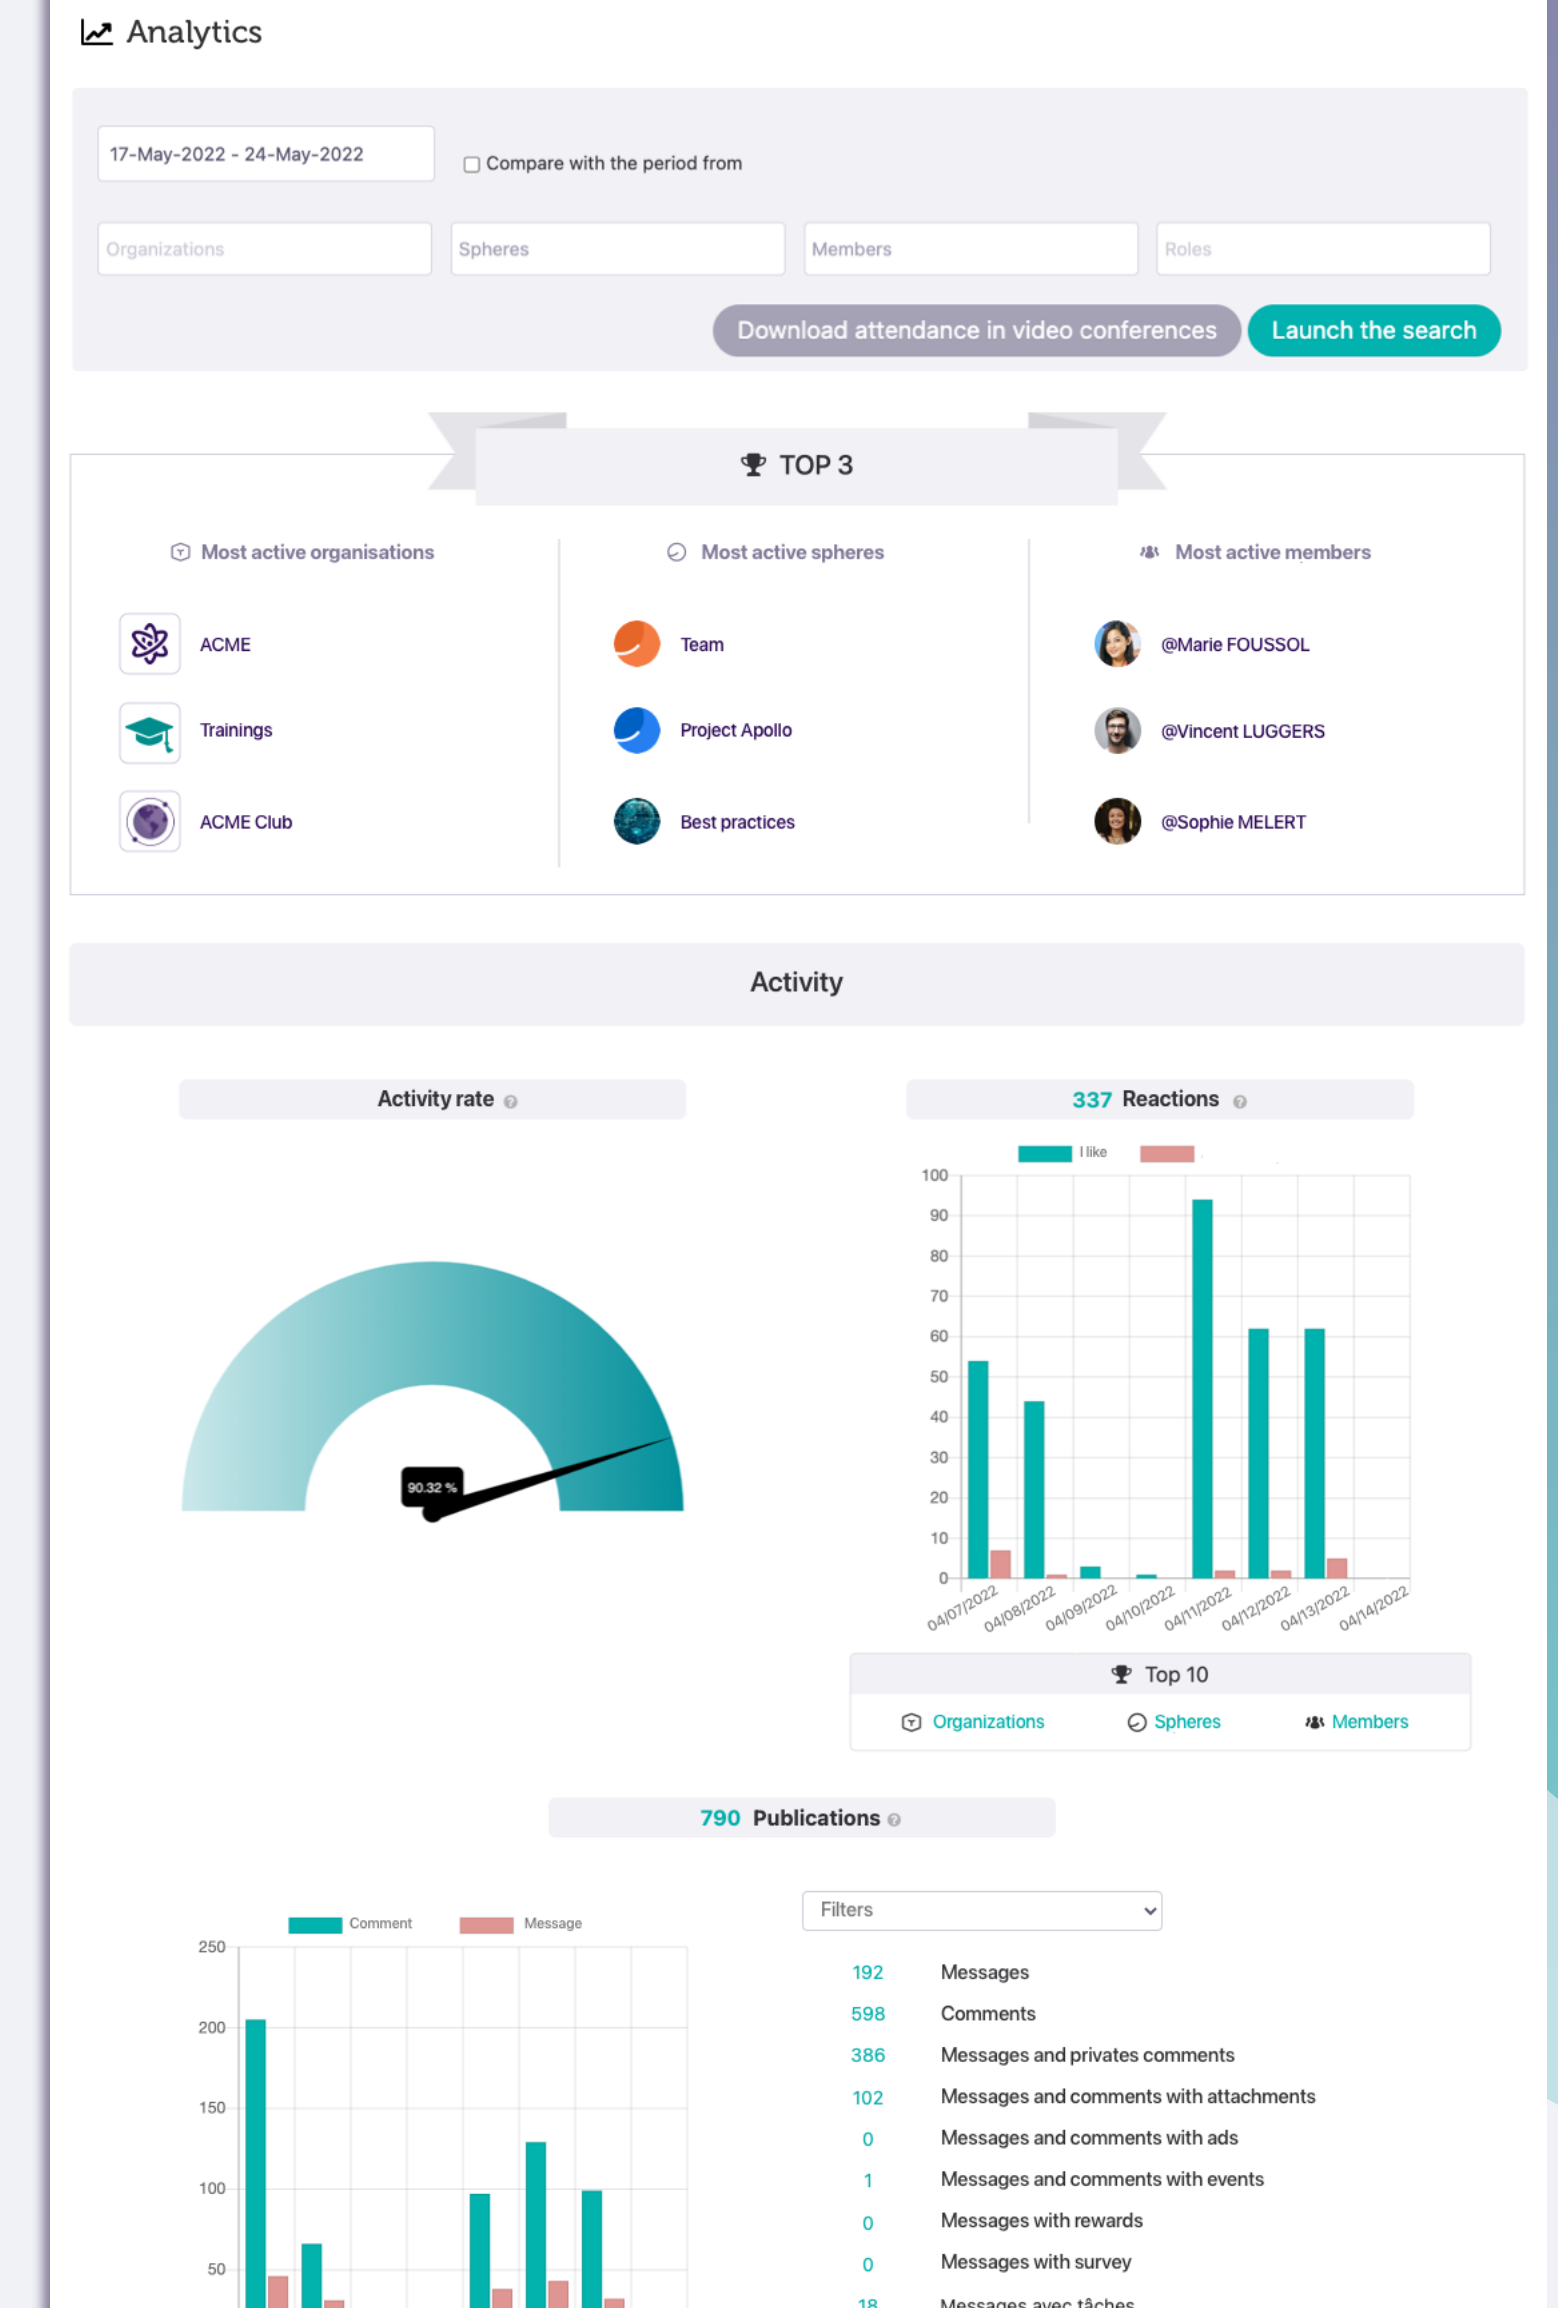

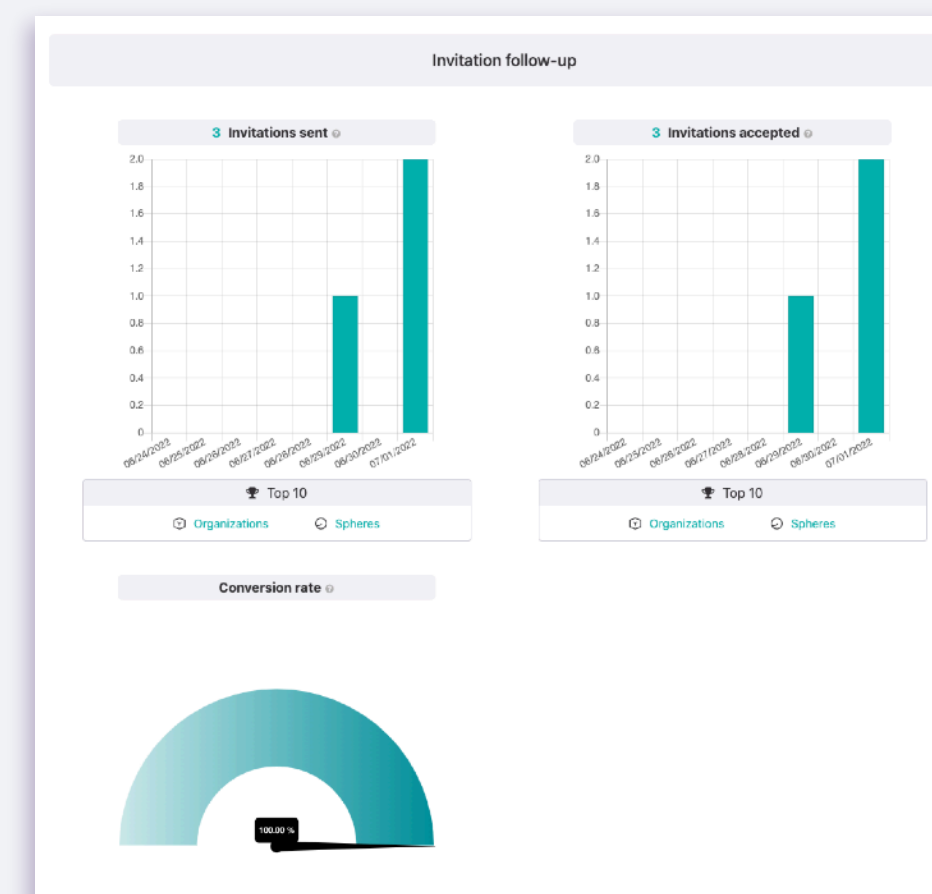

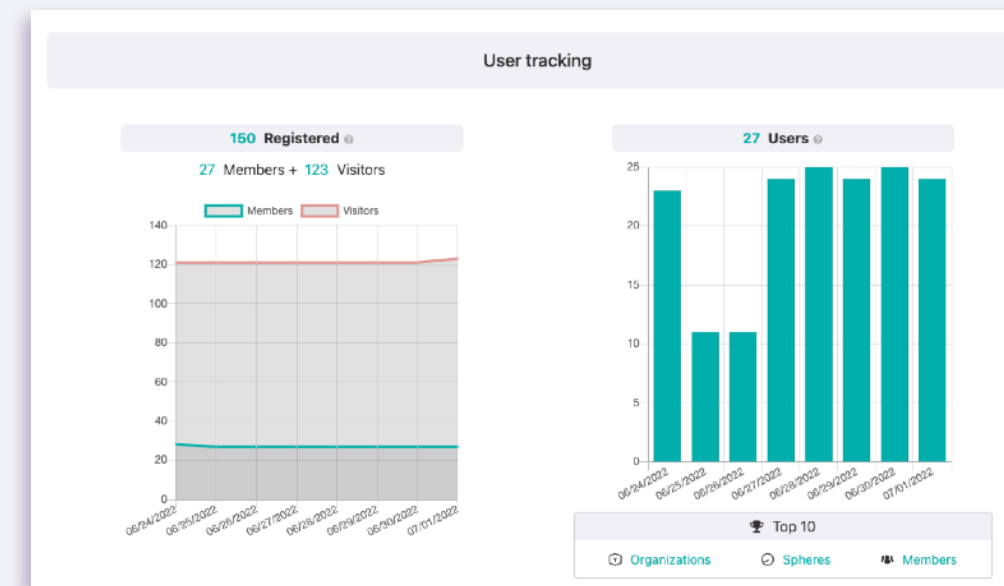

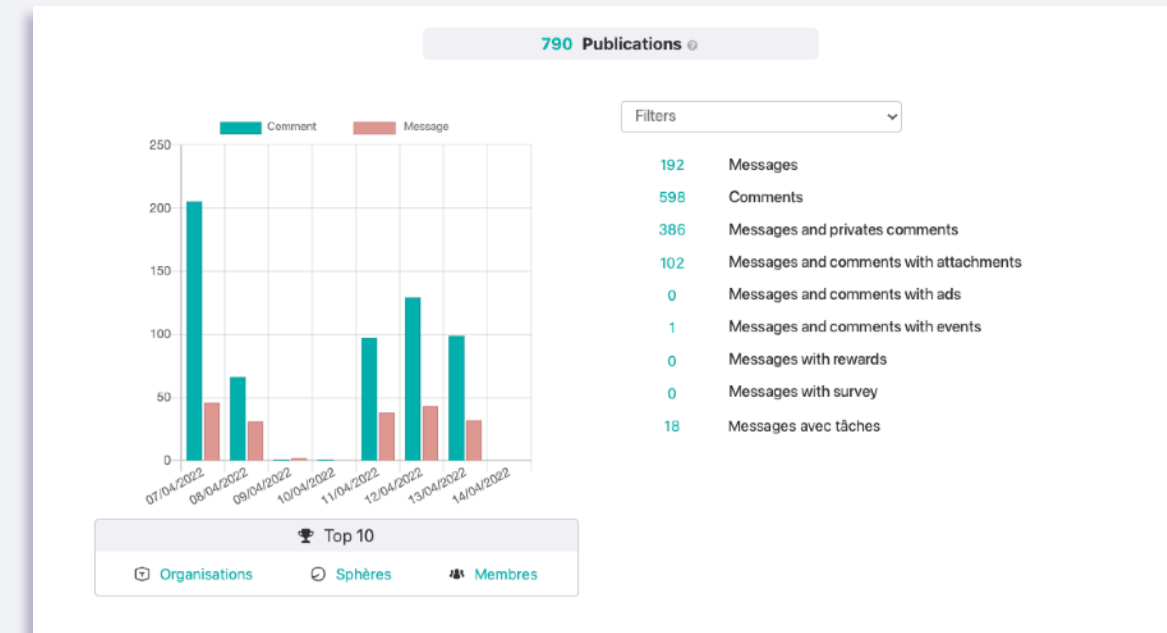

## Oversee the activity in your spheres with statistics on contributors and their participation.

- Activity: activity rate, number of event registrations, number of clicks on a shared link
- Number of visits to spheres and organization portals
- Contributions: messages, comments, reactions
- Users: registered members and visitors
- Invitations sent

Refine results with filters: time period, member, sphere, role.

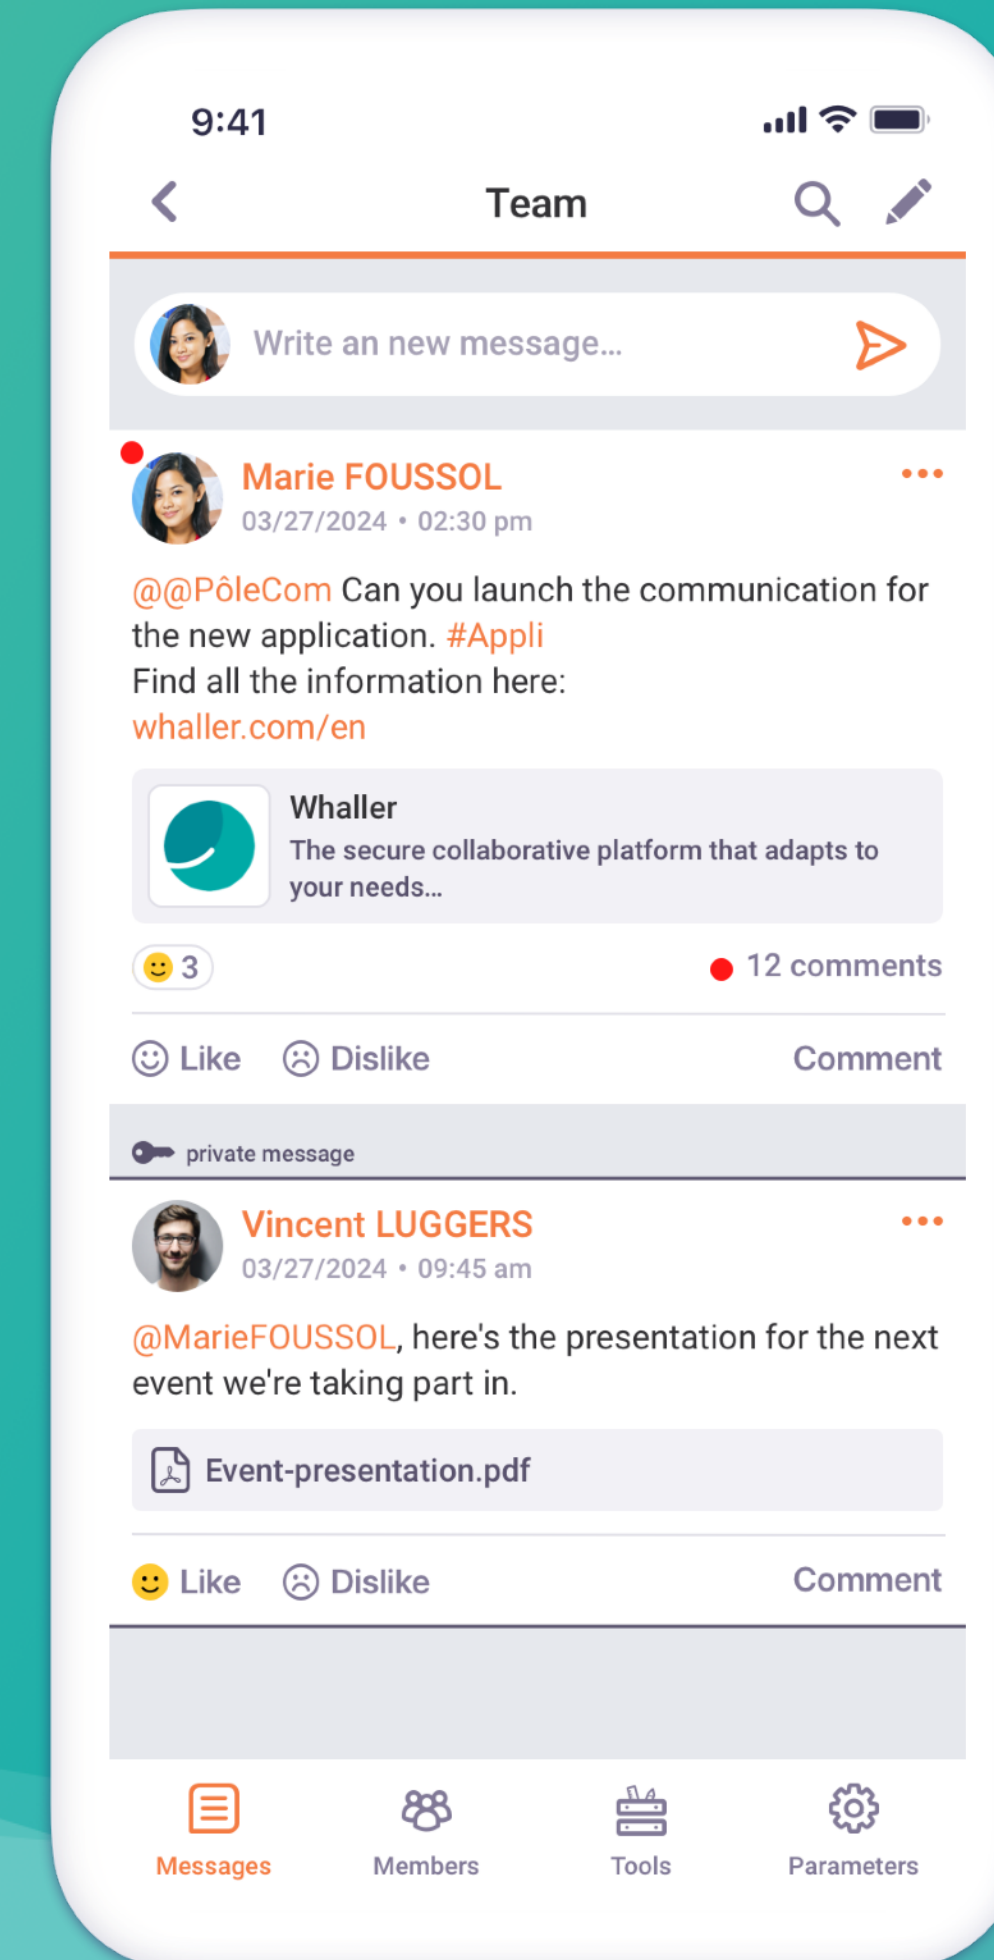

Export data into a spreadsheet for further analysis.

# Mobile application

## Your collaborative social network, wherever you are

- **Simplified mobile access:** Find all your Whaller spheres directly on your smartphone or tablet, for smooth collaboration on the move.
- **Real-time notifications:** Never miss an important message, with live alerts to keep you connected to your network.
- **Instant chats:** Engage in quick and effective exchanges with your colleagues via integrated messaging, *Discussions*.
- **Secure document sharing:** Send and receive files securely, directly from the application, while complying with RGPD confidentiality standards.
- **Multi-support:** Available on iOS and Android, the Whaller application adapts to your business needs wherever you are, for uninterrupted collaborative working.

# Whaller offers

Start small...dream big!
