(Instant messaging)

April 2024

Fast, user-friendly and intuitive messaging!

Until now, discussions were necessarily the subject of a message attached to a sphere.

With this new user-friendly and intuitive messaging module, you can simplify your exchanges and chat in real time wherever you are, with any member of your network, regardless of the sphere, available on web and mobile.

This document presents the messaging interfaces available on both my.whaller.com and white labels.

3 display modes

Launch a new discussion in real time...

The screenshot displays the Whaller interface with several key components:

- Discussions Sidebar:** A list of discussions including messages from Sophie MELERT, Cyber Team, and others, with timestamps and status indicators.
- Group Members:** A grid of 62 members, with a focus on the 'Administrators' section. A hand cursor is shown clicking on a member's avatar.
- Notifications Center:** A panel showing recent notifications from Spheres, Discussions, Invitations, and Requests, including messages from Sophie MELERT, Matthieu, Olivia, Robert, Isabelle, Cyber Team, and Pierre RÉFAU.
- New Discussion Modal:** A window titled 'New discussion' with a search bar containing 'Vincent LUGGERS', 'Olivia MONIN', and 'Ma'. Below the search bar is a list of member suggestions with their names and handles (e.g., Marie FOUSSOL, Maeva ANTON, Manon BERNARD, Matthieu HANSFORD). 'Cancel' and 'Create' buttons are at the bottom.
- Discussion Icon:** A floating icon of a speech bubble with a plus sign, representing the 'Launch a new discussion' action.

The new messaging system will allow you:

- ⚡ **Instant:** start live discussions with any member of your network.
- 😊 **Simplicity:** click on a member's avatar to start a private conversation.
- 📁 **Organisation:** easily manage your discussions using the sidebar.
- 🔔 **Notifications:** never miss a message thanks to the notification center.

...tailored to your needs!

Olivia's birthday

Sophie MELERT
Hello everyone,
I've listed a few gift ideas on this document.
Let me know what you think! 2:09 pm

📎 Birthday gift ideas-Olivia.pdf

Thank you @SophieMelert!
I'm in charge of the birthday card. 2:17 pm

August 30

Ines BLANCHI
I really like the first idea!
Here's the kitty for those who want to take part:
